H. L. Probst made a hurried trip to Council, Idaho, the first of the week, returning Tuesday. Immediately following his return he went to Goldendale, Wn. His mother, Mrs. Ella R. Probst, accompanied him as far as Biggs where she will visit with her daughter until his return Wednesday evening. Mr. Probst reports that it is terribly dry in Idaho and that fruit growers are going to find it necessary to thin their apples quite low in order to have a marketable crop, due to lack of water.

COMEDY BRINGS GAY PAREE TO YOUR OWN DOOR. Those who already know Paris, and those who are keeping an eagle eye on the bank account until the happy day when the balance says "Let's go!" will particularly enjoy "Fifty Million Frenchmen," the Warner Bros. and Vitaphone Technicolor comedy special which comes to the Oasis Theatre, Friday next. "Fifty Million Frenchmen" brings Paris to your door. Parisian cafes, the famous Ritz bar, lovely French girls gorgeously attired in advance fashions, gendarmes and garcons, all are there to make up the natural French background of this talking picture laugh special which beside the tomfoolery has a thrilling love story.

Ole Olson and Chic Johnson, nuttiest nuts of the screen who rose to film fame as the co-stars of "Oh Sailor Behave!" head the cast of this comedy special which is filmed entirely in natural colors. The cast of "Fifty Million Frenchmen" includes Olson and Johnson, William Gaxton, Helen Broderick, Claudia Dell, John Halliday, Lester Crawford, Charles Judels, Nat Carr, Vera Gordon, Carmelita Geraghty and many others.

A husband may find that a safety pin is okay as a substitute for a button, but it is not so good for closing the hole in the toe of a sock.

If you are bothered by the heat these hot nights, here is a suggestion. Build a sleeping porch on the shady side of your house and sleep every night or insulate that ceiling of the house and keep the heat outside.

Paul Bunyan Again.
Paul Bunyan did not invent Geography but he created a lot of it. The Great Lakes were first constructed to provide a water hole for Babe, the Big Blue Ox. He also dug Puget Sound and the Rocky Mountains are the dirt that was left over.

Fair Board Meets: Revises Year's List

(Continued from page One)
turkeys be cut out and the best market turkey display be substituted with prizes of \$3.00 and \$2.00 awarded.

The board voted to give the 4-H club girls more space for display and demonstration this year and accepted Mrs. Wm. Hinesline's revision for the women's division. Mrs. Hinesline has charge of this division and promised the board that there would be some fine demonstration work put on by the girls' club.

A motion was made and carried that Mr. Skovbo's revision on honey prizes be accepted by the board with cuts made on some of the first prizes.

A motion was made by C. L. Dyer that the board allow the same amount of money for 4-H club prizes as last year. The motion carried. Due to the fact that the State Fair comes on September 28th and runs over to October 4th, it was voted to change the date of the Umatilla Project Fair from October 2 and 3, to October 9 and 10. This will give time for moving of displays from the state fair to the local display rooms.

Board members discussed the possibility of changing admission price from 50 cents to 35 cents for adults and 15 cents for children. They also discussed the suggestion that fewer passes be given out and labor expense be cut to a minimum.

Those present at the meeting were: J. Jenderjewski, L. C. Dyer, J. W. Mc Mullen and son Floyd, Mrs. Wm. Hinesline, W. G. Rodda, Emerald Tilden, Chas. A. Lynch, Garnet D. Best, Harry Kelley, Baxter Hutchison, Jean Skovbo, and Walter Holt, county agent of Pendleton.

The next meeting is scheduled for Saturday, August 8, at which time the premium list will be studied and revised.

WITH FARMERS AROUND THE STATE
HERMISTON—Tests of the value of manure applied to alfalfa, the oldest continuous experiment carried on at the Umatilla Branch Experiment station, show that manure applied at 8 tons per acre is more valuable and effective than when applied at 32 tons. It has also been proved that the value of manure is not eathed out rapidly, but is available over a period of years.

CORVALLIS — During the past year, 6272 Oregon dairy herds, containing 74,453 cows were tested for infectious abortion, generally recognized as the most serious menace to the dairy industry in the state. This represents a 50 per cent increase in number of herds and a 75 per cent increase in number of animals tested over last year. Progress in control of the disease is indicated by the fact

that the number of reactors found was substantially smaller in 1930 than in 1929. The work is carried on cooperatively by the Oregon Extension service, the Oregon Experiment station, and the dairymen.

ONTARIO—As a result of the success of a quarter acre of Austrian Winter field peas grown in Malheur county last year as a demonstration trial, approximately 400 acres of this crop have been planted by farmers of the county this year, reports County Agent R. G. Larson.

EUGENE—It pays to lime soil for the growing of vetch and clover in western Lane county. This fact was emphasized again this year. Albert Scott of Ada, for instance, reports a heavy yield of vetch on land limed two years ago, and a failure on a check plot not limed. The lime has also proved beneficial to root crops.

DALLAS—To determine whether super-phosphate will increase the winter-hardness of kale, 400 pounds per acre of this material has been applied in the drill rows in advance of seeding kale on the farm of Jacob Sears of Bethel. The trial is being made at the suggestion of County Agent J. R. Beck.
