"To thine own self be true, and it must follow as the night the day, thou canst not then be false to any man."

The abundance of rain that has visited this district in recent days is proof after all that at times Eastern Oregon is a cousin of the Willamette valley.

Some of us in Oregon who vote the republican ticket would like a chance to express a real preference for Frank O. Lowden as the party presidential nominee in the primary.

With cows mighty popular, turkey growing expanding at a lively rate and the chicken business plugging along in substantial manner, there is plenty of reason to believe that the project is going ahead on a program of activity that will make for constant improvement.

Recently Senator Caraway described Secretary Work as a coward and more in a speech on the senate floor. Senator Heflin advised Mrs. Willis, widow of the late Ohio senator, to have the contents of the stomach of her husband analyzed by a competent chemist, following his sudden death. Those are just two items of news that materialized within a 24 hour period that make the common citizen wonder what has become of that old-fashioned quality known as senatorial dignity. Of course, Caraway may have been right.

Oregon is making the reputation of being one of the best states in the country for new people to enter with a chance of receiving substantial encouragement in farming activities. W. G. Ide, manager of the state chamber of commerce, said this week while in Hermiston. The good thing about that is that the reputation is deserved.

of the association. "It is interesting to note, also, that Mr. Coppock's cow was the second high producing cow of 10 of the Oregon cow testing associations.

"It should be kept in mind that all these records include the dry cows in the herd.

"As a result of the monthly test given each cow to determine her production, there were nine unprofitable cows sold in February by association members. Had these cows not been tested they would have undoubtedly been retained in the herds and would have returned to their owners a loss. The locating of one unprofitable cow in a herd will often times pay the dairyman his entire cost of membership in the association. Any dairyman interested in learning whether or not his cows are paying a profit or returning a loss should take advantage of the opportunity to belong to this association of dairymen. Interested persons could get in touch with the secretary, Eldon L. King, at Weston, the county agent at Pendleton or G. H. Jenkins, Hermiston. At the present time the association is in a position to include one or two additional herds in its membership."

The school board has purchased a first aid kit for use in the grades which will be kept in the sixth grade room.

The Pine Tree patrol is leading in the patrol contest with 32 points. The other patrols rank as follows: Cubs, 29 points; Beavers, 16 points; Owls, 13 points. There will be a tenderfoot investiture at the next scout meeting. The flag that is to be presented by the men's Bible class of the Baptist Sunday school will be given at the scout meeting April 10.

On Friday, March 29, Mr. Cherry talked to the Civics class on the cost of education in Hermiston. He gave figures from the 1927-28 budget and also the probable figures of the 1928-29 budget. The per capita cost of a high school student per year is approximately \$180, and that of a grade student \$88. This cost is from \$30 to \$50 less than many of the schools of the county.
