If ever the advice to "buy low" was good, it is today.

Firestone have invested \$25,000,000.00 with Firestone Dealers in establishing the most economical distributing and servicing system in the world.

Come in today - let us show you the INSIDE FACTS from cross sections - that you may understand the EXTRA VALUES in Firestone Tires.

COMPARE CONSTRUCTION and QUALITY. Table comparing Firestone Oldfield Type and Special Brand Mail Order Tire across various metrics like More Rubber, More Weight, More Width, etc.

COMPARE PRICES FIRESTONE OLDFIELD TYPE

Table comparing prices for various car models (Ford, Chevrolet, Buick, etc.) and tire sizes (4.50-21, 4.50-20, etc.) between Firestone Oldfield Type and Special Brand Mail Order Tire.

\*A "Special Brand" tire is made by a manufacturer for distributors such as mail order houses, oil companies and others, under a name that does not identify the tire manufacturer to the public, usually because he builds his "best quality" tires under his own name. Firestone puts his name on every tire he makes.
