Don't forget the big "Neewollah" celebration on Friday night, October 31. The American Legion and Auxiliary have planned a big time and anyone missing out on the fun will surely regret it.

Plans are all completed and all Legionnaires and Auxiliary members are expected to be at the high school building at 7 o'clock on Halloween evening. High school students and grade pupils are planning their costumes and they expect to be on deck to join the festivities. They will form a parade and will march thru Main street, and beware of the witches and ghosts which are sure to walk on this night of all nights. After the parade has glimpsed the children dressed in their regalia, they will journey to the auditorium where prizes will be awarded for the most original costumes. Also a prize will be offered to the grade having the largest percentage of attendance, so each boy and girl be on hand as this prize is going to be something worth while.

Two extra prizes have been offered by the Hermiston Drug Co., one to the girl dressed in the most appropriate Halloween costume and one to the boy dressed likewise. For those wishing to dance, music will be furnished and the auditorium floor will be just the place. The younger children will be taken to the Legion hall where suitable Halloween games will be played under the direction of Mrs. Joe Norton. Parents of the school children are invited to attend and join in the fun. Refreshments will be served by the Auxiliary and everything is being done to give the school children a good time. Don't forget! 7 o'clock at the school house.

DEMONSTRATION OF TURKEY DRESSING

KILLING AND DRESSING OF TURKEYS TO BE SHOWN

McKinley Huntington, Fieldman for Oregon Turkey Growers to Do Demonstrating.

McKinley Huntington, field man for the Oregon Turkey Growers, will hold killing and dressing demonstration in this territory as follows:

Monday, November 3 at 10 A. M. at the J. Jendrzewski farm at Hermiston.
2 P. M. at the Experiment Station at Hermiston.

Tuesday, November 4, 2 P. M. at the school house at Boardman.

Mr. Huntington has been in the turkey business for years and is particularly well qualified to give demonstrations of this kind.

Many birds each year are graded down on account of faulty methods of killing and dressing and it would be to the advantage of the growers to observe this demonstration and ask any questions they may have in mind. Quality birds are always at a premium but top-notch turkeys may be dropped into the lower grades if not properly killed and dressed.

Six Foreign Countries Receive Red Cross Aid

Relief was given by the American Red Cross during the year in six foreign nations in disasters ranging from a tidal wave in Newfoundland, an earthquake in Persia, floods in France, to help the refugees from Russia and prevention of a smallpox epidemic in Costa Rica.

The \$5,000 Red Cross contribution to Newfoundland, following the tidal wave, which took twenty-six lives and destroyed many homes and fishing boats, was the first from an outside country to reach the distressed people.

The sum of \$5,000 was given to the fund for the relief of the Mennonite refugees of German descent, who had determined to leave Russia for new lands. About 13,000 passed through Germany, where the German Red Cross, aided by Red Cross societies of other nations, helped them. The majority are being transported to new countries in the western world and the American Red Cross has transmitted contributions from individuals in this country.

When Costa Rica was menaced by a smallpox epidemic, the American Red Cross sent fifty thousand tubes of vaccine, in two airplane loads, undoubtedly saving the country from a serious outbreak of the dread disease.

COUNTY HEALTH NURSES' SEPTEMBER REPORT GIVEN

School work has headed the list of activities for the past month in the county health nurses' schedule for September. Miss Sampson with the help of doctors has given the routine examination in 27 rural schools in Umatilla county and has helped the parents to correct the ailments of children. When defects were found to exist, Metropolitan Life insurance literature on that particular defect was sent home to the parent so that he would know how it affected the health of the child and what should be done to remedy the condition.

The taking of samples of water supplies has been explained in some schools and specimens have been sent to the state laboratory for analysis. The teachers and children have been very interested when the method and reason for having water examined has been explained to them.

On September 21, three representatives of the Commonwealth fund, Dr. Estella Ford Warner, Dr. W. J. French and Miss Theresa Kraker, accompanied by Dr. Frederick D. Stricker, state health officer, visited Umatilla county. They were making a complete survey of the state of Oregon's public health facilities with a view to determining Oregon's eligibility for selection as one of the three states to benefit from the funds activities in public health work. In the three states selected the funds will be expended through the regular departments of state and county health. Massachusetts and Tennessee have already been chosen.

Miss Sampson, county health nurse, also visited Wasco, Union, Deschutes, Klamath, Jackson, Coos and Douglas counties.

GAS DRUM IGNITES AT

J. E. HALLYBURTON RANCH

At J. E. Hallyburton's ranch in Columbia district, a lantern used a gas drum to ignite causing considerable excitement for awhile. The chicken house was slightly charred, the slideboards on a Model A Ford needs repainting and three lady calves were warmed up but are hairing out nicely. The only thing regrettable about the whole thing was that all concerned developed a terrible thirst fighting the fire and they were without the wherewithal to quench same.

Washington, D. C., October 27—Secretary of Agriculture Hyde today received a resolution of the Hermiston Irrigation district asking establishment of a government experiment station to study soil possibilities on 275,000 acres now available for irrigation. The request urges an appropriation of \$35,000 followed by an annual sum of \$15,000 and transfer of an 180 acre tract for the purpose.

The resolution says the present station is inadequate, designed to serve fruit growers, with only 15 acres in field crop and says many farms in tract are unimproved because the information is inadequate.
