**MANY LOCAL RESIDENTS**

**WILL RECEIVE FREE COAL**

"Foresight," some wise man has said, "is a thousand times better than hindsight."

The truth of this philosophical utterance is being proved daily in Hermiston. Local residents, because they are willing to look ahead a few weeks to the beginning of the season when home heat is necessary, are to receive, as a reward for their foresight, a free supply of coal with their new Heatrolas.

The agency which is making it possible for them to exercise their foresight is the Eighth Annual Free Coal Club, with headquarters at the Oregon Hardware & Implement Co., Co-operating with the Estate Heatrola company of Hamilton, Ohio, creators of Estate Heatrola, the Oregon Hardware & Implement company is able to offer to foresighted individuals a reward for ordering their Heatrolas now. This reward quite fittingly takes the form of a supply of Free Coal.

A national-wide event, this offer has been bringing Free Coal into many thousands of homes in every state in the union, for the past eight years. Each year, more people have taken advantage of this summer opportunity to insure perfect home heat during the winter months with a supply of free fuel. Many more thousands will receive free coal this year—more than ever before.

"This year," said Mr. McKenzie of the Oregon hardware company, "we expect a large number of residents of Hermiston and vicinity to take advantage of this opportunity. We shall be pleased to be able to explain the plan to anyone interested." He voiced a warning to all those who are interested, not to wait too long, because the offer ends on August 31.
