METHODIST CHURCH.

If you are interested in the world of tomorrow, if you are interested in the future of Hermiston and Oregon, we invite you to the church next Sabbath day for the morning services. The Sunday school will greet you at the usual hour and at the close of Sunday school the pastor will bring to you a second hand message from China as brought to us at Arlington Tuesday by two of China's noted natives. Also a bit of a panorama of India in her rapidly changing state. Also word from South America especially Bolivia. We will try our utmost to make this report interesting and helpful.

At the close of this service we will adjourn to the basement and incidentally to the dining room where the ladies aid will serve you your dinner. Bring your baskets full and let us make even this service a worship service of our Lord and Master. Epworth League at 6:30 and no evening preaching services. O. W. Payne, Pastor.

CHRISTIAN SCIENCE CHURCHES

"Doctrine of Atonement" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, Oct. 19.

The Golden Text was, "If any man sin, we have an advocate with the Father, Jesus Christ the righteous; and he is the propitiation for our sins; and not for ours only, but also for the sins of the whole world" (1 John 2:1,2).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Jesus answered them, and said, My doctrine is not mine, but his that sent me. If any man will do his will, he shall know of the doctrine, whether it be of God, or whether I speak myself" (John 7:16,17).

The Lesson-Sermon also included the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures", by Mary Baker Eddy: "Jesus of Nazareth taught and demonstrated man's oneness with the Father, and for this we owe him endless homage" (p.18).

Boosts Golfer Toward

Coveted "Hole in One"

In the history of the world it is not likely that any game or pastime has been given quite so much serious attention as the game of golf. Half of the men and women who have played golf seem to have invented some sort of a gadget to improve the possibility of making a perfect score and if all the inventions of this character were placed end to end they would probably reach to some place or other and back again several times. An enthusiastic Englishman points with pride to a device which he has invented to enable the player to determine whether he and his club are in exactly the proper position before attempting to bang the ball. He has a small stand containing an electric light operated by a dry battery and this is placed with great care upon the ground. In the head of his club he has a mirror inserted and when he takes up his position in front of the ball and holds his club in exactly correct angle, the light from the lamp will be reflected through the mirror to the eye of the player. Then, if the wind is just right and no one sneezes just as the play is about to be made, the player may make a hole in one, or he certainly will have the excuse that he tried.

Dr. C. F. Redlich says:

The "Perfect Retention Shields" hold the rupture perfectly, no matter what position the body assumes or how heavy a weight you lift. They give instant relief and contract the opening in a remarkably short time.

The secret of their success is in their simplicity. An expertly adjusted device seals the opening without discomfort or detention from work. It is practically everlasting, sanitary, comfortable and actually holds ruptures which heretofore were considered uncontrollable.

"IF YOU WANT TO HAVE IT DONE RIGHT--SEE REDLICH."

Doctor J. W. Seaver, for many years in charge of the Physical Education of the students of Yale College, has recorded 75 per cent cures with this system.

Mr. Redlich is internationally known and speaks English, German and Spanish.
