BOARDS

Boards are fine things. They are constructed in Nature's laboratory and fill many and varied uses of man. They will withstand a great deal of rough treatment. But the finest board is absolutely unable to withstand weathering a decay if left exposed to Oregon weather for any length of time. Paint is much cheaper than lumber and is the best preservative we have against weathering. Paint now or repair later is true of all unpainted buildings. Chicago paint is the best paint.

Dr. Morgan is the only man we know of that can tell a woman to shut her mouth and get away with it.

Do you need a carpenter to build a cabinet or do work of any kind in your home? Call 331 and we'll send you a man who knows how to do it.
