TRY FIRST AT HOME

Whether it is something we want to buy, or some service we wished performed, why not try first at home? There is not a single one of us in this entire community but what will benefit to an appreciable degree if each member of the community practices this simple rule.

We want our home town to grow and prosper—we want it to be a place in which we will be proud to live. To realize our desires and our dreams of a better home community we must, one and all, do our share toward making it better—and the one big step toward that end is taken when we each one try first to fulfill our needs from home community sources.
