Two special pictures at the Oasis Theatre this week

This week is an especially good how week at the local Oasis theatre. The management has been exceptionally fortunate in being able this week to have two of the six best July shows as selected by "Screen Land. This is what Screenland thinks of the pictures:

"The Millionaire" a Warner Brothers production. Here's the family film of the month. Take ma and pa and the young folks—and don't forget to go yourself. It's a picture for everybody. Simple, and quiet—no gangsters, no murders, no molls. New York, which after all likes millionaires, adapted this one right away; but the Manhattan applause was echoed elsewhere—which is news. It's George Arliss' most popular picture, and the first time the great American star has ever played an American character. You'll enjoy every scene in this refreshing come-

297 PREDATORY ANIMALS KILLED DURING JUNE

During June, thirty-two hunters, figured on a full-time basis, took 275 coyotes, 21 bobcats, and one predatory bear, a total of 297 predatory animals. In addition, 194 porcupines were destroyed. The hunters who made the largest catches are:

R. C. Fulkerson, Wasco county, 25 coyotes; Albert Kinnison, Umatilla, 1 bear, 4 bobcats and 18 coyotes; T. M. Rice, Gilliam, 2 bobcats, and 21 coyotes; Edgar Watkins, Grant, 17 coyotes; Adam Knablock, Morrow, 1 bobcat and 15 coyotes; Chas. B. Brown, Malheur, 5 bobcats and 11 coyotes; Chas. Frey, Jefferson, 1 bobcat and 14 coyotes; John Lawrence, Grant, 1 bobcat and 13 coyotes; E. C. Stoneman, Wallowa, 14 coyotes; A. H. Mayhew, Wasco, 11 coyotes; James C. Winters, Lake 10 coyotes; Murial E. Jacobs, Lake, 1 bobcat and 9 coyotes; B. Sarrett, Wallowa 2 bobcats and 8 coyotes; and Robert Palmer, Wheeler, 1 bobcat and 9 coyotes.

The above-listed hunters are located in well-infested coyote areas which accounts largely for the big catches; other hunters working where the infestation is less did excellent work in ridding ranges of old killers that have been a source of constant worry to local stockmen.

STANFIELD NEWS ITEMS

The community choir will present the operetta, "Love Pirates of Hawaii" on the evening of July 31, as a benefit for the Ladies Aid. Tickets are now on sale. Ice cream and cake will be served in the basement of the church after the entertainment.

Mrs. S. Thorsen has recovered from her recent illness.

Mr. and Mrs. Jake Winsted and small daughter Marian visited Sunday with Mrs. Winsted's parents, who live in Pendleton.

The regular Grange dance will be given in Watt's hall Saturday, July 18.

The Ladies Aid will meet in the church parlors Thursday, July 23, with Miss Helen Frederickson as hostess. An interesting feature will be the birthday party in charge of Mrs. D. R. Starkweather and Mrs. M. Reven. Visitors are always welcome.

W. H. Daugherty is confined to his home because of an attack of diabetes.

Mrs. S. R. Cooper and daughters, Kathryn and Marjorie, motored to Walla Walla Thursday for a short visit with relatives.

Mr. and Mrs. Wm. Mitchell of Hermiston called on friends on the Stanfield project Tuesday.

Mrs. V. J. Hall was pleasantly surprised Wednesday when several of her neighbors called to see that she celebrated her birthday in a fitting manner. An informal luncheon was served with the following guests present: Mrs. J. F. Gibson, Miss Jennie Albor, Mrs. S. R. Cooper, Kathryn Cooper, Mrs. W. G. Wallace, Miss Laura Wallace, Mr. and Mrs. U. J. Hall, Mrs. M. C. Borager and Mrs. O. T. Loehridge of Hermiston, former neighbors of the Halls, also called to bring birthday greetings.

Monday, July 20, the Grange will hold an open meeting beginning at 8:30. The major portion of the lecture hour will be devoted to a discussion of an article appearing in the July number of Country Home magazine entitled, "Leave Us Alone." This article deals with the effect of federal aid for farmers. Please come prepared to express your views.

NATIONAL LEGION COMMANDER TO ATTEND STATE CONVENTION

Corvallis, Ore., July 15.—National prominence has been given to the local Oregon state convention of the American Legion to be held at Corvallis, August 6, 7 and 8, through the formal acceptance of Ralph (Dyke) O'Neil, national commander of the Legion, of an invitation to come west to the Oregon convention. The commander will be here and take part in the program.

The official program has been completed and has been approved by state officers of the Legion. In addition to the regular, announced events of entertainment, a department that has proved to be most interesting at former conventions to be stressed in Corvallis this year. This department includes special stunts to be arranged by visiting posts, drum corps and individuals at any time and any place, during the three days of fun. Some of these stunts heretofore have been among the best entertaining features of the conventions, and special attention is being given to this department. This part of the entertainment will not, of course, be announced, for much of its interest is in the surprise and spontaneity of the events.

Although practically all of the hay cut in Oregon previous to the recent rains is now unfit for livestock feed, it is not necessarily a total loss, says J. V. Ruzek, associate soil scientist of the Oregon Experiment station. It can be turned to good account as "food" for the soil.

If this practically rotted hay is stacked or composted and then applied to the soil previous to the next seeding, more organic matter will go back into the soil than if the hay had been saved and fed to livestock, Ruzek says. In addition to the organic matter, hay and other bulky crop residues contain all of the es-

ential plant nutrients which are ordinarily replaced in the soils by the use of commercial fertilizer.

The commercial fertilizer value is about \$8.25 per ton, Ruzek figures. A mixture of oats and vetch will run slightly less, but is equal to red clover hay in nitrogen, phosphorus and potassium. In some sections of the state, orchardists are using alfalfa hay and dising it in their orchard soils for its organic matter and fertilizer value.

ST. HELENS—Danish Bortfield turnips, a variety introduced by the Astoria Experiment station and which has become popular with coast dairymen, have proved successful in Columbia county during the past year, County Agent George Nelson reports. This year 150 pounds of this seed was ordered for Columbia county, more than twice as much as last year. The supply has been exhausted, but inquiries are still coming in.

ONTARIO—White Russian wheat in a trial planting in comparison with Federation on the farm of Neil Dinmick of Nyssa appears much more uniform in height and is taller on the average, reports County Agent R. G. Larson. White Russian is a new wheat brought to Malheur county from Yakima valley where it is reported to have out-yielded Federation.

DALLAS—More than 500 acres of Ohio hardy red clover have been inspected for certification in Polk county by J. R. Beck, county agent, E. R. Jackman and G. R. Hyslop of

the Oregon Extension service and more fields will be inspected in the near future. This strain of clover is being established to take the place of the common red clover which has met disfavor in the east.

LAKEVIEW—Irrigation ditches were surveyed, planned and laid out by Victor W. Johnson, county agent, last month on the farms of John Ernst and W. H. Ostrom, Fort Rock. Mr. Ernst is adding another 12 acres to his pump irrigation project, and Mr. Ostrom, who has just put in a deep well for pump irrigation, is laying out 40 acres of sage

brush land to be put into alfalfa.

BEND—Fifty-three dead woodchucks were picked up by Rasmus Peterson on his ranch in Pleasant Valley two days after County Agent W. T. McDonald had held a poisoning demonstration there. During the demonstration McDonald showed 10 farmers the proper methods of preparing and placing poisoned alfalfa tips for woodchucks.

COMMUNICATED.
Dear Editor:
What is meant by being diplomatic?
Well, my friend, if you tell your wife that time stands still when you look into her eyes, that is diplomacy. But if you tell her that her face would stop a clock, that's foolishness.

R. A. Brownson, Editor.

The idea of debt moratorium is spreading. Pretty soon all of us will be putting in for our share.

Oh, Boy, won't building boom then. Call us up as soon as it happens and we'll be right out to build that new home. In the meantime, it might be a good idea to keep it in repair with Tum-A-Lum Lumber and paint.
