The Message of the Christmas Seal

Ho, Little Seal, with your message of hope,
Flung to a world as a life-saver's rope.
Seek you the palace and seek you the shed—
Soft little pillow for Suffering's head!

Ho, Little Seal, with your message of cheer,
Building up courage and casting out fear,
Shed you God's sunlight in castle and cave—
Bright little beacon of lives that you save!

Ho, Little Seal, with your message to men,
Lifting them back to life's highroad again,
Keep you the air of God's heaven above
Flowing in gently to heal them we love!

—Walter Greenough.

EDITORIAL

The bull on on the stock market seems to have been just that. And a lot of people lost money they never had. And those are the bear facts. Christmas and then New Year resolutions.

ADVERTISEMENTS

All grades of Roofing at Lowest Prices.
Shop Early!
We will have Christmas Trees for sale next week.

SPORTS

We will insist this year that our All-American team have at least one American name on it.
Instead of the East-West game, why not the Irish coached by Al Smith and the Scotch by Premier McDonald. At least one line wouldn't give much.

You will have to look a long way before you find better material or bargains.

POE!

A cow stood on the railroad track
The train came round the bend.
She was never struck by a train before
But she got it in the end.

WEATHER

Unless it turns warmer we predict cooler weather with rain unless otherwise.

HELPFUL HINTS

How to Catch Whifflepoofs
As the Whifflepoof is a very tasty morsel we all desire a mess of them and the Editor has found the following method very successful. In July carefully cut a hole in the ice on any lake, dig a hole in the water and line with bread and butter. Lay a banana peel in the hole and when the whifflepoof whiffles he will slip on the banana peel and is ready to cook. Roast on an oak board in a cool oven and when done throw the Whifflepoof away and eat the board.

Snuff sed.

Protect your gears in Zero weather use **ALEMITE** Gear Lubricant

(The only gear lubricant guaranteed not to freeze at 15° below zero without adding oil.)
Keeps your gears as easy shifting in January as in July.
