**When you build, we are ready to serve you**

WHEN you build it is always a comforting thing to know that the building materials you buy are going to be up to specifications. Cheap, flimsy construction usually goes hand in hand with poor quality materials. Safeguard your building by letting us know what you require and we will work with you to see that your interests are well protected. We are headquarters for all dependable building materials and can also help you select a good, reliable contractor. Tell us what you plan to do—we can and will give you helpful advice.
