According to K. G. Warner, chairman of the Ram Sale Committee and member of the Executive Committee of the Oregon Woolgrowers association, the sale will offer the most carefully selected lot of top quality rams ever offered at this event. There will be included in the offering more than 400 head of Hampshires, Rambouillets, Panamas, Lincolns, Crossbred Suffolks, Romneys and Cotswolds at the sale this year, including for the first time a consignment of Romeldales and another of pure bred Suffolks.

Careful buyers are looking forward to this sale, which is sponsored each year by the Oregon Woolgrowers association, as an opportunity seldom realized. These careful buyers realize the fact that they are going to be able to buy some of the best breeding in the northwest at prices that they can't afford to overlook. They know they are going to be able to take away from the sale their pick of the offerings at their own prices.

According to advice from the ram sale committee the rams will be in their pens at the sale grounds for inspection on the day before the sale.

For further information regarding this event, interested parties may get in touch with the office of the Secretary of the Oregon Woolgrowers association at Pendleton, Oregon.

UMATILLA PROJECT FAIR PREMIUM LIST READY

(Continued from page One) and cockerels will be given, aside from those eliminated.

Mrs. Henry Ott was elected superintendent of the flower division and will assist exhibitors in arranging their displays.

Before members of the fair board made definite plans for this year's fair they decided not to solicit individuals for donations toward the premium list. That does not mean, however, that special prizes are not welcome by superintendents of the different divisions, or that individual donations will be turned down by the board. Superintendents were welcomed by superintendents of the board to encourage special prizes whenever desired.

The matter of obtaining judges was discussed but no definite action taken.

Saturday, August 28, will be the next meeting date for the board.

R. A. Brownson, Editor.

Take a look at your roof. Every one else does. Is it a fitting cover for your home or does it need repairing or perhaps a complete new roof? The hot summer days bring out the weak spots and the first fall rains will go right thru and into the house unless the roof covers you like it should.

after peace was made between the North and the South. As a government agent of the Secret Service he is sent to his boyhood Texas to "get the goods" on a group of "carpet-baggers" who are cheating the people of Texas out of their land.

Here he meets Fay Wray, owner of the biggest herd of beef-cattle in the region. As children they were friends but there is now a strain between them due to Fay's bitterness over his association with the "enemy" during the war.

She accepts his service, however, as a paid guide to lead her livestock on the perilous trail from Texas across the Red River into Abilene, Kansas, and the trip is finally completed triumphantly after many thrilling and perilous adventures with Indians and the pursuing "carpet-baggers" who have been attempting to discourage this money-making venture.
