

MAKING THE MOST OF IT

We should all make the most of our TIME, our OPPORTUNITIES, our ADVANTAGES. That is real thrift.

The railroad succeeded the stage coach in order to save time. Today it is possible to cross the continent in less than two days, by airplane. More time saved. It is just as important to save money as it is to save time. In fact, saving time means saving money.

EARLY SETTLERS PLAN TO WRITE PROJECT HISTORY

C. E. Baker of Hermiston and D. C. Brownell of Umatilla are planning to write for publication a complete history of the Umatilla project covering events since the year 1901. Both men are pioneers on the project and are well qualified to handle the rather tedious work of gathering statistics and facts for the article. Only tentative plans have been made so far and the actual work of production will probably not be completed for some months to come. The finished product will be placed in the public library.

Several attempted histories have been written concerning the project in the past but none of these have been entirely complete. It is the desire of the present writers to present a thoroughly authentic record of the project since its beginning.

Another Kansas Cyclone Yarn

"You have probably heard of some of the queer things that Kansas cyclones do. I remember when one passed near us and blew a two-gallon stone jar inside a quart glass bottle and did no damage to either except that the jug was turned inside out. This cyclone carried a piano ten miles into the next county, and all the time the piano was sailing through the air it was playing 'Show Me the Way to Go Home.'—Ex."
