WAR WORK NOT AT END FOR RED CROSS

Demands for Service to Disabled Veterans Last Year Cost Nearly \$3,000,000.

Expenditure of \$2,930,223.86 for services to disabled veterans, and of \$507,832.30 for service to men of the Regular Army and Navy, were outstanding details of the Red Cross appropriations for the past year's activities, and are cited by Chairman John Barton Payne as the continuing importance of this phase of the organization's responsibilities nine years after the end of the war.

Of the total expended for disabled veterans, the National Organization contributed \$1,161,223.86, and the local Red Cross Chapters \$1,769,000. The service to men of the regular forces was shared by the National Organization with an appropriation of \$307,832.30, and by the local Chapters with \$200,000.

During the year the Red Cross as a whole contributed materially to the success of the Government efforts to have every veteran re-instate or convert his war-time insurance before the final time limit expired. Chapters worked in cooperation with local veterans' bodies to assist former service men with their insurance papers, and the application routine, many Chapters keeping open headquarters up to the expiration of the final moment at midnight.

Under local Chapters of the Red Cross, assistance to ex-service men in filing claims for disability and adjusted compensation, securing hospital care for disabled veterans, preparation of social histories for use in treatment of men in government hospitals, assistance in securing proper guardians for veterans adjudged incompetent to administer their affairs, rendering reports on home conditions of service men applying for discharge because of dependency, and many other forms of aid are a part of the Red Cross duty to these men.

An interesting detail reveals the fact that prosecution of ex-service men's claims is becoming increasingly difficult as they grow more involved with each year that passes since the war. The number of death claims is growing constantly, in addition to the fact that there is a steady increase in the number of claims referred to various branches of the Red Cross concerned with assistance to veterans, for aid in bringing them to a close.

During the past year, National Headquarters estimated that the Red Cross assisted veterans and service men with cases involving total awards of \$558,681, for disability and death compensation, revival of insurance, adjusted compensation, pensions, medical and burial reimbursements, etc.

Red Cross representatives are on duty with the Army and Navy both in home and foreign garrisons, and contact is maintained in the hospitals and other centers where assistance to these men and women may be needed. Such Red Cross service, it is emphasized, covers only the fields where regular governmental provisions do not apply, and is designed to supplement these benefits of the Government.

Capital's Police Women Stand High in First Aid

Members of the Women's Bureau of the District of Columbia police department recently completed the Red Cross first aid course. This is perhaps the first women's group of the kind to be awarded the special first aid arm insignia by the American Red Cross in token of completion of the training.

The Red Cross in the past year qualified 24,812 persons in first aid and awarded certificates to members of police and fire departments, industrial groups and utilities employees all over the United States.

The Eleventh Annual Roll Call of the American Red Cross, during which new membership is invited, will be held this year from November 11 to 24.
