SCHOOL NEWS

It will be rather interesting to note that one of the two grade school houses have been swelling not only from the sunshine, but the glee club are practicing on a coming operetta. They practiced first in the room where a French class is held later in the day, and by the glee club's outbursts swelled the room so that a water pipe to the laboratory overhead must have sprung a leak, the French teacher reported to the science teacher, so both blamed the music for it. With the debators practicing in his room and the glee clubs making the hot air circulate the wrong direction in the air pipes, the janitor was nearly deaf and crazy. So between the French and science teachers and the janitor, the glee clubs got kicked out of the high school to the grade building.
