## THE RED & WHITE STORES

J. M. NORTON, Owner

TRANSIENT TRADE? PERMANENT TRADE? THE DIFFERENCE IS THIS

To the store that caters to transient or "drop in" trade, Quality is often secondary. To the store which caters to permanent trade Quality comes first. Its existence depends on the day-by-day business of its regular customers, and regular customers are only held by Quality and Value. Red & White Stores solicit your permanent patronage on the basis of "Quality Always Higher than Price."

## TUM-A-LUM TICKLER

Published in the interests of the people of Hermiston and vicinity by THE TUM-A-LUM LUMBER CO. Phone 331.

Vol. 30 Hermiston, Oregon, October 2, 1930 No. 38

### ELECTION OVER TUM-A-LUM WINS

Now that our election edition of the Tickler has been run and we were unanimously elected to be the Building Headquarters of Hermiston, we want to thank all of our supporters, including Paris Carriers and the foundation of our home. Bailey and Meier have asked us to support them and run their ads. Being an independent paper, we had to turn them down, but we did offer to help them with any building problems.

Jackson Harr has just finished a chicken house and Ed Dunning is building an addition to his chicken house.

### ONE PLAN FOR FARM RELIEF

George Genn has suggested that much of the time wasted in looking for eggs could be eliminated if the hens were crossed with parrots. After laying an egg the hen could walk

up to the farmer and say, "Hank, I just laid an egg in the barn. Go get it."

The only relief we can offer is that you get your winter coal in now and be sure of it.

Judge: The police say that you and your wife had some words. Prisoner: Well, I had some, but didn't get a chance to use them.

If we might get in a word or two about insulation. It will cut your fuel bill in half, but twice as much wouldn't eliminate it entirely. As much as we like to sell coal, we would like to give you an estimate on insulating your home.

We see by the papers that the Soviets have been selling wheat short on the Chicago market. They had better not try to sell lumber short. We have found that it takes 12 inches to make a foot, and everyone would boycott them if they tried to sell 10 inches for one foot.
