

"Let prejudice stand without the gate this day as we go with flowers for all who fought and fell for us. For they are not Protestants, Catholics, Jews nor Gentiles NOW—nor Whites nor Blacks—only Old Glory's silent brotherhood."

On Memorial Day we join with others in revering the memory of all those who made the supreme sacrifice.

A Paramount Picture

Prices, 25-50c

Saturday and Sunday June 9 and 10

"Rubber Tires"

Starring Harrison Ford and Bessie Love. A story of tin can tourists and auto camps. A comedy full of laughing gas and breaks all speed records. His lizzie had only one lung but a laugh on all cylinders.

HERMISTON LOCALS

Mr. and Mrs. Gaither left Sunday for Pullman and other points in Washington.

Mrs. Rinehart Buhman entertained the 500 club Thursday afternoon. High prize went to Mrs. Shesely and second to Mrs. Groom.

E. P. Dodd returned Sunday from his ranch in the Yakima valley.

F. B. Swayze returned the last of the week after spending a few days in Portland.

Harlan Thomas and wife of Seattle were here for several days at the home of his sister, Mrs. Joë Dyer. Mr. Thomas is head of the architectural department of the University of Washington. They were returning from Eugene where he had been visiting the department at that place.

An All-Umatilla county dance will be held in Happy Canyon on Saturday evening, June 2, when the doors of the fun hall will be opened for the first large dance of the season. The dance is sponsored by the Pendleton Playgrounds council and is for the benefit of supervised play in three of the city parks this summer.

At least 30 different kinds of vegetables can be successfully grown in various parts of Oregon, says A. G. Bouquet, head of vegetable gardening at the college, in his new extension bulletin, "The Farm Vegetable Garden." This bulletin presents in concise tabular form information concerning the farm and home garden. Many farmers underestimate the value of good home garden, says Professor Bouquet. This bulletin is for free distribution.

A production of milk for a year is considerable strain on the system of a high producing cow. A rest period of six weeks to two months is given by most successful dairymen, finds N. C. Jameson, extension specialist at the college. Cows difficult to dry up have their feed reduced and are milked but once a day for several days.

Cold Springs School Closes
Hermiston, Ore., May 28, 1928
Hermiston Herald:

The Cold Springs school closed on May 25. As this school is a part of the Hermiston high school district we thought perhaps the readers might be interested in knowing something about it.

The Cold Springs school is ten miles northeast of Hermiston. There have been twelve pupils the past year in grades from one to seven. Nine pupils, or all above the second grade, received certificates for home reading. Gladys Mortamer, seventh grade, and Virgie Page, sixth grade, received Palmer progress pins for writing. Dorothy Tonies won the silver medal in the lower dramatic division at the county declamatory contest. Cold Springs also won a first and second place at the local track meet. Gladys Mortamer, Hugh Mortamer and Virgie Page received certificates for perfect attendance for the year.

Mrs. Jessie Hine line has been teaching at Cold Springs for three years and will return when school opens in September.

Study of the juvenile delinquency records indicates that today use of the trunk strap is confined to trucks.

Sometimes a man finds a girl after his own heart only to find later that she really was after his pocketbook.

Feminine fashions keep the dressmaker's shears going at a busy clip, to say nothing of the barber's shears.

Only Five Holidays Universal in States

With all the many holidays which bless this country, it comes as a surprise to learn that there are actually only five days in the year which are celebrated everywhere in the United States and its possessions. These are New Year's day, Washington's birthday, the Fourth of July, Thanksgiving day and Christmas. The states have other holidays. The tally is interesting:

Labor day has the greatest popularity, being observed in 46 states; election day comes next with 43; Memorial day follows with 38; Columbus is honored by 35; Lincoln by 26, and Armistice day by 23. In the South the birthdays of Jefferson Davis and Robert E. Lee are still observed by 10 and 9 states, respectively, and 4 of the southern states celebrate April 26, the date of the surrender at Appomattox, as Confederate Memorial day.

Making Tidal Predictions

The machine used for predicting tides is termed "a mechanical prophet with brains of brass." This machine, which weighs about 2,500 pounds, is about 11 feet long, 2 feet wide and 6 feet high. It was conceived, designed and constructed in the office of the coast and geodetic survey and put in operation about 1910 and has been used continuously for tidal predictions by the government. This machine is designed to calculate simultaneously the 37 factors that go to make up the tide. These factors depend upon the relative position of the sun, moon and earth and also upon the shape and size of the harbor through which the predictions are made.

Diners Need Solitude

Of all esthetic human activities that of dining is most successfully and properly conducted in solitude. Those who miss appetite are suffering from a lack of concentration upon their viands. They have lost appreciation of aroma and of flavor by allowing competing sights and sounds to enter into the performance of a ceremony which should partake of religious austerity. If I ever set up as a physician I will send no nervous wreck through the horrible ordeal of sitting at some long table in a health farm and dining amid the clatter of the nascently red-blooded. — Heywood Brown, in Vanity Fair Magazine.

Famous Old Church

The Trinity church (Boston) corner stone was laid in 1734, as an outgrowth of King's chapel. The first building was of wood, 90 feet long and 60 feet broad, without any external ornament, neither tower, steeple nor window in the lower story of the front of the building. There were three entrances in front, with neither arch nor porch. The inside, in contrast with the exterior, was very hard some, the paintings and arches considered the finest in the city. It was supplanted by the granite structure in 1828, with a noble square tower. This was destroyed by fire in 1872 and rebuilt.

Far-Fetched Reminder

Brother and sister were sitting on the creek bank, fishing. Sister threw out her line with a new bait and it became entangled in some brush. She at once appealed for aid in recovering it. Brother drew it in, dragging some debris with it.

"Where's the jigger?" she asked.

"The what?" from he, who had not noticed the floater was gone.

"The—er—what-you-may-call-it, the—oh, you know, the Irish county."

"Oh, the cork!"

"Yes, yes," she replied, "that's it."

Ability

A farmer called on the notary in the village and had a deed made authentic.

The charges for this service which only took a very few minutes seemed exorbitant and the farmer expressed himself.

"Well it's like this," said the notary. "We professional men have to charge for our ability."
