TOLEDO — The application of \$5.60 worth of superphosphate returned Ray L. Jenkins of Toledo \$50 extra on his crop of Bortfield turnips this fall, he reports. Last spring Mr. Jenkins drilled 400 pounds of superphosphate along the rows of 2 1/2 acres of the turnips after they were grown up, leaving an untreated check plot. The treated ground this fall yielded 33 tons per acre, while the check plot produced only 20 tons. He estimated his total increase on the 2 1/2 acres at 25 tons valued at \$2 per ton. The superphosphate was part of a 13,350 order pooled for 46 different persons in 13 communities of Lincoln county last spring by County Agent M. J. Conklin.
