This is the first twin birth at the local medical hospital, which is celebrating the event as one of historical note.

A number of useful gifts have been given to the twins by merchants of the city.

TURKEY MARKETING TO BE DISCUSSED SEPTEMBER 26TH

Herbert Beyers, manager of the Roseburg Turkey Growers association has recently been appointed by the Federal Farm Board to assist the turkey producers of Oregon in forming cooperative organizations.

Mr. Beyers will meet with the turkey growers of this section on Friday, September 26, at 8 o'clock in the Methodist church at Hermiston to discuss with them the feasibility of forming a cooperative marketing association to handle this year's birds.

The plan at present is to form a statewide organization which will be in a position to deal with the buyers for a market for this year's crop of turkeys. Such a state wide organization would be in a far stronger position to secure good prices for the producer than a number of small pools it is believed. As it is late in the season, whatever is done must be done quickly to handle this year's birds.

The present move towards a state wide organization seems to be a step in the right direction, and it is heartily urged that all the people in this section that will have turkeys to market this fall, attend the meeting next Friday evening, as a large turnout will be necessary if a successful organization is to be formed.
