

## SURE TO GROW OLD

It is hardly possible to guard against growing old, but there is opportunity to avoid NEEDY and DEPENDENT old age. This safeguard is THRIFT.

Many people seem willing to drift along from day to day and take chances in the future. Then when so old they can no longer toll for a livelihood, they find themselves dependent upon charity, not a happy outlook by any means. The time to begin saving is now, while you are earning.

### RED CROSS NURSES AID IN HURRICANE DISASTER

In addition to their year around work in the Public Health field, the Public Health nurses of the American Red Cross have answered a number of calls to combat epidemics, and in disaster work during the year just ending, the Red Cross states.

Their greatest task was in the relief following the West Indies hurricane when 20 nurses were dispatched to Florida and 32 to Porto Rico, to assume charge of the health work there. Epidemic conditions were especially grave in both places, and inoculation of several hundred thousand persons had to be arranged in order to prevent spread of contagions. Nursing the injured, the sick, aged and young and caring for the newborn were heavy tasks in both areas.

The Red Cross nurses also were called upon for work in epidemics in communities, including the serious septic sore throat epidemic in New England and a typhoid epidemic in New York state.

More than 580 Red Cross Chapters throughout the nation operate nursing services which they support altogether or in part.

## Columbia Theater Announces Change of Policy

Of special interest to the theatre-going public of Hermiston and vicinity comes the announcement by Walter E. Olson, manager of the Columbia theatre, that a new policy regarding future picture programs will be inaugurated this week.

The new policy will give the local theatre three complete changes of picture programs every week instead of the two changes as has been the practice heretofore.

"We are doing this," says Mr. Olson, "in an effort to bring to the people of Hermiston all the finest

pictures produced by recognized leaders of the film industry and to give the local public a greater variety of clean, wholesome photoplays from which to select their amusement. In starting this new policy we offer this week Ken Maynard in "The Upland Rider," coming Saturday only, and Colleen Moore in "Oh Kay Sunday only. Our serial, "The Heroes of the Wild," will be shown both Saturday and Sunday this week but in the future will be shown Saturday night only. The change will not affect the Wednesday-Thursday program."

### MRS. HOUSEWIFE:

...If you are not now taking the Hermiston Herald because you think you can't afford it and depend on borrowing a copy from a friend to read the home news, just stop and ignore the savings you can make in course of a year by having the paper regularly and taking advantage of the bargains that merchants are offering every week. The price of a subscription is \$2.00 a year. The returns to you in savings made by directed buying of advertised bargains may be only \$10.00, or they may be \$50.00 a year. In either case, a subscription is a dandy investment.

### AUSTRALIAN FINANCE PLAN IS APPROVED

Melbourne, Australia. — By an overwhelming majority the electors of Australia voted in favor of giving the force of law to the debts and borrowing agreement entered into by the states and commonwealth last year.

The agreement provides for the appointment of a compulsory loan council on which all the states will be represented. In the new scheme of Australian financing, as produced by Premier Bruce at the 1927 conference, the commonwealth government was to take over all the debts of the Australian states and contribute \$37,925,000 in connection therewith.

The federal government was to establish joint sinking funds to provide for the extinction of the debts in 58 years and the extinction of new loans in 53 years. The existing sinking fund redemption and similar funds were to be transferred to a national debt com-

mission, and all future borrowings were to be controlled by the loan council.

The feeling in Australia is that the new finance scheme will raise Australia's credit and prestige in the world's money markets and enable the states to raise loans at a cheaper rate than hitherto.

### SURVEY ON EGG PRODUCTION

(Continued From Page One)

In round numbers the average flock of 600 hens totaled a net cost of \$2400 for the year or \$4.00 per hen, producing 171 eggs per hen at a cost of 28 cents per dozen. The gross cost of poultry produce including commercial eggs was roughly \$3000 or \$5.00 per hen or 35 cents per dozen. Of this gross, the cost of the commercial eggs produced constituted 80 per cent. The major items of cost were for feed, \$2.72 per hen or 55 per cent of the gross cost, and \$0.91 for labor or 18 per cent of the gross. Nearly all of the feed was purchased while nearly all of the labor was furnished by the farm operator and his family. The feed purchased totaled \$1509 per farm for 619 hens and accompanying replacement stock or \$2.44 per hen or 17 cents per dozen eggs. Under miscellaneous cost, the chief items were for baby chicks, auto and truck operation, flock decrease, crates and express. Flock decrease represents that part of the flock depreciation not met by flock replacement. Whenever the replacement exceeded the depreciation a credit was entered in the receipts for flock appreciation. The average depreciation per hen amounts to \$0.69. The cost for depreciation and interest was relatively low because of the small capital investment. All interest was computed at 5 per cent.
