

MAKING THE MOST OF IT

We should all make the most of our TIME, our OPPORTUNITIES, our ADVANTAGES. That is real thrift.

The railroad succeeded the stage coach in order to save time. Today it is possible to cross the continent in less than two days, by airplane. More time saved. It is just as important to save money as it is to save time. In fact, saving time means saving money.

"FLAMES"

Starring Virginia Valli and Eugene O'Brien. This picture is the first picture produced in Oregon—mostly in Portland, yet there are other views of Oregon's scenic beauties. The film proves that the sun also shines in Oregon a plenty for the camera, and we are giving California some competition from now on. The story is based on forest fires, but the main point of this picture is to prove that Oregon is a wonderful field to produce moving pictures.

Wednesday and Thursday October 17 and 18

"NOW WE'RE IN THE AIR"

Starring Wallace Beery and Raymond Hatton. Let Beery and Hatton pilot you on a flight of fun, frolic and foolishness—great Lindberg what a picture! Sky high for thrills. Nothing on earth to match it.

Saturday and Sunday October 20 and 21

"A HARP IN HOCK"

Starring Bessie Love and Rudolph Schildkraut. Office women of the large N. Y. office buildings (the night crew.) The story deals particularly with the humble life in a large city. The melting pot of races; the refuge of down trodden people; the birthplace of countless men who are a power in the world of finance and business.

VETERANS VISIT CUBA

6800 Spanish War Men Open Convention in Havana.

Havana—Battles of the Spanish-American war were refought in words in many hotel lobbies of Havana, where veterans met ex-comrades gathered here for the convention of the United Spanish-War veterans.

More than 6000 partook of the unrestricted privileges which Cuba has granted the men who aided in obtaining her independence. Ships due tomorrow have 800 veterans aboard.

President Gerardo Machado and other prominent Cubans received at the state department Admiral Hugh Wiley and General John J. Garrity, commander-in-chief of the veterans, with other of their officials.

"Flying Sleeper" Service Planned. New York.—Inclusion of a "flying sleeper" service in the transcontinental air transport system will bring the Pacific Coast one day nearer to the Atlantic, according to an announcement made by Colonel Charles A. Lindbergh, technical chairman, who stated that the new feature lessens the coast-to-coast journey to 48 hours.

AUTOMOBILE DEATHS STEADILY GROWING

New York.—America's automobile casualty list is growing alarmingly. Seventy deaths a day was the country's toll for July, it was estimated at the National Safety congress in session here. In the first seven months of this year, the total deaths in automobile accidents were 13,800, as compared with 12,900 the first seven months of last year.

Indications are that this year's total of automobile deaths will exceed that of last year by 2000.

Illustrating the enormity of the problem, R. L. Forney of Chicago, head of the statistical bureau of the National Safety council, said that accidents of all kinds in the United States last year caused death to 85,000 and injury to 10,000,000 more.

"Of the 95,000 killed last year, 25,775 were automobile deaths," said Forney.

Automobile drivers seemingly will not be "educated" into "safety first" methods, although excellent progress is made along other lines in accident prevention.

League of nations officials expressed disappointment on receipt of the communication from the United States government declining an invitation to sit with the council in appointing a central board of control set up by the 1925 Geneva opium convention.
