The B-H Color Harmony Selector helps you create

refreshing interiors

Paint this kitchen lettuce green, its woodwork beige. Enamel some of the furnishings royal blue, some jade green and use the new coral enamel utensils. The whole—cool, harmonious, refreshing!

This combination is one of many on the B-H Interior Color Harmony Selector. Its form is a colorful disc over which revolves a slotted mask thru which appear tested color combinations.

But don't wait to be ready to paint. Let us show you this practical device now—also its companion chart for colorful exteriors.

"THE WAY TO BEAUTIFUL HOMES"

The Mazaroff Mystery ?

By J. S. FLETCHER

When a boy leaves home and returns after many years, a rich man, he is generally the pride of the countryside. In this case it is different. The millionaire comes back, not to find praise and the open arms of welcome, but to meet a very malign fate.

THE WORLD'S Easiest-Running Cream Separator

McCORMICK-DEERING

Here's the secret!

It's the combination of high-grade ball bearings (at the vital points 1, 2, 3, and 4) and positive, automatic lubrication, that makes the McCormick-Deering so easy to turn. A gleaming, japanned finish and a special disk-removing rod makes it easy to keep the McCormick-Deering clean and fresh. To appreciate these features, you must see them!

Every high speed point has high-grade ball bearings. ONLY the McCormick-Deering is so equipped. It takes much of the work out of the morning-and-evening separating. No wonder it makes a hit with every man and woman who sees and turns it. And that's only the start. The McCormick-Deering has many other points of improvement. It is setting new records in clean skimming. It is easy to wash, and it is self-oiling. Come in and see something really modern in separators. We are demonstrating every day. Six sizes—hand, belted, and electric—for one cow or a hundred.
