The recovery in the depression will start from the bottom up; not from the top down.—Charles G. Dawes.

VOLUME XXVI NUMBER 45

HERMISTON, UMATILLA COUNTY, OREGON, THURSDAY, JULY 7, 1932

SUBSCRIPTION, \$2.00 PER YEAR

## UMATILLA PROJECT FAIR DATE SET FOR OCTOBER 7-8

### DIVISIONAL SUPERINTENDENTS NAMED AT MEETING.

R. C. Todd is Named as President to Fill Vacancy Left by Resignation of J. Jendrzewski.

Dates for the Umatilla Project Fair were set for October 7 and 8, for this year at a fair board meeting Wednesday night. After some debate the board decided that more would be gained than lost by again featuring the fair.

The resignation of John Jendrzewski as president of the board was accepted and R. C. Todd, vice president, was named to fill the vacancy. Mr. Jendrzewski said that he would not be able to devote the necessary time to directing the fair activities.

Last year's fair was successful both from a project enterprise standpoint, and financially. The financial report of the secretary-treasurer Wednesday night showed approximately \$100 in the treasury to use as a fund for opening activities. Extra expense last year was due to the necessity of reconstructing the fair buildings which had been blown down.

The following superintendents were named to head the various features at the fair this fall:

Sheep and hog clubs, Garnet D. Best, Assistant County Agent.

Grounds, Logan Todd.

Concessions, H. W. Kelley.

Cattle, Chas. Lynch and Roy Attebury.

Poultry, Lyle Tilden and Wm. Logan.

Athletic contests, Logan Todd.

Women's division, Mrs. Wm. Hine line.

Farm display, J. Jendrzewski.

Clerk, Enos Martin.

Round-up features were contemplated by the board.

### CERTIFIED PLAN TO BE EXTENDED FOR PLANTS.

Just as the development of certification of seed has given Oregon producers a profitable outlet in this and other states for seed potatoes, so are the strawberry plant growers expected to profit from a new plan proposed for certification of strawberry planting stock.

The new plan for strawberry-plant certification has just been issued by the extension service of Oregon State college as drawn up by O. T. McWhorter, extension horticulturalist, and S. M. Zeller, plant pathologist of the experiment station. It is designed as a practical plan whereby any grower desiring certification service may get it at nominal cost, while no others need use it any more than a potato grower has to use certification.

"Strawberry-plant certification is to provide the prospective purchaser a source of improved planting stock," says the announcement just published. "Such stock is that which has been improved through selection or other practices to the extent that it is vigorous, is true to the variety name and has a minimum of destructive strawberry diseases or pests."

It is pointed out that there is a demand for high, vigorous planting stock for use by Oregon growers and for sale to out-of-state markets. Such planting stock is now recognized as a requirement if high yields of quality fruit of the strawberry are to be expected.

Much work has recently been done in studying strawberry diseases with the result that it is now known how serious many of these are, and it is realized how important good planting stock is in their control.

Any Oregon grower, firm or corporation agreeing to abide by the rules for strawberry-plant certification is eligible for the certification service, says the advance announcement.

### Move to LaGrande.

Philip Winters and his family left Tuesday for LaGrande, Oregon, where they will make their future home. Mr. Winters has operated the Hermiston Bakery here for the past two years but has moved his equipment to LaGrande where he will operate a bakery.

### CIVIL WAR VETERAN PASSES ON AT AGE OF 89 YEARS.

William C. Morse, 89 year old Civil War veteran, passed away Thursday, June 30, at the home of his son J. P. Morse. He had been in poor health for the past three years and had been totally blind for 18 years. Funeral services were held Sunday at 2:00 p. m. from the Fraun Funeral Parlors and interment made in the Hermiston cemetery.

Mr. Morse spent his early childhood in Indiana and Illinois, and when a young man enlisted in the Civil War in 1861, serving three years. He came west in 1880 settling in Idaho and then spent his later years in California and Oregon. He was a devout Christian and has passed on to meet his loved ones who have preceded him.

Mr. Morse leaves to mourn his death, three sons, J. P. Morse of Hermiston; S. P. Morse of Pierce, Idaho; and D. Morse of San Diego, California; also 14 grandchildren and 12 great-grandchildren.

### CARD OF THANKS.

We wish to thank our many friends for their sympathy and beautiful floral offerings during the recent loss of our father. We also wish to thank the American Legion for its tribute to our loved father and grandfather.

J. P. MORSE AND FAMILY,  
S. P. MORSE AND FAMILY,  
D. MORSE AND FAMILY.

### Carpentier-McKenty

The following social item was sent to this paper by Dan McKenty who is known by old-time Hermiston residents and who is a property owner. The McKenty farm is in the Minnehaha district near the C. M. Jackson farm.

"A very pretty wedding took place Monday morning in Havre, Mont., when Miss Beatrice Carpentier and Harry McKenty were married at St. Jude's church at 9 o'clock. The Rev. W. E. Smith officiating.

"The couple were attended by Veronca McKenty, sister of the groom, and Urban Golligowski, Wm. Carpentier, brother of the bride, accompanied her down the aisle to the strains of the wedding march played by Mrs. Chas. Hilla, the groom and best man meeting them at the altar.

"The bride wore a cream and pastel colored chiffon dress with matching hat and accessories, and carried a bouquet of Ophelia roses and lilies of the valley. The bridesmaid wore blue chiffon dress with hat to match and carried pink roses. The church was decorated with daisies and ferns.

"During the service, Mrs. Chas. Hilla and Mrs. Henry Gilmore sang "Ave Maria." Mrs. Gilmore also sang "God, My Only God," "Mother Blessed" and "Ora Pro Nobis."

"After the ceremony a four course wedding breakfast was served at the home of Mr. and Mrs. B. O. Clark, the latter being a sister of the bride. The house was beautifully decorated with flowers, a pink and white color scheme being used for the breakfast. The table was decorated with pink tapers and glassware, and centered with a bowl of roses. A three-piece wedding cake, decorated with a bride and groom, stood before the bride. Thirty close friends and relatives were present.

"The bride is the daughter of Mr. and Mrs. Noe Carpentier of Sacramento, formerly of Rudyard. She is a graduate of the Los Angeles Polytechnic high school and the Los Angeles German Lutheran hospital, and has had post graduate work at St. Joseph's hospital in Tacoma.

"Harry McKenty is the oldest son of Mr. and Mrs. Dan McKenty of Havre. He attended the Havre high school, the electrical school in Chicago and the mechanical school in Fargo.

"The bridal couple left by car for Hermiston, Oregon, at 4 o'clock Monday afternoon, where they will make their home at the McKenty fruit and poultry farm near Hermiston."

### Visits From Florida.

Mr. and Mrs. B. S. Kingsley returned from Portland Tuesday night accompanied by their daughter, Mrs. P. T. Schooley, of Tampa, Florida. Mr. and Mrs. Kingsley drove to Portland Monday to meet their daughter who will visit them here for about eight weeks. Enroute Mrs. Schooley spent a day in Chicago at the democratic national convention.

## TWO MILES GRADE COMPLETED ON WALLULA CUT-OFF

### OVERHEAD CROSSING INCLUDED IN 8.3 MILES HIGHWAY.

Sixty Men Now on Job; Majority Experienced Help; 100 Men Expected on Job by End of Month.

Two miles of grading has been completed on the 8.3 miles of Wallula cut-off Sand Station at State Line highway on which construction started June 3. The 8.3 miles of highway includes the overhead crossing at Umatilla on the Wallula cut-off highway of which six miles was completed last summer. Construction work is being done by S. H. Newell & Company of Portland and machinery and equipment is being shipped in daily.

Thomas J. Williams, overseer of the job, is now on the site directing the work with the assistance of Mr. Parker, foreman. At present about 60 men are employed but by the end of the month at least 100 men will be on the pay roll. Construction will then be moving with a night and day shift. Experienced men are operating the machinery on the job.

The contract allows for a year's time for construction of the 8.3 miles of highway. Work will be completed some time in 1933.

### EARWIG PARASITES GOING TO NINE OREGON COUNTIES.

The offer of the Oregon Experiment station and the Portland city earwig insectary to supply Oregon communities with colonies of parasitized earwigs has proved so popular that 30 colonies totaling 35,000 parasitized earwigs will be distributed through nine counties. No more orders can be filled this season.

The parasites previously released in Portland through the work of the insectary have proved so effective that it is proving difficult this year to get enough of the male earwigs to send out as parasitized colonies, says R. E. Dimick, state college entomologist in charge of the Portland work. Residents report the "twigs" as being actually scarce in many sections previously heavily infested. Orders are to be filled for communities in Lane, Clackamas, Polk, Benton, Douglas, Washington, Coos, Tillamook and Hood River counties, where county agents arranged with various clubs and civic organizations for the release of the colonies.

### Weather Report.

Date	Max.	Min.
June 30	95	50
July 1	99	50
July 2	89	58
July 3	85	60
July 4	80	50
July 5	86	42
July 6	85	44

### Wallula Cut-off Highway Construction-

The first hole drilled in the construction of the 8.3 miles of highway on the Wallula cut-off Sand Station at State Line highway about June 3. Mr. Parker, foreman on the job, is pictured standing in the center. Two miles of grading has been completed since that time.

### A Challenge to Young People.

During the past forty years tens of thousands of young men and women of many nationalities and denominations have sought free training for Christian service at home or abroad offered by The Moody Bible Institute of Chicago. More than 2,000 students enrolled in its Day and Evening Schools last year. While for certain special courses a high school background is required, and college training desirable, yet grammar school training will admit to its General Course. English is taught to any deficient in its use. The Bible ranks first in all Institute courses, but instruction is furnished in such subjects as Sunday School Administration, Daily Vacation Bible School, Gospel Music, Public Speaking, Home Economics, Hygiene, and Manual Training. In special courses are offered Theology, Homiletics, Church History, Apologetics, Hebrew, Yiddish, Greek, and medical subjects for foreign mission work.

There are three terms a year—Fall, Winter, and Summer—but students may enter at any time. An illustrated catalogue will be mailed on request. Address, 153 Institute Place, Chicago Avenue Station, Chicago, Ill.

### Property Transferred.

J. Dell Christy, has deeded to Nell McClure the southwest quarter of the southwest quarter of the northwest quarter and the north half of the southwest quarter of the northwest quarter of section 5 in township 4 north range 29 E.W.M., containing 30 acres, including all water rights and a certain credit of \$500.50 given by the United States Reclamation bureau on construction charges and also a share in the Federal Land Bank.

Robert A. and Minnie E. Stewart have deeded to Theodore and Esther Beltski the west half of the southwest quarter of the southwest quarter of section 36 in township 5 north range 28 E. W. M.

### Alfalfa Stored Into Mow.

CORVALLIS—Some Benton county farmers have been following the practice of putting hay into the barn directly from a chopper instead of in the usual manner. The advantages, according to County Agent Cy Briggs, are that it occupies a much smaller space, is easier to feed out and there is less waste. One man discovered several years ago that he could put his alfalfa hay in partial green that way and have a brown hay after it went through a sweat. This hay was greatly relished by his stock. The danger is that it will get too hot and cause a barn fire, says Mr. Briggs.

### LAW VIOLATORS APPREHENDED NEAR HERMISTON RECENTLY

Walden Rhea was fined \$100 and sentenced to serve 30 days in the county jail in justice court here last Thursday for possession of liquor. He was arrested by sheriff officials and Bert Nation, deputy here. Three charges, contributing to the delinquency of a minor, drunken driving, and possession of liquor were entered against him. He pleaded guilty to the possession charge and the other two were dropped.

The department of justice took charge of R. J. McCoy, 22, alias C. H. Barkley, alias Joe Hammer, and Bert Bray, 57, who were apprehended July 3 a few miles below Hermiston by Bert Nation and are being held at the county jail for the alleged theft of an automobile at Boise, Idaho.

### MANY CHERRY USES GIVEN BY EXTENSION DIVISION.

Cherries are ripe! And they are plentiful! This year, as always, they hold a prominent place among Oregon home canned or preserved foods, as they are easily canned and kept, says the home economics division of the State college extension service.

For canning, select fully ripe cherries, that is, a sirup made in the proportion of 3 cups of sugar to 7 cups of water, mixed together and brought to a boil. Cherries keep perfectly when canned without sugar, but hold their color, flavor and shape better and require less sugar for the same degree of sweetness if sugar is added at canning time.

Dried cherries are delicious and can be substituted for raisins in puddings, pies, cakes, and salads. Dry cherries unspiced by washing and placing them on a wire screen in the oven or over artificial heat.

A few of the cherry recipes available in mimeographed form upon request are given below:

### Cherry Olives.

Fill a quart jar with large sweet cherries, leaving the stems on and packing the fruit as closely as possible. Mix 1 tablespoon of salt and 1 cup of cold vinegar, and pour the mixture into the jar of cherries. Fill the jar with cold water. Adjust the rubber and the cover, and seal the jar as usual. Turn it upside down several times. Allow the cherries to stand for at least two weeks before using them. These cherries are not heated. They make a firm salt pickle to be used with meats.

### Cherry Cocktail.

1 pound cherries  
3/4 cup chopped walnuts  
3 teaspoons lemon juice  
6 tablespoons strawberry juice  
6 tablespoons powdered sugar  
Pit the cherries, sprinkle with chopped almonds and pour over them a sirup made by mixing strawberry juice with powdered sugar and lemon juice. Chill and serve cold in cocktail glasses.

### Cherry Relish.

Remove pits from cherries. Drain cherries and cover with vinegar solution made in proportion of 3/4 cup vinegar to 1 quart water. Let stand for 6 hours, drain cherries, measure them and add an equal measure of sugar. Let cherries stand overnight. Seal.

### MINNEHAHA NEWS NOTES

Miss Mary Louise Masters of Pendleton who has been visiting her friend Katrine Kryger returned home Friday.

Word was received last week of the marriage of Harry McKenty. Mr. McKenty went to Montana where the wedding took place. Mr. and Mrs. McKenty returned to Hermiston and will reside on the McKenty ranch.

Charles Rogers who has been visiting Mr. and Mrs. W. A. Hineline, returned to Milton Wednesday.

Miss Grace Jackson of Pendleton was home for a visit over the 4th. J. M. Thom, Jr., and Bob Combs stock have returned from a very pleasant fishing trip. While on their trip they visited with the Chas. Kaiser family at Charlo, Mont.

Mrs. Nellie Gilliland and sons Richard and Strickland of Portland spent the Fourth at the Thom ranch.

Miss Catherine McDavid is up from Portland for a short visit with home folks.

Miss Rosella Matott returned from LaGrande Wednesday. She had been visiting her friend, Miss Lois Greene.

## STATE GRANGE MASTER DELIVERS ADDRESS AT FOURTH CELEBRATION

### CALLS PROHIBITION QUESTION "SMOKE SCREEN."

Large Crowd Enjoys Events of the Day; Ideal Weather Prevails Throughout Program.

One of the largest crowds ever seen at the annual Fourth of July picnic sponsored by the Umatilla Project Farm Bureau and the Standfield Grange enjoyed the day in Columbia park last Monday. The program started in the morning and by noon picnickers had gathered from every corner of the surrounding projects. The day was pleasant with just enough sunshine to make it comfortable for an outing.

The speaker of the day, Ray Gill, state grange master for Oregon, delivered an instructive address bringing out one way in which the American public could help remedy the present economical situation, and that was by expressing their wish at the polls this fall. Mr. Gill went on to say that he believed one of the most fundamental things needed in building the foundation of American youth, was in keeping the home clean, and free from destructive influences. He stated that he believed the radio one means of bringing things into the home that tend to corrupt the morals of children, especially by advocating the use of tobacco and cigarettes by young women and girls.

Mr. Gill said that Andrew Mellon in a recent address in London, expressed his lack of sympathy with the conditions here in the United States when he said, "the depression in America is progressing in an orderly manner."

In expressing the sentiments of the Grange, Mr. Gill said that the prohibition question was merely a "smoke screen" to hide the real issues. The Oregon State Grange expressed itself as "dry" at the recent state grange meeting at Silverton, Oregon.

The musical part of the program was well received and a baseball game played late in the afternoon. Coffee, and lemonade were furnished free by the Farm Bureau and the 4-H club boys and girls served ice cream.

### ALONG THE CONCRETE

Why not work out a system of issuing a yearly license for marriages? Try it for a year and then when the license expires parties could have the privilege of letting it become delinquent or renewing for another year. Such an arrangement might be better than companionate marriage but it would put Reno off the map.

Our politicians say that as soon as Roosevelt is elected everything will be hunkey-dorey again. Prices might start to climb but we wonder if they will know in which direction they are going. Such a sudden shock might be too much for those of us who used to be eccentric about a two dollar bill.

Mrs. R. G. Penney says that she will do a lot of buying when Hoover is re-elected. We will be willing to bet that Mrs. Penney's buying will be like that ship that never comes in.

D. D. Follett says the state highway crew can be notified that they are resurfacing the highway thru Hermiston to his satisfaction; in fact, he says, they are doing just as good a job as he could do. Then along comes Al Clayton and says that they should be instructed to make the road wider. The trouble with these United States of ours, is that we common people are becoming too "educated" and know too much about how everything should be run. We are fully convinced that even Hoover is becoming too big for the presidential seat.

Geo. Harkenrider settled a local prohibition discussion by stating that he "had already settled the question." He was asked, "With what?"

Have you heard of the ex-stock broker who put a sign on his gate reading: "Bill collectors, Agents, Solicitors, etc., etc. Keep Out! Beware of the wolf at the door!"

## Blub-b-b-b
