WHATZWAT

(In the Seventh Grade)

In the nine weeks' examination the grades were very good. Marguerite Sunstrup ranked first with 1.4, Howard Cherry and Dick Martin tied for second place with 1.6. Margaret Felthouse and Paul Hamrick tied for third with 1.7. Glen Pierson made fourth with 1.8, and Eddie Bensch fifth with 1.9. Others were very close.

Marguerite Sunstrup has the honor of being the only one not to miss a word in spelling all nine weeks. She also made 100 in the final test.

We are having a race by rows in spelling. The two losing rows are going to treat the two winning rows at the close of the race.

Everyone in the room raised his average in grades this nine weeks. Glen Pierson made the biggest raise. He brought his average up 1.9 points.

Everyone is taking out a contract in some subject. If you don't know what contract work means, please come and visit school to find out.

The Seventh grade civic league is holding its next regular meeting Friday, January 27, at 2:15. We will have a little entertainment before the meeting. You are all cordially invited to attend.

Written by Dick Martin.

Span Proposed at Mouth of Columbia.

Astoria, Or.—A proposal of E. M. Elliott and Associates Inc., of Chicago, for the erection of a toll bridge across the Columbia river at Astoria was submitted to the city commissioners in the form of a communication addressed to the city manager and a resolution presented for passage by the commission. If approved, this measure will grant a blanket approval by the commission for a right of way for a bridge approach at a point to be selected by the company in connection with its proposed construction. The matter was referred to the city attorney for report.

Hickman and Hunt Face Joint Trial.

Los Angeles. — Former pals who plundered and murdered together and then "squealed" to bring each other to justice must face the state together. Superior Judge Carlos Hardy so ruled when he denied the petition of Welby Hunt, 16, who sought to be tried separately from William Edward Hickman for the murder of Ivy Thoms, druggist, shot to death in a holdup, Christmas eve, 1926.

Reorganized Milwaukee Line Effects.

HERMISTON DRUG CO.

In a trade paper there recently appeared an article relating the experience of a citizen who purchased by mail two packages of an article which was used in his and many other households.

The mail order offer was that two packages of the article would be sold for \$2.50, but that two packages must be taken in order for that price concession to be secured.

The buyer dropped in at the store where he did a big part of his trading. The merchant noticed the package, his curiosity was aroused, and he asked his customer what he had.

The mail order buyer was not very anxious to talk about his purchase—maybe the merchant had tided him over a lean period once or a dozen times when credit meant his only chance to succeed—but finally the story of the transaction was told.

"I have that same article, made by the same house. My price is a dollar a package. Why didn't you buy of me?"

"I didn't know you carried it," came the reply. "I never saw it advertised here."

Mr. Merchant, you are losing business that should be yours merely for the effort of letting your customers and potential customers know what you have.

LET NEWSPAPER ADVERTISING HELP YOU. It is the cheapest salesman you can employ. It travels far, appeals to many, makes friends for you, and if you give it a chance by making your copy what it should be, gets results.

"Sea Desert"

In the south Pacific ocean has just been discovered the most desolate spot in the world. According to Dr. Austin H. Clark, who helped chart it for the Smithsonian Institution, the place is devoid of any kind of life, either in the surface waves or at the bottom, says Popular Science Monthly. No region on land is comparable with its lifelessness.

Ear bones of whales and teeth of sharks on the red clay bottom are the only remains of sea monsters that strayed into the "sea desert" and perished.
