HERMISTON, UMATILLA COUNTY, OREGON, THURSDAY, NOVEMBER 10, 1927

NO. 10

HERMISTON BEATS

UMATILLA 45 TO 0

VISITORS THREATEN IN FIRST HALF THEN WEAKEN

Passing Attack Keeps Walenta's Crew Guessing Until Second Half Of Contest

The Hermiston Gridiron Warriors cleaned up on the Umatilla Railroaders on the local field last Friday by the overwhelming score of 45 to 0. The game started out like a real battle with the visitors putting up a strong defense and opening up a flashing aerial attack that looked dangerous at times. They held the locals to 6 to 0 in the first half and had possession of the ball most of the time.

In the second half the record was different. From the first kickoff Hermiston carried the ball straight down the field for a counter. They kept the oval most of the time and scored repeatedly on end runs, off tackle smashes and as a result of intercepting Umatilla passes.

George Feltzer uncorked some new ones on the locals, but one stunt on kickoff was ruled out. The Hermiston line proved mighty tough for the visitors, and the field running ability of Newell and Kennings, aided by the interference given by their back-field mates proved plenty good.

Mahoney, Thompson and Walsh made up the visitors' passing combination, and Bray was the strong man of their defense.

Coach Walenta played all of his men in the fray to give some of the younger players a little experience. The local lineup was as follows:

Griggs, center; Earnheart, Uppham guards; Ott, Robinson, tackles; Smith, G. Parsons, ends; D. Parsons, McKenzie, halves; Newell, full; and Kennings, quarter. Substitutions: Addelman for Ott; Felthouse for D. Parsons; D. Parsons for Addelman; Briggs for Felthouse; Nation for Briggs.

Warner, referee.

SEED POTATOES ARE LOW

IN PRICE THIS SEASON

Prices being paid for seed potatoes this year are not sufficiently high to cause much enthusiasm among growers on Weston mountain, according to W. L. Rayborn, one of the leading growers of that district, who was here Monday in connection with the delivery of a carload of Irish Cobbles to the Farm Bureau Co-operative for local growers.

"Common mountain seed for immediate delivery has been selling for \$22.50 per ton," he said. "Standard seed is bringing \$27.50. Very little certified seed stock has been sold to date, but the sales made have been at the rate of \$32.50 per ton."

Yields this year on Weston mountain were about normal, Mr. Rayborn stated. He had both Netted Gems and Irish Cobbles. He plans to double his acreage of Cobbles next year.

Dr. Thistlewaite Coming

Tests of dairy herds on the project for tuberculosis will start Monday morning. Dr. Thistlewaite will be here to make the tests. Those dairy herd owners desiring to have the work done should notify P. P. Sullivan so the itinerary can be arranged.

Ole Aarhus of Umatilla was a Hermiston visitor Tuesday.

MRS. W. G. McADOO

New portrait of Mrs. W. G. McAdoo, wife of the former secretary of the treasury, and daughter of the late President Wilson.

GRANT PERMIT FOR BIG LONGVIEW SPAN

Washington, D. C.—Application of the Longview Wash., Bridge company for a permit to start construction of a bridge over the Columbia river on revised specifications was granted by the cabinet committee which considered the question.

The revised application, changed to conform with the minimum clearance requirements fixed by Secretaries Davis, Jardine and Hoover had been placed on file with Secretary Davis of the war department.

The application is the necessary routine step to carry out the requirements laid down by the secretaries at their recent meeting, increasing the vertical clearance of the bridge from 175 to 185 feet and the horizontal clearance between the central piers from 1000 feet to 1120.

The application for a permit was submitted by W. D. Comer of Seattle and Wesley Vandercook of Longview.

GOMEZ' CAREER ENDED

Mexican Rebel Leader is Captured and Promptly Executed.

Mexico City.—General Arnulfo Gomez has joined in death his companion in the recent revolutionary movement, General Francisco Serrano. The presidential office announced that Gomez was captured and executed near Teocelo, state of Vera Cruz.

Thus the attempt of Gomez, Serrano and numerous other rebel generals against President Calles and his government has come to an end. Serrano was captured and executed two days after the movement began. Gomez succeeded for more than a month in hiding in the mountains of Vera Cruz with a handful of followers.

Germany Names American Envoy.

Berlin.—Dr. Friedrich Wilhelm von Prittwitz-Gaffron, councillor of the German embassy at Rome, has been confirmed as successor to Baron Ago von Maltzan, late German ambassador to the United States.

Jardine Opposes Reflooding Lake.

Washington, D. C.—Secretary of Agriculture Jardine announced he had definitely decided reflooding of Lower Klamath lake in Oregon and California was impracticable.

W. W. Felthouse is in Portland this week on business.

LAMB FEEDING TO BE DONE THIS YEAR

EXPERIMENT STATION TO HAVE SIX LOTS IN TEST

Value Of Hay In Different Forms To Be Studied Again In Sixth Year Of Work

Lamb feeding for experimental purposes is being conducted this year at the Hermiston Experiment station for the sixth consecutive year, according to H. K. Dean, superintendent. The lambs are still on pasture and will not go into the feed lots at the farm until December 1.

The purpose of this year's work will be to secure further information as to the relative value of long hay, chopped hay and ground alfalfa meal for lamb feeding, Supt. Dean stated. Data already secured in previous years show that chopped hay is more profitable and that the meal is still more economical than long hay, with allowance made for the greater cost.

The lambs will have a ration of all the hay they will clean up and a pound of whole barley per head per day. There will be six lots of 45 head each.

"During the five years our feeding operations have been conducted we lost money one year, broke even another and made money the three remaining years," Mr. Dean stated. "Lamb feeding is not proving of interest to many local farmers, but in Union, Wallowa, Malheur and other eastern Oregon counties, I have found that sheep men and feeders have been following the results of the test closely and with interest."

HIGH SCHOOL PLAY PLEASURES AUDIENCE

"It Happened in June" Given By Student Body Adds Money Athletic Fund.

Members of the cast of "It Happened in June," presented in the high school auditorium last Saturday night, established a high standard of excellence for dramatic offerings for other high school and class groups to follow. The training was done by Miss Alice McCollum, and the effectiveness of the acting was enhanced by new stage scenery, the work of Miss Rose Donovan.

The comedy offers all sorts of funny situations, and the members of the cast lost no opportunity to realize the maximum effectiveness of the play's offerings. Jack Smith as the elderly Jim Pritchett, Ruth Bensen as Mollie Jessop, the perfect Irish cook, Jane Warner, the spinster lady seeking romance in diligent fashion, Maxine Avery and Albert Kennings, the insurance salesman, divided the comedy laughs between them.

Shirley Brownson as Betty Branson was a very satisfactory leading lady. Vernon Harrah gave a convincing portrayal of the villain role as Jarvis Sneed. George McKenzie, the wild young man sent to Shady Grove to be tamed, found the treatment very acceptable and interpreted his role in creditable fashion. Marlon Henderson succeeded in diverting Randy Stewart's mind from insurance to strawberry socials and other things in her role as Susie Crundel, a friend of Betty.

INTEREST CONTINUES IN FORMING COW TESTING BODY

Cow testing work that will require between one and two weeks of the official tester's time is in prospect in the Hermiston district, according to a check made by G. H. Jenkins, assistant county agent, who is in charge of securing the sign-up of dairy herd owners locally for the proposed cow testing association.

Local dairy men are keenly interested in the proposed association, and the chief cause of delay in pushing the sign-up through to an immediate conclusion is the fact that so many herds are so small that two or three owners must combine in order to provide one day's testing each month, Mr. Jenkins stated. Neighbors are co-operating in these arrangements, which are being worked out slowly.

WATER DISTRICT ELECTION IS WARM

MADDEN AND STROHM EMERGE AS VICTORS

Many Ballots Cast And Only Six Votes Determine Winner In Nation-Strohm Case

Tuesday was election day for irrigation districts, and in the Hermiston district one of the hottest contests ever recorded in the history of the district marked the balloting.

New Madden for the long term and George Strohm for the short term were elected, but their opponents, Jasper Templeton and Bert Nation, both polled heavy votes.

The vote cast was as follows: Templeton, 56; Madden, 107; Strohm, 85; Nation, 79.

In the Westland district, Lee Savely, candidate to succeed himself as director, was unopposed, and all 15 votes cast were for him.

The Hermiston board will now consist of Walter Botkin who has served for several years, Mr. Madden and Mr. Strohm. H. J. Stillings, retiring member of the board, was not a candidate for re-election.

BANQUET AND PROGRAM TO BE GIVEN BY LOCAL LEGION POST ON NIGHT OF ARMISTICE DAY

Efforts to make November 11, 1927, ninth anniversary of the armistice between Germany and the allied powers, a day long to be remembered in this part of the country are being made by Hermiston Post of the American Legion. The committee in charge of arrangements thinks the day will linger a long while in the memories of those participating.

At its last meeting the post authorized a big banquet for veterans of the World war and their ladies to be held on the night of Armistice day. A special committee consisting of J. M. Biggs, Ussel Hiatt and Logan Todd was appointed to take charge of arrangements.

The banquet will be held at Hotel Hermiston at 8 o'clock with the post paying the bill. Reservations must be made in advance, and indications are that at least 80 from Umatilla, Echo and Hermiston will be present. A program of talks and musical numbers is being arranged, after which a social hour will be enjoyed.

Miss Ada Soneson spent a day in Pendleton last week on a shopping trip.

H. B. TEEGARDEN

H. B. Teegarden of Greenville, Ohio, who has been named special assistant to Attorney-General John G. Sargent.

SINCLAIR CHARGED WITH CONSPIRACY

Washington, D. C.—A formal complaint charging Harry F. Sinclair and one of his agents, Henry Mason Day, with conspiracy to tamper with the jury which was hearing the criminal oil conspiracy charge against the wealthy oil operator and Albert B. Fall was issued by United States Commissioner Needham C. Turnage.

The government maintains that Sinclair, Day and A. Sheldon Clark, a Sinclair Oil company official, are the principals in an alleged plot which centered around detective shadowing of jurors in the recently collapsed Fall-Sinclair oil conspiracy trial.

Another startling chapter in the dramatic story of the naval oil leases was closed with the declaration of a mistrial in the hearing of criminal conspiracy charges of two of the foremost actors in the long drama—Albert B. Fall and Harry F. Sinclair.

A grand jury will write new history in its investigation of charges of jury tampering before the ex-interior secretary and the multi-millionaire oil operator and sportsman come to the bar of justice again for a new trial, probably in January.

BRIEF GENERAL NEWS

Four members of the Indianapolis city council were indicted on charges of bribery.

Earthquake shocks which may have contended in the Pacific Ocean off the Santa Barbara county coast line in California, were felt from Los Angeles north to San Luis Obispo and east as far as Bakersfield.

A renewed boycott of the British by the Chinese is in full swing in Canton, presumably as an endeavor to rally popular support to the newly organized Cantonese regime under leaders of the original nationalist movement.

Evidently the victim of high altitude suffocation, Captain Hawthorne C. Gray, army balloonist, was found dead in his balloon, in a trestle at Stiles, Tenn. He left Belleville, Ill. in an attempt to break the world's altitude record for balloons.

The Stork

Mr. and Mrs. U. C. Lenhart are the parents of a seven and a half pound boy, born November 7 at the Hermiston hospital.

EGG MARKETING TO BE MEETING TOPIC

POULTRY MEN TO GATHER AT THE DALLES TUESDAY

Discussion On Establishing New Packing Plant In Eastern Oregon Expected

A meeting that is expected to have a vital bearing on the future of egg marketing districts east of the mountains in this state will be held at The Dalles next Tuesday, November 15. The meeting has been called by L. R. Breightaupt, state and federal specialist on farm economics, at the request of poultry growing districts. Hermiston will be represented at the meeting by a delegation that will include both growers and local business men, according to G. H. Jenkins, assistant county agent, who received notification of the meeting. County Agent Holt will also attend from Pendleton and probably will have a delegation present from the wheat belt.

The meeting is expected to resolve itself into a discussion about locating an egg packing plant east of the mountains. At present organized poultry producers ship their eggs by the case to Portland where grading is done. If a plant can be supported east of the mountains, growers will save quite a little on local freight charges.

Hermiston has tried in past years to secure such a plant here, but volume has never been sufficient, according to the Pacific Poultry Producers association, so local growers have resigned themselves to wait until the number of hens here increased sufficiently to insure the plant.

POPULAR IRRIGON WOMAN DIES IN YAKIMA HOSPITAL

Complication Of Diseases Causes Death Of Mrs. C. E. Glasgow After Brief Illness

Mrs. C. E. Glasgow of Irrigon died on Thursday evening, October 27 after about ten days illness with what was first supposed to be bronchial pneumonia and heart trouble, but the immediate cause of death was cerebral paralysis.

Mrs. Glasgow was Agnes N. Nolan, daughter of Bernard and Idella Nolan. She was born in Sioux City, Iowa, July 26, 1883, and was past 44 years old at the time of her death. Her childhood was spent in Sioux City, and at the age of 11 she moved with her parents to Galena, Illinois, where she grew to womanhood. She was united in marriage to Charles E. Glasgow to which union one daughter was born.

Surviving relatives include her husband of Irrigon, daughter, Mrs. Genevieve Hayden of Seattle; her mother, Mrs. Idella Studer, Shanesville, Ohio; and the following full and half brothers and sisters: Mrs. Laura Broadrecht, Galena, Illinois; Irene Fair, Dundee, Ohio; Leroy P. Nolan, New York City; Freddie Studer, Mina, South Dakota; Ethel Studer, Shanesville; and Mrs. Della Wengard, Dover, Ohio.

After residing six years in Guilford township, near Galena, Mr. and Mrs. Glasgow moved to Freepport for one year, thence to Scotland, South Dakota, where they farmed for 11 years. In 1916 Mrs. Glasgow submitted to a very serious operation. She never fully regained her health.
