Spiritually Rich.
 At this particular time of year hearts of men over all the Christian world soften as memories of the life of Jesus are brought more closely to their minds.
 And, this Christmas season, are we not witnessing a fuller open-heartedness? For, has not the beautiful example set by the Good Samaritan come into the fore to relieve human suffering? To overcome selfishness? To banish strife? To remind us that we are our Brother's Keeper?
 Amid all the worries that beset a sorely troubled world let us not become blind to the goodness so close around us, nor let us forget our opportunities of service, that have never been more plentiful. Although our lot may seem harder, are we not a man to man richer, nobler, because of this friendlier period?
 In terms of the spiritual things of life our harvest is plentiful.
 At this time our Christmas wish

May the Christmas dawn find you and yours in health, at peace with all mankind, anticipating a happy day with those you love.

BLESSING Hardware Co.

1931-1932

We would sing you a carol,
 but ah, we can't sing;
 We would ring you a chime,
 but we've nothing to ring;
 So we send you a wish
 that is sincere and true;
 A right Merry Christmas,
 and a glad New Year, too!

TO OUR PATRONS.

We find ourselves wishing for a few words that will convey, in the true spirit of Christmas, the thoughts that are uppermost in our minds and express most clearly our deep appreciation of your friendship.

THOMAS "ARIZONA" BROUGHT TO SCREEN FRIDAY & SAURDAY.

"Arizona," one of the most popular and successful stage plays ever written, has been made into a talking film by Columbia Pictures and is showing Friday and Saturday at the Oasis theatre.
 The play is the work of Augustus Thomas, one of the greatest of present day playwrights. It is considered the outstanding work of this talented author, and it has had a colorful career on American dramatic boards. The long history attached to this play started in 1899 at the Hamilton Opera House in Chicago where it had its premiere and played for more than a year with a cast which later became famous—such names as Theodore Roberts, Robert Edeson, Arthur Byron, Olive May, Eleanor Robson, Edmund Holt and Lonel Barrymore.
 For over nine years "Arizona" held its grip on the public and it went down in theatrical history as being the most popular play of modern times. It is considered an American Classic. Following its Chicago run, it had an equally successful showing at the Herald Square in New York and then at the Adelphi in London, while several companies presented it simultaneously in the road in the United States.
 It was revived with great success in 1902 and again in 1909 by an all star cast, and it was filmed by Douglas Fairbanks in 1918. In 1925 the "huberts set "Arizona" to music under the title of "The Love Call" and proved that its popularity was as great at that time as it had been when the play was first presented.
 The film showing Friday and Saturday at the Oasis theatre is a modern adaption of this play.
 The following cast interpret roles in the screen play—Laura La Plante, John Wayne and June Clyde in the leads, and Nema Quartaro, Forrest Stanley, Loretta Sayers and Susan Fleming in supporting roles. George B. Feitz handled the direction.

CHURCH NOTES

CHRISTIAN SCIENCE CHURCHES

"Is the Universe, Including Man, Evolved by Atomic Force?" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, Dec. 20.
 The Golden Text was, "Of old hast thou laid the foundation of the earth: and the heavens are the work of thy hands" (Ps. 102:25).
 Among the citations which comprised the Lesson-Sermon was the following from the Bible: "The heavens are things, the earth also is things: as for the world and the fulness thereof, thou hast founded them" (Ps. 89:11).
 The Lesson-Sermon also included the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures", by Mary Baker Eddy: "God creates and governs the universe, including man. The universe is filled with spiritual ideas, which He evolves, and they are obedient to the Mind that makes them" (p.295).
