**Modernize Your Home**

On the left is the home of Mr. C. P. Combs, of Seattle. The home was well built, but out of style.

On the right is Mr. Combs' home, after he had it re-shingled with Western Red Cedar Shingles right over the old roof and side walls. The work was not at all expensive and the home is now keeping with the modern houses which surround it.

**We'll Be Glad To Help You**

If your home is out of style, yet in a good neighborhood, don't sell it at a sacrifice—remodel it. You can lay Western Red Cedar Shingles over the old roof and sidewalls for very little more than the cost of repainting the building, and your upkeep will be much less. Reshingling, in this manner, cuts fuel bills too, because your outer walls and roof are double thick and hold heat that much better.

**Up-to-date in Style and Comfort**

Homes with Western Red Cedar Roofs and Side Walls are always in style and always good looking. Lay vertical grain Western Red Cedar Shingles with zinc-coated iron or copper nails and they will last a lifetime. Many beautiful color combinations are possible, if you wish to have your shingles stained. And these stained colors are permanent.

**Cheaper to Heat Than Before**

Your saving in fuel alone will help pay for a large share of the cost of re-shingling your home over the old roofing and side walls. You will be pleasantly surprised by the moderate cost of bringing your home up to date with Western Red Cedar Shingles. We carry complete stocks, both in natural colors and stained to suit your individual taste.
