COOPERATIVES TOTAL 180 IN OREGON, SAYS REPORT.

Oregon now has approximately 180 cooperative marketing or purchasing associations, according to a compilation just made by George O. Gatlin, extension marketing specialist of Oregon State college.

Gatlin classifies the Oregon associations as follows: 47 fruit and vegetable associations, 8 canneries, 19 fruit and vegetable bargaining associations, 13 creameries, 26 cheese factories and sales agencies, 3 milk bargaining, 2 milk distributing, 6 livestock and wool, 4 handling eggs, 5 turkeys, 8 nuts, 14 grain, 13 purchasing associations, 2 handling oil and gasoline, and 9 unclassified associations handling seeds, bulbs and the like.

SUBJECT OF GARDENING DISCUSSED BY F. B. AUXILIARY.

The women's auxiliary to the farm bureau met in regular session, April 15th, with Mrs. Blum acting as president in the absence of Mrs. Reed, who had been called to Spokane by death of her father.

The date for this quilting party was set for Friday, April 22nd. The committee in charge were Mrs. E. E. Thomas, chairman, Mrs. John Paxton, Mrs. Bodkin and Mrs. Baxter Hutchison.

The song rendered by Mrs. Hutchison and Mrs. Wilson was heartily applauded and the story of Jimmie Angelo told by Zeile French pleased those present.

Guessing games in the social hour and refreshments took up the allotted time before adjournment. Next regular meeting will be May 6th with Mrs. Henry Hooker as chairman, assisted by Mrs. Alvin Hooker, Mrs. Hutchison and Mrs. Hughes.

All Items Appearing in this Column are Contributed by the Hermiston W. C. T. U.

Finland's Spree

Finland has abandoned prohibition. Before the recent referendum wet leaders argued for repeal of dry laws because it would reduce drinking. But on the first day of legalized booze, Finlanders by the thousand stood in line for hours in a storm of sleet and rain awaiting their turn to get into the drinking places.

The repeal of prohibition was to take away Finnish appetites for strong drink because when within easy reach the people wouldn't want it, but millions of gallons of the powerful vodka, whisky and other hard liquors were shipped in addition to local supplies for the reopening of the dramshops and all soon were exhausted.

Finland has gone on a grand spree but the inevitable headache must follow and with it will come the wish that the country had held onto its tried and proven way of dealing with strong drink.

CHURCH NOTES

METHODIST EPISCOPAL CHURCH. O. W. Payne, Minister. There will be an unusually interesting service at the church next Sunday morning. The regular Sunday School at 10:00 o'clock, and

Immediately following will be the morning worship hour. The subject for the morning is "The Christian Citizen's Responsibility." Then following the worship hour, we will have our regular monthly "Pot Luck" dinner in the basement, and at the same time hold our quarterly meeting. Every member and friend of the church is cordially invited and urged to attend this meeting. Come prepared to stay all day. Don't be in a hurry, but you may go if you cannot stay all day.

BAPTIST CHURCH NOTES

E. J. Cain, Pastor. Sunday morning your Baptist pastor will speak on "The Divine Adoption," and in the evening his subject will be, "Eternal Mercy." Be sure to hear these messages as they embody two of the chief doctrines of the Bible.

Our Church School invites you to attend its services at ten o'clock every Sunday morning. We have a good Superintendent, some good teachers and a lot of good pupils whose ages vary from four years to about eighty years. You will find some one your age to sit by.

Next Monday and Tuesday, the Superintendent and the pastor will be speakers at a Sunday school conference at the Baptist church in Pendleton, so Miss Sommers will conduct the Children's meeting Tuesday at 3:45, with the aid of Misses Norquist and Wells, who are the pastor's regular helpers, and good ones too. Buddy Moore and his sister will furnish special music.

Next week the prayer and Bible study hour Wednesday evening will be superceded by the annual church meeting. All members of the church should be there.

CHRISTIAN SCIENCE CHURCHES

"Doctrine of Atonement" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, April 17.

The Golden Text was, "Christ was once offered to bear the sins of many; and unto them that look for him shall he appear the second time without sin unto salvation" (Heb. 9:28).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Forasmuch as the children are partakers of flesh and blood, he also himself likewise took part of the same; that through death he might destroy him that had the power of death, that is, the devil; and deliver them who through fear of death were all their lifetime subject to bondage" (Heb. 2:14, 15).

The Lesson-Sermon also included the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures", by Mary Baker Eddy: "Our Master fully and finally demonstrated divine Science in his victory over death and the grave. Jesus' deed was for the enlightenment of men and for the salvation of the whole world from sin, sickness, and death" (p.45).

A greenhouse set on roller bearings and kept slowly rotating to give plants the full benefit of the sun is an invention recently patented.

IRRIGON NEWS

Mrs. R. Hinkley from Payette, Idaho, is visiting her parents, Mr. and Mrs. Edwin Wilson.

E. J. Allen is visiting with his brother, Mr. Allen, who lives on the Hannon place. Mr. Allen has prospects of locating here.

Pomona Grange Met.

The regular quarterly meeting of the Pomona Grange met today (Thursday) beginning at 10:00 o'clock in the morning at Stanfield with the Stanfield Grange entertaining. The master of the Grange is John Crow of Pendleton; lecturer, Mrs. Ella Brown of Helix; H. E. C. Mrs. Lauretta Gilliland of Weston; Agriculture committee chairman, W. A. Holt of Pendleton; Juvenile matron, Mrs. Irene Rockwell of Pilot Rock.

SPRAY FOR CURRENT FLIES NOW DUE, SAYS O.S.C. MAN.

Fruit flies of currents were observed emerging from the soil near Corvallis by entomologists of the experiment station on April 12. These may be expected to start depositing eggs on currents and gooseberries in about 10 days, making it desirable to apply the first spray as soon as possible, says S. C. Jones, assistant entomologist.

Time of emergence of the flies will vary somewhat with the locality, a later date probably applying to higher altitudes. Three sprays of a sweetened poison bait, applied at intervals of seven days and repeated in case of rain, are recommended. Complete details of preparing and applying the spray are given in Station Circular No. 42, "Insect Pests and Diseases of Currents and Gooseberries," which may be had of any county agent.

UMATILLA NEWS ITEMS

Mr. and Mrs. Walter Bullard of Heppner were week end guests of Mr. and Mrs. Frank Clark.

Robert Barrett of White Bluffs, Wash., was a Umatilla visitor the first part of this week. Mr. Barrett left Wednesday morning.

THE 1932 YEAR BOOK OUR HISTORY OF 1931

IN many lines of industry the largest companies reduced their output in 1931. Those who furnished them with raw materials had, at best, restricted markets.

Swift & Company's 1932 Year Book, now ready, tells how this nation-wide, diversified marketing organization met conditions in a better way.

- 1. It kept its doors open and handled more pounds of products than in 1930. 2. It continued to pay cash for all it bought. 3. In more than a hundred produce stations it held to the policy of purchasing all the poultry, eggs and dairy products offered by farmers. 4. Still more important, Swift & Company cut its own costs.

Thirty years of experience have proved that the most economical way to market produce is through the same channels that handle meats. The same salesmen sell, the same refrigerator cars transport, the same branch houses sell and deliver the whole Swift & Company line of fine foods, such as Swift's Premium Hams and Bacon, Swift's Premium Milk-Fed Chicken, Golden West Fowl, Swift's Brookfield Butter, Eggs, Cheese and many other products.

Read the 1932 Year Book. It explains how a rounded line makes Swift & Company operations stable and how diversification lessens the costs of handling both meat and produce. It takes the mystery out of the factors that go to make price levels. And it tells in detail the steps this Company has taken to make itself still more efficient in covering the gap between hundreds of thousands of producers and millions of consumers.

Your copy awaits you. Ask your local Swift Produce Plant or use the coupon below.
