The things you create are the things you prize

There is a satisfaction about "home-made" things that one never gets from those that are bought . . . For instance: that old chest of drawers long discarded and now repainted to become the bright spot of a dark corner; the gifts that you have made, each intended to fill a definite need and place in friend or relative's heart and home.

This satisfaction is doubled when your tools are the best. For painting furniture, *Lustrelac Enamel* is an ideal "tool". Its lovely colors combine in striking modern effects. It works easily and dries in 4 hours.

Another colorful B-H finish whose quality testifies to the high standard of all Bass-Hueter products.
