CHRISTIAN SCIENCE CHURCHES

"God the Only Cause and Creator" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, Dec. 7.

The Golden Text was, "Known unto God are all his works from the beginning of the world" (Acts 15:18).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "The earth is full of the goodness of the Lord. By the word of the Lord were the heavens made; and all the host of them by the breath of his mouth" (Ps. 33:5,6).

The Lesson-Sermon also included the following passages from the Glossary definition of "Creator" in the Christian Science textbook, "Science and Health with Key to the Scriptures", by Mary Baker Eddy: "CREATOR. Spirit; Mind; Intelligence; the animating divine Principle of all that is real and good; self-existent Life, Truth, and Love; . . . God, who made all that was made and could not create an atom or an element the opposite of Himself" (p.583).

WITH FARMERS AROUND THE STATE

CORVALLIS - Oregon's dairy industry now ranks third in total income among her agricultural enterprises, being surpassed only by cereal production and livestock, according to the biennial report of the Oregon Extension service, recently released. Increases have taken place most rapidly in the irrigated districts of eastern Oregon, and dairying has assumed an important place in these former livestock regions as well as in the coast sections.

KLAMATH FALLS - Klamath county farmers will have no need to worry about lack of livestock feed, regardless of weather conditions this winter. County Agent C. A. Henderson reports that there is more feed available in Klamath Basin than ever before. Approximately 30,000 tons of fine quality hay was put up in the Tule Lake district, in addition to the regular alfalfa crop of the county.

CANYON CITY - A 100-foot ditch was blasted out to a depth of about seven feet at the deepest places at a cost of 8 cents a lineal foot on the Felix Johnson place at Galena recently, under the direction of R. G. Johnson, county agent. This will enable high water to keep washing out the channel and eliminate a big bend in the river which has been continually eating into Mr. Johnson's meadow.

KLAMATH FALLS - Approximately 5500 pounds of creeping bent grass seed was harvested in Klamath county this year, the first time an attempt has been made to grow the crop in this county. The seed has passed field inspection by the crops specialists of Oregon Extension service. The grass shows wonderful possibilities for both seed and pasture production, according to County Agent C. A. Henderson, and an additional acreage will be planted next year.

Work on Federal buildings are started in Oregon to help the jobless.

Dividend Printing advertisement with logo and text: "There is one kind of printing that you want - printing that pays a dividend on the investment. A letterhead with right sort of type properly balanced is a real business asset. It wins the approval of the person receiving your letter, and while he is in this frame of mind your letter is read. The same reasoning applies to any other job of printing. Neatness, the right weight and kind of paper, the color of the ink, the selection of the type, all play an important part in the production of dividend printing.
