## FOOTBALL SQUAD STARTS GRUELING PRACTICE MONDAY

FIRST GAME SCHEDULED WITH KENNEWICK SEPT. 23.

Twenty-four Aspirants Turn Out For Practice; A Tentative Schedule Outlined.

With the opening of school Monday Coach Cochran worked out aspirants for the football squad, starting training for the first game with Kennewick September 23.

Twenty-four aspirants for places on the Bulldog eleven include eight of last year's regulars and several of last year's reserves.

This year's schedule contains nine games, six of which will be played at home. Features of the list are the Pilot Rock game, here, Fair day, October 7-8, and the Heppner game, also on the local field, Armistice day.

The schedule for this year is as follows:

- Kennewick, Here, September 23.
- Arlington, Here, September 30 (T)
- Pilot Rock, Here, October 8
- October 14, Open Date.
- Heppner, There, October 21.
- Pendleton, There, November 5.
- Heppner, Here, November 11.
- Ione, Here, November 18 (T)
- Wasco, Here, November 25 (T)

## CHAS. OLSEN INJURED ON WALLUA CUT-OFF ROAD JOB

Chas. Olsen who has been employed on the Wallua cut-off highway was seriously injured Saturday when a rock embankment gave way under him, burying him underneath. He was brought to the Hermiston hospital and it was necessary to amputate his right arm between the shoulder and elbow, Tuesday. His left leg is also badly cut. Mr. Olsen came here from Portland but his nearest relatives live in Wisconsin.

### Will Move to Centralia.

Mr. and Mrs. Peter Norquist and family will leave Sunday, September 11, for Centralia, Wn., where they have traded for a 9-acre farm on the Pacific highway. The trade was made through the United Dairies of Pendleton. Mr. and Mrs. Norquist have lived on the project for the past 21 years and leave many friends here. They are making the change because Mr. Norquist is unable to take care of the irrigated farm. The girls will attend the Rochester school.

## SCHOOL NOTES

Members of the Hermiston grade and high school faculties and school boards will hold a "get acquainted" picnic at Umatilla beach, Friday, September 16.

Enrollment in high school this year totals 120 regular students and five doing post graduate work. Grade school enrollment is 218. High school enrollment is the same as last year, but grade school enrollment has increased 10.

Pupils will be admitted to the first grade whose sixth birthday comes not later than October 31. The date previously set was October 1, but a survey of the primary room shows that students who will be accommodated by the new time limit will completely fill the room.

Sale of adult and student associated student body tickets by members of the high school is now under way. Holders of tickets will be admitted to all high school athletic contests. Wives of business men who hold tickets will also be admitted by this year's ticket which sells for \$1.00.

Plans for publication of "The Bulldog," high school paper, are being carried out. Edith Clarke is editor, and Melvin Follet is business manager.

A committee of three has been appointed by the junior class to select a play for preparation early this year.

## MAN LOSES FINGER AS PASSING CAR SIDESWIPE SEDAN

Albert Anthon of Salt Lake City, Utah, lost the third finger on his left hand Saturday night when a passing car sideswiped his Studebaker sedan while it was parked along the highway one-fourth of a mile east of town.

Mr. and Mrs. Anthon were enroute Portland and had stopped to change drivers. Mr. Anthon had just placed his hand on the door preparing to open it when the car, driven by Gus Byers, manager of the Texaco Oil Co. plant in Pendleton, accompanied by Elmer Pahl, also of that city, collided with the Studebaker. The other car did not stop.

The fender and front door on the Studebaker were stripped off and the two side wheels demolished. An instant later and Mr. Anthon would have stepped from the car and been killed instantly. It was necessary to amputate the shattered finger above the second joint.

B. J. Nation was notified and immediately went to Umatilla where he found the hit-run driver and his car piled in the ditch near the diversion dam. The driver of the car is liable on three charges, hit-run driver, driving while intoxicated, and permanent injury caused by carelessness.

## SCHOOL CLASS ORGANIZATION AND ELECTIONS HELD WED.

Organization of classes and election of class officers took place Wednesday afternoon at 2:45 at the high school. This year Mr. McAtee is Freshman class advisor, Mr. Harger Sophomore advisor, Miss Elliott Junior advisor, and Miss Sibert Senior class advisor.

Class officers elected yesterday are as follows:

Senior class: President, Mary Ward; vice president, Glen Pierson; secretary-treasurer, David Arnott. Junior class: President, Fred Reeves; vice president, Edith Clarke; secretary, Marjorie Shafer; treasurer, Anna Ray Martin.

Sophomore class: President, Jack Dawson; vice president, Fred Rankin; secretary-treasurer, Sylvia Shutter; sergeant-at-arms, Bill Comstock.

Freshman class: President, Jack Pace; vice president, Bill Jackson; secretary-treasurer, Maxine Paul.

## DAIRY OUTPUT LOWER IN AUGUST, SUMMARY SHOWS.

Dairy production in the United States for August was 1.8 per cent under that of the same month a year ago, decreases being shown in practically all manufactured dairy products except evaporated milk, according to a summary prepared by the extension economist at the Oregon State college.

Butter prices for August averaged three cents higher than for July, though compared with a year ago the August price near the end of the month was close to nine cents under that of a year ago. Already in September, however, further advances have occurred along the Pacific coast.

Butter production during August has been irregular with material reduction in volume reported from highly specialized states such as Minnesota and Wisconsin, but this decrease has been largely made up by increases in a great many other states where dairying is not the chief enterprise.

A definite falling off of cheese production has occurred in the country as a whole so far this year, amounting to from 8 to 12 per cent per month. Cheese prices this last month have shown further slight advances. Imports of Swiss cheese have exceeded those of last year, says the summary, though the total cheese imports have been practically the same as last year.

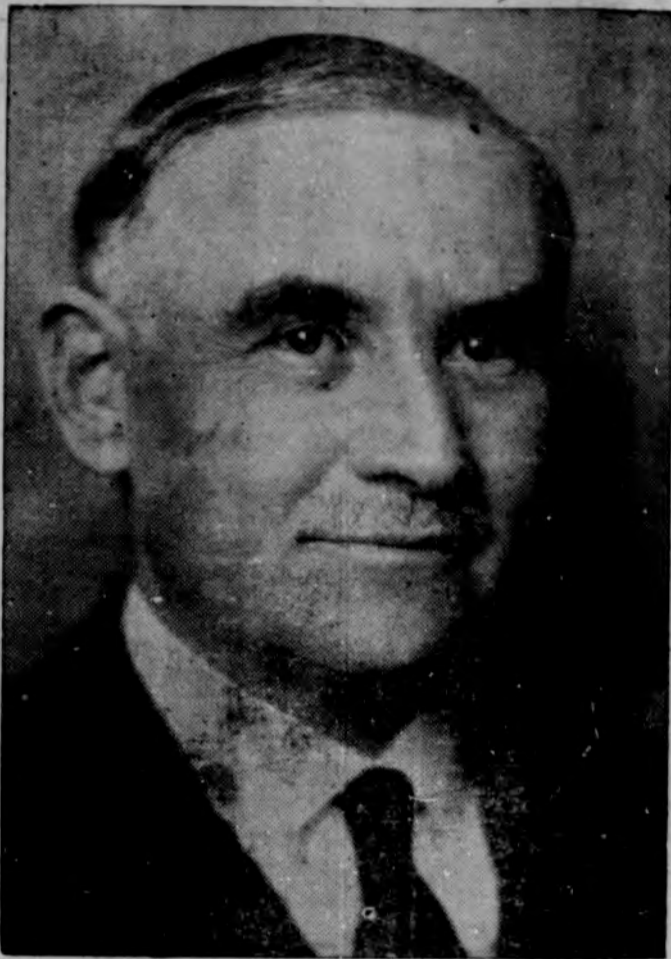

Dairy production was lighter in Europe during the second quarter of 1932 than for the same period a year ago, although slightly heavier in Germany, Switzerland, Sweden and the Netherlands.

## Weather Report.

Date	Max.	Min.
September 1	78	55
September 2	78	39
September 3	86	36
September 4	90	42

September 6	95	54
September 7	93	52

Subscription \$2.00 A Year.

## Chancellor of State Schools.

DR. WILLIAM J. KERR

### Umatilla Woman Dies.

Mrs. L. O. Erwin, of Umatilla, died at St. Anthony's hospital in Pendleton Sunday evening and funeral services were held at Folsom's chapel at 1:00 o'clock Wednesday. Mrs. Erwin is survived by her husband, Louis Erwin; seven sons, Carroll, Leander, Harry, Hilmer, William, Raymond and Everett Erwin, and two daughters, Mrs. Louis Fromdahl of Umatilla and Mrs. Hilmer Fromdahl, of Wolf Point, Montana.

### N. Y. Legionnaire Visits.

Harry B. Goundrey, delegate to the National American Legion convention in Portland, September 12 to 15, from the Dundee Post, New York, is visiting his uncle Geo. Goundrey here. Mr. Goundrey attended the west's greatest show, the Round-Up this week in Pendleton before going on to Portland. Before Mr. Goundrey returns to New York state he will have visited 20 states.

### Car Overtakes Twice.

A car driven by Mrs. John Glascock went over a 75-foot embankment Saturday afternoon turning over twice. Mrs. Glascock escaped injury but the car was badly damaged. The reason for the accident is not definitely known but Mrs. Glascock seemed to lose control of the car. She was enroute to Hermiston from Ione.

### Breaks Record As Farm Owner.

H. I. Propst made a business and pleasure trip to Albany, Ore., over Labor Day and visited his uncle, J. W. Propst, who is 92 years of age and who has lived on the same farm since he was 21 years old. This is probably the longest record ever made by any one man living on the same farm.

### Socialist Party Nominates.

Registered Socialist party members of the second Oregon congressional district held their convention at the home of A. E. McFarland in Umatilla, September 1. I. D. Teal of Icho was placed in nomination for representative from the second congressional district. Mr. Teal was the party nominee for the same office four years ago. He is well, and favorably known in the county and district, and is expected to poll a large vote. This was the only nomination made by the convention.

### Farm Auxiliary Will Elect.

The Ladies Auxiliary to the Farm Bureau will elect officers for the coming year at its next meeting, the second Friday in October. There will be no meeting September 16 or October 7 because of conflicting schedules.

Mary Wilson returned from Seattle Saturday night after spending three weeks there with her aunt.

## TWENTIETH ANNUAL PROJECT FAIR PLANS ADVANCE.

The Umatilla Project Fair which will be held here October 7-8 will be the twentieth annual fair held, and because of the anniversary, efforts will be made to make the occasion as interesting and successful as possible.

The chief exhibits will relate to dairying, poultry and turkey growing but home economic features at the fair are also very interesting. There will be a football game between Hermiston high school and the high school team from either Heppner or Pilot Rock. A horse shoe pitching tournament extending throughout the entire fair will be another feature.

## NEW SCHOOL BUS PURCHASED FOR IRRIGON SCHOOL ROUTE

Batie P. Rand, one of the two successful bidders for the Irrigon school district routes, has purchased a new Ford school bus from the Rhorman Motor company.

Safety, the prime consideration in the transportation of children, is an inherent quality of the new school bus. The laminated safety-glass used in all windows and windshield eliminates the greatest hazard of motor transportation. The tightly-fitted quarter sawed floor is splinter-free. A safety window is fitted in the lower part of the loading door. This permits the driver to make certain that small children not visible through this upper window are in the clear before the door is swung open. This door is also equipped with an opening and safety locking device controlled by the driver. The rigid, steel paneled body affords real protection to passengers.

## LA GRANDE HIGH SCHOOL DAMAGED BY FIRE

LA GRANDE, Ore., Sept. 8.—Loss estimated between \$125,000 and \$150,000 was caused by fire in the La Grande high school building last night. The school, a large two-story brick structure with a full basement housing the gymnasium, locker rooms, offices and some class rooms, was thoroughly gutted on the second floor and some fire damage occurred on the first floor. A large penthouse, used to house the music department, was destroyed.

## Legionnaires Will Visit Portland.

A group of local Legion and Auxiliary members left this morning (Thursday) for Portland to attend the state and national American Legion conventions. Mrs. A. W. Christopherson and Mrs. Lyle Tilden motored down together, Mrs. Tilden going as a delegate from the local unit. Others going included Mr. and Mrs. Peter Castrie, Mrs. and Mrs. J. E. Hallyburton, Mr. and Mrs. O. K. Mudge, and Jim Todd.

## LAGRANDE ATTORNEY NOMINATED INDEPENDENT, CONGRESS

Hugh Brady, well-known attorney of La Grande, was nominated as an independent candidate for congress from the second congressional district Saturday night at a meeting in La Grande. Jess Richards of Stanfield was elected chairman of the meeting.

Mr. Brady's platform follows: 1. Enlargement of the functions of the postal savings bank by providing it with checking and time deposit facilities, and with the power to loan to private banking institutions upon ample security and at a small rate of interest, thus eliminating bank failures.

2. Immediate full payment of veterans' adjusted compensation and retention of all present laws for veteran relief. This payment of the adjusted compensation would bring into Eastern Oregon more than \$5,000,000.00 in cash within the next year.

3. Repeal of the 18th Amendment and the support of legislation that will be a protection from the old evils of the liquor traffic.

4. Development of the Columbia River, and the support of power legislation. This should be along the lines of a tax upon the gross earnings of power companies and adequate regulations.

5. Will introduce the following economy measures:

(a) A 50% reduction of the salaries of all elective and appointive government officials, wherever such salaries are \$10,000.00 per year or more.

(b) Abolition of all unnecessary boards and commissions. (c) Support of all public education by the federal income tax. Nine States of the Union have 80% of the wealth and income of the nation, and to hold and administer this vast wealth those States, their people and business organizations, utilize the minds, largely trained at public expense, of the entire nation.

6. The support of all lumber, farm and livestock legislation that has for its purpose the rehabilitation of these industries, as their rehabilitation would mean general prosperity.

7. Moratorium on grazing fees on the public domain.

8. Inspection and labeling of all American manufactured wool cloth, showing the content of virgin American wool.

9. Will favor old age pension and unemployment insurance legislation

10. Federal regulation of bus lines.

## NATIONALLY KNOWN FIGURE IN W.C.T.U. VISITS HERMISTON

Mrs. Mary B. Ervin of Ohio, national field secretary for the W. C. T. U., was the main speaker at a special meeting in the Methodist church Tuesday night. Mrs. Ervin spoke on the vital questions concerning the political situation, as well as citizenship. She is making a month's speaking tour of the state and was enroute to La Grande.

Last Thursday the local W.C.T.U. met with Mrs. Rena Waterman for its regular meeting at which time delegates to the national convention in Seattle gave their report. Mrs. Harry Warner of Irrigon sang a solo, "Others," which was very appropriate, due to the fact that that is the secret of W.C.T.U. work.

The next meeting will be held at the home of Mrs. R. H. McAtee September 8. Election of officers will be held and plans made for the coming year's work.

## FOREST FACTS

FOREST RADIO—Field experiments in short-wave radio with portable sets are being conducted by the forest service in Oregon and Washington. Seventy-two sets are being used in the tests. Twelve sets are semi-portable radiophone or voice sets weighing 40 pounds each; and 60 portable code sets weighing less than 10 pounds each. The portable code sets are for firemen going to isolated locations. The radiophone set transmits both voice and code with a rated transmitting range of 20 miles code and 10 miles voice. The portable set receives voice and code, but transmits code only. The rated transmitting range is 20 miles. Sets are being tried out on the Umpqua and Chelan national forests, with a view to their widespread adoption as they prove available. Prompt communication is vital in forest fire control, and foresters believe these sets will meet a real need.

## DR. KERR NAMED AS CHANCELLOR OF OREGON SCHOOLS

VETERAN EDUCATOR WILL HEAD SCHOOLS HIGHER EDUCATION.

State Board of Higher Education Elects Kerr by 4 to 5 Vote in Portland Meet.

(From The Oregonian) Dr. William Jasper Kerr, president of Oregon State college, was named chancellor of Oregon's higher education system by the state board of education at its meeting Tuesday at the University club in Portland.

He was chosen after the board had considered a group of nationally known educators for the important post.

Announcement of the selection of Dr. Kerr was made by B. F. Irvine of Portland and F. E. Callister of Albany, board members, who retired for a short time from the room where the board had been meeting; behind locked doors all afternoon. Zook Application Rejected.

The vote of the board on Dr. Kerr was not disclosed in the early announcement, but it was learned that Dr. George Frederick Zook, president of Akron university, was rejected by a vote of 5 to 4.

Dr. Zook visited Oregon recently at the invitation of the board. The discussion on candidates for the chancellorship was "smooth and harmonious" throughout, the board members said.

### Reports Heard by Board.

One of the first things to come before the board of higher education when it started its session at 10:30 A. M. was the matter of reports, and Mrs. Walter M. Pierce pointed out that particular stress should be made toward early completion of a full report from the board to the governor of board activities for the last two years.

"We should get this to him in plenty of time for early publication, that the citizens of Oregon may have ample opportunity before the November election to learn what the board has done and what the educational set-up is," said Mrs. Pierce, with unspoken reference to the Zorn-MacPerson initiative bill that is before the voters in November and which would abolish the university along with the Monmouth, Ashland and La Grande normal schools.

Other members of the board nodded in agreement, with the consequence that a special committee appointed by the chair will prepare a "thorough and comprehensive" document. Reports of President Hall and Kerr of the Eugene and Corvallis educational institutions will be ready soon, it was stated.

Suggestion that the state-owned radio station KOAC might be used to disseminate political information, particularly speeches by candidates during the autumn campaign, was withdrawn after discussion had shown that practically every board member was firmly opposed to the idea. President Kerr took the floor to brand the attempt as "unwise" and "prone to involve the station in all sorts of difficulties." He urged that the non-commercial status of the station be maintained. Mrs. Pierce, whose husband is a candidate for congress, brought a smile when she said: "As the only manager of a candidate who is present, I

(Continued on last page)

## ALONG THE CONCRETE

If someone had sold tickets to all the people who have viewed the American Legion display in the Herald window and the government had added an amusement tax to the same, enough money would have been collected to—but what's the use, no one did.

Arguing politics with some people is like arguing whether or not we should have weather.

All roads lead to Pendleton this week—but it's the same one that leads to the poor house.

It is all right to be late to church on Sunday morning, but what is a fellow going to do when he is late to Grande and forgets the pass word. The doors are closed there.
