Insure Motorist's Safety.

The accident occurring at the crossroads near the A. F. Rohrman residence south of town Saturday evening when a truck hit a telephone pole in attempting to avoid a collision with a roadster...

The state highway commission, the county court, or the city council, whoever is responsible for making the necessary change, owe it to the motoring public to grade the bank on either side of the cut at that point to a sufficient angle to insure public safety.

The accident, in which a 13-year-old girl lost her right leg, was pronounced unavoidable by the district attorney, but it might have been avoided had there been a clear view of the main thoroughfare.

Two Months' Work for Nothing.

How would the average citizen like to work 61 days without any pay whatever?

The answer is that he wouldn't like it at all. But that, in effect, is what he is doing. Sixty-one days' work out of each year is required to pay the cost of government.

The ratio is constantly rising. Carried to the inevitable conclusion, it means that in the not-too distant future, the taxpayers will be working for the tax eaters all the time, and for themselves not at all.

As President Hoover has said, to continue on the tax road we are traveling is to impoverish the nation. In the last 16 years the cost of government has increased nearly 150 per cent.

Bring on the Wrecking Crew.

(From the Oregon Statesman, Salem, Oregon, July 21, 1932.)

The state board of higher education had the chance by one stroke

to end turmoil in higher education in this state, to launch its program of unification with some prospect of its success, and to consolidate back of the board and its program the vast majority of the thinking citizenship of the state.

Now it is announced that the board will go east. Go east indeed! They went east and got a secretary, Dr. Lindsay for \$7500 a year.

The state board has successfully muddled most of its program. One reason advanced for not engaging Dr. Kerr was because previous announcement had been made that the board would not consider an Oregon man.

The board abolished compulsory military training; then restored it. The board forbade autos on the campus and Tuesday virtually reversed its stand by passing the buck.

The purported plan of educational reorganization is an administrative monstrosity. Nowhere in the world will you find a set-up such as the board attempts to force on the institutions in this state.

secretary, and board. The only possible chance the plan of the board would work would be to have a man of the character and capacity of Dr. Kerr to take full charge of the system, a man able to keep presidents and deans in their places and establish order where now is chaos.

If the board had named Dr. Kerr much of the agitation for consolidation of the two universities would have died out; now it will be instantly revived and on much larger scale.

There are twenty-one events on the program, including the bucking contest for the championship of the nation and also carrying with it part of the \$20,000 in cash prizes, relay races, the square race, Indian races, steer bulldogging contest, another championship event, and numerous other interesting contests of the range.

The arena is a constantly moving picture of bucking horses, races and roping from the time the first gun is fired until the last event.

The evenings are made entertaining with Happy Canyon, a realistic revival of the first coming of the white man, their struggle with the Indians and finally their burying of the hatchets of war.

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "O send out thy light and thy truth: let them lead me; let them bring me unto thy holy hill, and to thy tabernacles" (Ps. 43:3).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy:

W. E. Jones, Pastor 10:20 A. M., Communion. 10:30 A. M., Song Service. 10:55 A. M., Sermon by the pastor. Junior church for the little folks. 11:30 A. M., Teaching service. 17:00 P. M., Junior and Senior Christian Endeavor. Mrs. Walte Mead will lead the young people in an outdoor meeting. Special music has been arranged. 8:00 P. M., Preaching service.

Baptist Church Notes.

Next Sunday morning your Baptist pastor will speak the first of a series of sermons on "Biblical Pictures of Christ." In the evening his subject will be, "Blind Sacrifice."

The Sunday school opens at 10:00 o'clock every Sunday morning with a good crew of teachers headed by Mrs. Serell, superintendent. Come and study God's word with us.

PENDELTON WILL PLAY HOST TO CONVENTION DELEGATES.

PENDELTON, Ore., July 25.—Pendleton is making preparations to play host to the largest number of visitors in its history. This is because several thousand members of the American Legion on their way to the convention at Portland will stop off here to witness the Round-Up, September 8, 9 and 10, just previous to the opening of their own convalescence.

The railroads, cooperating with the Round-Up association and the Legion convention committee, have granted stop-over privileges for the delegates who wish to take in the bronco-busting classic of the country. In addition auto caravans are being formed in several neighboring states by the delegates. These will visit the Round-Up before proceeding down the beautiful Columbia river highway into Portland.

Several special events have been added to this year's Round-Up program in honor of the attendance of the veterans.

WHERE GOOD EGGS GET WHAT THEY DESERVE

Every day hundreds of thousands of eggs are delivered by farm patrons to more than 100 Swift & Company produce plants over the United States. Producers are paid cash for all they offer.

In these plants all eggs are carefully graded and packed in cases. Only the best, in size and quality, are destined eventually to go into cartons and be sold under the Brookfield label. Others, perhaps not so large or so even in color, are sorted to get the highest price for their grades.

Under refrigeration and in carload lots Swift & Company ships the eggs to more than 400 branch houses, each the distributing center for a great population. Every retailer customer of every branch house is a possible customer for any eggs that arrive at a produce plant.

In these branch houses the best eggs are packed in cartons with the Brookfield label. Thousands of salesmen daily make their rounds, selling eggs, poultry and butter as they sell meat. That means economy in sales cost. Deliveries are so frequent the eggs reach the consumer in perfect condition just as they were when Swift & Company selected them.

With Swift & Company as a guide, every egg has the chance to make the most of itself. Demand is dug up by the sales force and fostered by product advertising. Costs of service are as low as long experience and great volume can make them. Profits are low—over a period of years our profits from all sources have averaged only a fraction of a cent per pound.
