BIG CREAM POOL IS ORGANIZED

MORE THAN 550 HEAD SIGNED UP THIS WEEK

Sealed Bids for Cream are Submitted. Hermiston Creamery Is Awarded Contract At Figure One-half Cent Above Portland Print Butter Price.

The movement to organize a cream pool originated about two weeks ago at a meeting of the Farm Bureau.

A committee consisting of J. H. Reid, P. P. Sullivan and John Jendrzejewski, was appointed to investigate cream prices. Invitations were sent to bidders for the cream pool and about a week ago at a meeting of the dairymen four sealed bids were submitted and after careful consideration the contract went to the highest bidder, the Hermiston Creamery Company.

Last night a meeting of the dairymen was held at the library and the bids made public.

The local creamery's bid was one-half cent higher than the Portland print price.

There are 550 cows signed to date but the committee is still at work.

Co-operation in staying with the cream pool was stressed at the meeting.

LEGION OFFICERS

ARE INSTALLED

On Thursday, September 6, Jack Biggs, district committeeman for the sixth district department of Oregon American Legion, installed the newly elected officers of the Hermiston post.

The following officers were installed: Harry Kelley, commander; James Todd, vice-commander; Walter Hamm, adjutant; and finance officer; and Logan Todd, sergeant-at-arms. A membership campaign was organized with two teams competing, the losing side to give the winning side a feed immediately after Armistice day. Ursel Hiatt and O. K. Mudge were appointed captains of the two teams. The Hermiston post also decided to inaugurate an advertising campaign with a twofold intent. To secure new members in the Legion and to inform all ex-service men of the benefits they are entitled to through legislation sponsored by the American Legion.

The proposition of the Legion putting on the concessions at the Project fair as up for discussion and received a favorable report.

CHURCH TREASURER SHORT \$1,000,000

Atlanta, Ga.—Sherago in the Southern Baptist home mission board accounts administered by Clinton S. Carnes, missing treasurer, probably will reach \$1,000,000, a statement of church officials said. Carnes disappeared August 15.

Criminal court proceedings were indicated in the announced determination of Assistant Solicitor General E. A. Stephens to begin grand jury proceedings against the mission treasurer as soon as practicable.

There was little to indicate what Carnes could have done with the money he allegedly obtained during the period of the accruing shortage, which was estimated to be several years, possibly eight. Nor was there any word of the missing treasurer, who vanished after telling his chauffeur he would not be at his home for dinner on August 15 because of a business trip to Raleigh, N. C. He was never seen at Raleigh or elsewhere, so far as has been determined.

COOKS OF THIS PROJECT URGED TO DISPLAY TALENT

Superintendent of Women's Division Asks Co-operation in Fair Exhibits.

Mrs. C. M. Best, who has undertaken the management of the women's division at the fair this year, states that she has met with encouraging results in securing entries, and asks the continued co-operation of all the women of the project.

In the past entries in the needlework division far outnumbered those in the cooking division and Mrs. Best is issuing a call for the good cooks of the country to rally to the support of their talent. Our own "Nick" Sinnott once remarked that if for no other thing the Umatilla Project would always be noted for its "feed canal," and the county fair is the best possible place to vindicate his judgment. A special request is made that the younger girls send in their cooking, as there are prizes offered for younger cooks.

Miss Flannigan, county health nurse, will have a booth at the fair, with many interesting exhibits, with special attention for the children. She will also maintain a first aid station.

So far a judge for the women's division has not been secured, but it is hoped to have one from the state college. Mrs. Best asks that the local women keep in mind the fact that flowers add much to the effectiveness of the display and bring in their choice blooms this year, as they have in the past.

A number of entries have been received from Pilot Rock and other sections and competition promises to be interesting and keen.

A pontoon from the French naval machine, discovered a few days ago off Tromsø, convinced officials that the men were dead.

PROJECT FAIR BOARD BUSY WITH PLANS

CRACK BAND WILL PLAY EACH DAY OF SHOW

Keen Competition Promised From Outside Towns. Carnival and Parade Will be Features.

"Bigger and Better than Ever" is the battle cry of the executive board of the Umatilla Project Fair, to be held in Hermiston October 5 and 6 this year. Bigger displays, better displays, more co-operation, more enthusiasm, mark the reports of superintendents and workers in the different divisions, who are scouring the country for competitive exhibits and displays and getting them.

Plans are being made for street decorations by a well known firm, and the whole program, as planned so far, tends toward a gaily and carnival spirit new to local offerings. Banners and advertising matter are on hand and will be distributed soon, the ribbons for premiums have arrived and, like the show, will be bigger and better than ever. The premium lists are in the hands of the printer and will appear in an early issue of the Herald. These will show the names of the superintendents in each division, for those anxious to get in touch with them.

For instance of the attempt the fair board is making to have the 1928 fair a success has been the securing of one of the crack bands of the state to play both days of the show. This band, a thirty-five piece uniformed organization, will play for the parade and before the football game, as well as during the day.

Competition promises to be keen in all divisions, and the boys' and girls' club workers are doing hard work getting their entries ready. There will be more outside competition this year than ever before and Hermiston is getting ready to meet it and beat it.

Carnival plans are under way, but so far are in a formative stage and requests for information only meet with aggravating expressions of deep interest. Keen ears have been able to glean phrases that sound like something brewing that will completely eclipse anything Barnum & Bailey, Ringling Brothers or Happy Canyon ever dreamed of doing. The Herald may get more information for next week's issue.
