

The Hermiston Herald

Published every Thursday at Hermiston, Umatilla County, Oregon, by Pauline M. Stoop and Alfred Quirins, Publishers.

Entered as Second Class Matter December, 1906, Umatilla County, Oregon.

Subscription Rates: One Year \$2.00, Six Months \$1.00, Three Months .50

Looking About!

The Hermiston community, and those surrounding it, have much to be thankful for.

First, we have a solid bank. Second, a small but steady income. Third, cooperative organizations that bring people for miles around to our city.

We might go on numerating without ceasing, but all we need do is look about us to realize how fortunate we are.

If Civilization Is To Endure.

Miss Mary E. Woolley, nationally known educator and President of Mt. Holyoke College, has been appointed by President Hoover as an American member of the World Disarmament Conference.

"My hope for the World Disarmament Conference is that it may result in a long step forward toward the substitution of international understanding for misunderstanding, of law for war, and of reason for brute force. It must be remembered that changes in human attitude are progressive.

IT'S SMART TO BUY GOOD SHOES and then REPAIRED BOWMAN SHOESHOP

The Grange Recommends.

Confronted with the negative attitude of the United States army engineer board toward the "Series D" proposal for development of the lower Columbia, the executive committee acting for the Oregon State Grange gives its support to the "Series B" proposal, also contained in the report of the army engineers.

The difference between "Series D" and "Series B" is the difference between a single high dam at The Dalles with an auxiliary dam at Warrendale, and a series of low-head dams to be built at Warrendale, The Dalles, Arlington and Umatilla Rapids.

In reaching its conclusion the grange executive board states that it considered "the possibility of immediate realization, the immediate and future benefits that may reasonably be expected, the capability of the Northwest states to fulfill the necessary requirements upon which the different development plans are dependent and the ability of the state to guarantee the federal government a return upon the investment that will be required before development can be made."

The grange committee considers the order in which dams of the "Series B" proposal might be built and finds that the one at Warrendale would be the "logical first step."

In this connection the Umatilla Rapids project should be studied not only for its output of 420,000 primary horsepower but for the possibility that its secondary power might be partly used to pump water to the initial units of the Columbia Basin project near Spokane.

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "To be carnally minded is death; but to be spiritually minded is life and peace" (Rom. 8:6).

Landscaping Simplified

By H. W. KLAGES

Note—This article is the last of a series written on landscape gardening on the Hermiston and surrounding projects by H. G. Klages. If you have followed them they will be useful to you.

How to Make and Keep a Lawn.

First of all, level the piece of land that is going to be planted to lawn grass seed, in order that it may be flooded with water. The sprinkling system of course, is not the very best, and is not practical on this project as flooding is the cheapest.

After the lawn is leveled and your field level verifies the same, you are ready for the first application of water. Do not turn in too much water the first time as the water must not get ahead of you.

The next step is the planting of seed. Do not make the mistake of planting just one kind of grass seed. Just one kind cannot give you a beautiful lawn throughout the whole growing season.

A well cared for lawn will last one-hundred years or longer. Last, but not least, it is the art of keeping your lawn smooth by mowing it often and regularly.

After your lawn begins to look green, which should not be longer than eighteen days, give it a good application of ammonium sulphate, or a highly nitrate fertilizer.

Water should be applied with great care, even and regularly. This keeps the color of the lawn perfect and it will never be spotted.

The cure for dandelions and weeds is simple; keep the lawn well fertilized and the weeds cannot grow through the thick turf.

After you have mowed your lawn about four times, trim the outside edge until it is smooth. Cut the lawn away about six inches from the trees and flower beds.

Do not spoil your lawn by putting robes down and then lounging on them. This mashes the grass down and these places eventually become bare spots.

A well cared for lawn will last one-hundred years or longer. Last, but not least, it is the art of keeping your lawn smooth by mowing it often and regularly.

D. who has been visiting her sister, Mrs. W. C. Isom since October, left for Monument, Oregon, Saturday where she will visit relatives until spring.

Henry Wier is on the sick list this week.

Leola Benfield was a business visitor in Pendleton Thursday.

Entries may be any kind of model, figure or special carving, requiring skill and ingenuity, made entirely of wood, and with no other tools than a jackknife.

CHURCH NOTES

BAPTIST-CHRISTIAN CHURCH

W. E. Jones, Pastor. 10:20 A. M., Communion service. 10:30 A. M., Song service and announcements. 10:55 A. M., Preaching service. Sermon subject, "The Finger of God."

METHODIST CHURCH

Oscar Payne, Pastor. The regular church school Sunday

CHRISTIAN SCIENCE CHURCHES

"Life" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, Jan. 17.

The Golden Text was, "This is the record, that God hath given to us eternal life, and this life is in his Son" (I Jno. 5:11).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "To be carnally minded is death; but to be spiritually minded is life and peace" (Rom. 8:6).

The Lesson-Sermon also included the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures", by Mary Baker Eddy: "We apprehend Life in divine Science only as we live above corporeal sense and correct it. Our proportionate admission of the claims of good or of evil determines the harmony of our existence, — our health, our longevity, and our Christianity" (p.157).

GARY COOPER CO-STARS WITH MISS COLBERT.

Gary Cooper and Claudette Colbert form a delightful team in "His Woman", their first picture together and which will be at the Oasis theatre Friday and Saturday.

Cooper's last pictures, which have included "Morocco" and "I Take This Woman," have made him a favorite. Miss Colbert's recent pictures include "The Smiling Lieutenant" and "Secrets of a Secretary".

With the aid of intelligent direction, the three principles in "His Woman" present a piece of entertainment that is well worth while.

Claudette, in the role of a woman of the streets, gives what is undoubtedly her best screen performance. Cooper, as always, comes through in great style.

The story has a nautical background and tells of Cooper's valiant attempt to bring up an outcast baby, with the help of Miss Colbert. The story is well-told that it makes a most likeable picture.

New Jersey has the only plant in the United States for the production of glass wool, used in ink erasers and storage batteries and as a filtering medium for chemical solutions.

IRRIGON NEWS

Mr. and Mrs. Jack Browning motored to Peonrahs, Wn., Tuesday after receiving word of the serious illness of Mrs. Browning's father.

Mrs. R. L. Wilson sold her town property this week to a party from Hermiston and with her son, Bishop will move at once into one of the James Warner camp cabins for an indefinite stay.

Mrs. Alma Grieves and daughter Norma arrived this week for an extended visit with Mrs. Grieres father, C. Bishop. Mrs. Grieres states that she has disposed of her drug store in Seattle.

Mrs. Earl Isom and Mrs. Wilbur Stevens called on Mrs. Henry Wier Thursday afternoon.

Mrs. A. C. Houghten and Mrs. Roscoe Williams visited in the home of Mrs. Clara Smith Wednesday.

The Irrigon town basketball team went to Boardman Friday night where they played a game with the Boardman team and were defeated. About thirty of Irrigon people went down to witness the game and afterward all of them went to the home of Mr. and Mrs. J. Smith where an oyster supper was served. Mrs. Mary Smith of Gregory, S.
