LOCAL AND PERSONAL

BREVITIES
 Occurrences of Interest Gleaned Here and There About the City and Neighborhood

C. S. McNaught left Sunday on a business trip to Seattle.

Mr. and Mrs. J. M. Biggs and Mrs. J. S. Harvey were Pendleton visitors Friday afternoon.

Mrs. Edgar Peterson of Powell Butte, Oregon, is here as a guest of her parents, Mr. and Mrs. J. S. Dyer.

Mrs. George Sales has returned from Portland where she spent some time with Mr. Sales who is a patient at St. Vincent's hospital. He will return home in 10 days or two weeks.

E. R. Schiller and E. C. Olson were here Monday from Pendleton with a new Dodge Victory six which they permitted a number of local men to drive. Glenn Stater was here Tuesday.

The M. E. Ladies aid society will hold a cooked food sale Saturday, January 28, at the Hermiston market. The business meeting of the society will be held Wednesday afternoon, February 1.

Twelve guests were present at a luncheon and bridge party for which Mrs. H. E. Hitt was hostess at her home Tuesday afternoon. Prizes were won by Mrs. F. V. Prime and Mrs. Mabel Ralph.

Mr. and Mrs. H. M. Straw entertained at a dinner and card party last Saturday evening. Plates were laid for 10. In the bridge playing first prize was won by Mr. and Mrs. A. H. Norton, and consolation by Mr. and Mrs. C. W. Kellogg.

Dr. J. L. Sears returned Saturday night from Willamette valley points where he spent a few days. Mrs. Sears and daughter remained for a longer visit. On the return trip from Portland Dr. F. V. Prime accompanied Dr. Sears home.

Mrs. C. S. McNaught and Mrs. F. V. Prime entertained at a luncheon and bridge party at the Prime home Saturday. Guests to make six tables were present, and prize winners were Mrs. H. T. Fraser, Mrs. A. H. Norton and Mrs. G. H. Jenkins.

John, Robert, Fred and Dick Thom have returned after having spent the past few months in the south. Dick spent most of his time in Arizona, and the other three brothers were in California the greater part of the time.

Mrs. E. P. Dodd and Mrs. C. W. Kellogg were hostesses at a luncheon and bridge party last Friday afternoon in honor of Mrs. R. E. Mitchell who will leave Hermiston soon to join Mr. Mitchell in their new home. Guests to make three tables were present.

Tony Sherrod, formerly of Wallowa, has moved onto the Clyde McElroy place for which he recently traded his Wallowa county farm. Mr. and Mrs. Clyde McElroy moved last week to Wallowa, and Charles McElroy and his mother are leaving this week to join them, according to present plans.

At the Baptist church Sunday, January 29: Union services, Bible school at 10 A. M. Morning worship 11 A. M. Theme, The work to be worthy the position. At 3 P. M. all young people and others interested in a Christian Endeavor are urged to meet at the church. Claude Pevey, president of Columbia union, will be here to help organize. Evening service 7:30 P. M. Theme, Seeking the Best. A wise man is like a pin; his head keeps him from going too far. These services are going fine; come and help in a worthy effort. A cordial welcome to all. A. J. Ware, pastor.

Brrrrrrrr—winter?
 Yes—but you need have no fears. If you feed your car the proper fuel, oil and grease, it will keep warm, thereby never stalling you on a wintry day.

 FRANK LITTLE PROPRIETOR

"Our chickens had the chickenpox for about two months, and that trouble threw them off in their production, but they are coming back now," said Joe Udey one day this week. "Our herd of dairy cows has given a good account of itself, and I'm planning to increase the herd up to about 30 head."

Mr. and Mrs. P. B. Doherty will move to Echo the first of the month from Portland. Mr. Doherty was awarded the contract last week for building three miles of road out of Echo to cost \$23,000, and the family plans to live there during the spring and summer. Mr. and Mrs. Doherty were here last week, and a dancing party in their honor was given at Stanfield.

A party in honor of Mr. and Mrs. R. L. Elliott who have gone to Seaside was given last Friday night at the O. C. Pierce home with Mrs. Geo. Wagner, Mrs. Joe Cahill and Mrs. Pierce as hostesses. There were five tables of 500 in play during the evening, and prizes were won by Miss Ada Soneson and George Wagner and Mr. and Mrs. William Shaar. Mrs. Elliott and Mrs. Pierce are sisters.

Tim Gaither lost his adopted bird dog the other day and life has been a bit cloudy for him since. The dog followed Bert Nation home last fall on a trip out of the wheat belt. Mr. Gaither adopted him, put fat on his ribs and used him during hunting season. The other day a farmer from the Holdman country came to town, noticed the dog, claimed him and took him home. Since then Mr. Gaither has had to be satisfied while on hauling work with the company of O. T. Lockridge.

Very Embarrassing

A professional model was one night posing in the nude before a dozen men who were intent on getting every second of the fleeting hour, in a silence broken only by the nervous scratching of charcoal on paper, when an incident occurred which throws an odd light on feminine psychology, relates Walt McDougall, the cartoonist, in "This Is the Life!"

Only a minute or so remained before the period of rest, when, with a sharp shriek of genuine alarm, the lovely model leaped from the stand and fled outside the circle of light focused upon her form.

"I saw a man looking down upon me from that window next door!" she managed to explain when her agitation had subsided.

Watch Care

Before winding your watch after a cold snap warm it for at least a quarter of an hour; winding it immediately after exposure to cold may break the spring. During the night, the watch will run better if it is in about the same position it occupies during the day. The timepiece should be wound in the morning instead of at night. It is directly after winding that a watch works best and can thus stand the vibrations during the day. It should be wound slowly, carefully avoiding jerks. Count the number of turns the spring will allow without undue strain. These hints were recently given by a large watch manufacturer as practical ways to improve the performance of the timekeeper and prolong its life.

According to Hoyle

Even among the elders we see so little of the old-fashioned fastidious firs and beeches which make the valley shady have been falling victims to the wind. It is a delicious spot; the Benedictines who established themselves there just before William the Conqueror landed in England always chose pleasant places for their abbeys. But how did Milton come to hear of it, I wonder? In the Seventeenth century to make the excursion from Florence to Vallombrosa wasn't as easy as it is today.—London Daily Chronicle.

Safety in Pyramids

An interesting speculation concerning the real reason for building the Pyramids originally is that of all forms of man-built structures the pyramid form is the least liable to be disturbed by an earthquake.

Along this line it is interesting to wonder if the newer architectural plan of building skyscrapers in pyramid form is not one of the wisest moves that could possibly have been made to avoid the earthquake menace. As cities grow, the potential danger from earthquakes is enormously increased, and the pyramid form of architecture is one of the best possible protections against disaster from this source.

Beautiful Labrador

It is predicted that when wireless means of communication has been extended and coasts are better charted and lighthouses built that Labrador, with its rocky inlets and bracing climate, will become, like Norway, a rendezvous for summer yachtsmen. In the short northern summer Labrador is pictured as a land of supreme beauty. Rocky headlands run far into the sea. Deep fords cut the fir-covered hills of the interior, where sub-Arctic vegetation flourishes and salmon streams invite the fishermen. Grand falls, on the Hamilton river, is nearly three times as high as Niagara.

Good Equipment Makes a Good Farmer Better

Are you getting all your cream into your cream check? Regardless of what separator you are using, have your skim milk tested by your creamery man at least twice a year and definitely know if your separator is skimming clean.

The McCormick Deering Primrose Ball Bearing separators are paying for themselves many, many times over through clean skimming, long life and easy turning. In fact, the McCormick Deering Ball Bearing Primrose is not only a close skimmer, but makes play of a man's size job, for it requires 35 per cent less energy to turn than a plain bearing machine.

SOME SUPERIOR FEATURES OF THE PRIMROSE ARE:

1. Clean and efficient skimming.
2. Easy running.
3. Ball bearing.
4. Long life.
5. Positive, automatic and visible oiling.
6. No oil holes.
7. Improved heavy hardware.
8. Easy bowl adjustment.
9. Sanitary and easily washed.
10. Long time payment plan.

There are many other features too numerous to mention, but if you will stop in or call us, we will be glad to show you the Primrose or to demonstrate its actual merits on your farm.
