THAT OURS IS A NATION  
 FOUNDED ON TRIFL

Faced with privations and hardships in a new, uncultivated country, the Pilgrim settlers were forced to develop stern virtues in order to live. Each fall they stored away food for all for the long hard New England winter.

Let us not forget that protection in the future, today as three hundred years ago, necessitates providing for it. A savings account is the best method.

"WHERE YOUR DOLLARS HAVE MORE CENTS"

Well, let's see—Thanksgiving comes first, doesn't it? We can supply all your needs—cranberries, sweet potatoes, pickles, nuts, celery, oranges. Oh, well, you know everything. Prices. Check and double check. That is why so many of our articles are such good repeaters. I just forgot to recall that can of Heinz Mince Meat or a pie tin with that can of None Such Mince Meat. How about two pounds of nice, fresh dates, the kind you eat, at 25c. Are you expecting this warm weather to last always—it will surprise you some day. You had better surprise the weather man by having those nice warm blankets on your bed with a suit of flannel pajamas ready to jump into at bed time, and sheepskin moccasins to step into instead of that ice-cold linoleum in the morning.

You can't milk with mittens—of course not—but who is going to be milking all the time. \$1.20 will keep your hands warm as toast all the rest of the day. My feet nearly freeze while milking in cold weather unless I dress them in wool socks or a pair of good overshoes, and I can do all that for less than three dollars.

What are you going to do with your ears—you know you can't put them in your pockets, not while carrying corn to the hogs. We now have a cap with fur-lined ear flaps for less than two dollars. Who wants to freeze their hearing for less than two dollars? Not us.

Before this cold spell overtakes you, come to Burnham's General Store—you know what a general store is, don't you? Well, it's one of those buildings like Burnham's there—no, it's not the building, but anyway you just come in the front door and see all kinds of goods poorly displayed and piled up, and ask for something that you'd bet wasn't in town, and after a little searching, out it comes. The price is o. k. and you don't know just what to do or think or say. But you decide something else would do better so you name it and out that comes also—surprise again, you know. Well, maybe we had better let this go—sorry but this is just the thing I have been looking for. It may be a pair of Buster Brown Hi-top Shoes for your boy and only \$4.50, or else maybe it's a sanitary milk bottle cap for 10c; maybe a nice necklace or watch chain, ring, pin or any old thing.

Did you get this week's hand bill? Look it over.  
 The store will be closed Thanksgiving Day, of course.

**"I'm A Producer And A Shareholder In The Swift Family"**

"You can't blame me if I take more than an ordinary interest in the affairs of Swift & Company. I'm interested in two ways. First—as a producer. Second—as one of 45,000 shareholders.

"I'm glad to belong to this big family. And if you'd ask me to sum up why, I think I'd say—

- 1—Swift & Company is one of the most efficient organizations in America. Only an exceptionally well run concern could possibly thrive on an average margin of less than 2 cents on every dollar of sales.
- 2—As a producer I receive the going market price for the best butterfat, eggs and poultry I can deliver. Swift's nation-wide distribution, because of their 600 car routes and 400 branch houses, assures me of an ever ready market. I am not subject to local gluts or shortages.
- 3—Swift & Company employs 58,000 people who receive just wages. These employees live in the communities where they work. Many of them are our own neighbors. They spend their money with our merchants, build their homes here, pay taxes like you and me. They contribute to the well being of this town.
- 4—As one of 45,000 shareholders, I receive a return on my investment.

"You can see that there are many benefits in having contact with Swift & Company. I'll keep on taking my butterfat, eggs and poultry to the nearest produce plant. The more I raise, the more I make. No wonder I'm glad to be in the Swift family."
