Board of Equalization at 10:00
o'clock A. M. Tuesday, October 4,
1932, in the office of the district,
in the Bank of Stanfield Building,
in the City of Stanfield, Umatilla
County, Oregon, for the purpose of
reviewing and correcting its apportion-
ment of taxes, said taxes being for
tolls and charges fixed by the
Board of Directors on September 1,
1931, for the year 1932, being
delinquent and unpaid September 1,
1932.

In the meantime the assessment
list and record will be in the office
of the secretary of the Board, in the
office of the district, in Stanfield,
Umatilla County, Oregon, for the
inspection of all persons interested,
and all persons shall be presumed
to have notice of the time and place
of such meeting whether he receive
actual notice or not.

F. A. BAKER, Secretary.
Stanfield, Oregon,
(Sept. 1-8-15)

NOTICE OF HEARING UPON FINAL REPORT.
In the County Court of the State of
Oregon for Umatilla County.

IN THE MATTER OF THE ESTATE OF CHARLES MACDONALD, DECEASED.

NOTICE IS HEREBY GIVEN that the undersigned administrator with the will annexed of the estate of Charles MacDonald, deceased, has filed his Final Report with the Clerk of the above entitled Court, and that the Judge of said Court has designated Saturday, the 8th day of October, 1932, at 2:00 o'clock in the afternoon as the time, and the rooms of the above entitled Court in the County Court House in Pendleton, Umatilla County, Oregon, as the place when and where hearing is to be had thereon. All persons interested are hereby notified to then and there appear and show cause, if any they have, why said report should not be approved, the administrator discharged, his bondsmen exonerated and the estate closed.

Dated this 8th day of September, 1932.

F. B. SWAYZE,
Administrator.
(Sept. 8-Oct. 6)

NOTICE TO CREDITORS.
In the County Court of the State of
Oregon, for Umatilla County.

IN THE MATTER OF THE ESTATE OF THOMAS WALTER BOTKIN, DECEASED.

NOTICE IS HEREBY GIVEN that the undersigned has been appointed executrix of the last will and testament of Thomas Walter Botkin, deceased, and has qualified as the law directs. All persons having claims against said estate are required to present the same to me at the office of W. J. Warner, my attorney, in Hermiston, Oregon, with proper vouchers, within six months from the date hereof.

Dated this 8th day of September, 1932.

MARTHA V. BOTKIN,
Executrix.
(Sept. 8-Oct. 5)

AMONG NEW BOOKS FOR CHILDREN

THE MASON CHILDREN, by Edith Mason Armstrong. \$1.75 (Rand McNally) - Child life readers already love the stories about this real family of thirteen plucky, amusing, resourceful children and their jolly summers at Lake Delavan. Do you remember their adventures when playing Robin Hood and Robinson Crusoe? Do you remember when they dressed up their lamb in a nightgown? And played with buttered sleds? And trailed down their stolen collie? And bravely rescued Edie from her high perch on the roof? Now you can have these popular stories in book form for your favorite bookshelf!

MAGIC PORTHOLES, by Helen Follet. \$2.50 (Macmillan) - Mothers and daughters will both enjoy this colorful travel story of 14-year-old Barbara Pollett and her mother. They visited the West Indies, Martinique, the picturesque South Sea Islands, among other places—not in the usual fashion that tourists go, but in tramp steamers, cargo boats and schooners. Climbing the crater of a still volcano, exploring sulphur springs, visiting new islands and meeting strange new people, they have one adventure after another that will thrill any reader of whatever age.

BURNING UP THE SKY, by Bob Buck. \$1.75 (G. P. Putnam's) - A seventeen-year-old boy, who has broken junior aviation records, tells of his thrilling adventures. Older boys will like this one!

MOUNTAIN GIRL, by Genevieve Fox. \$2.00 (Little, Brown) - Sally Ann wants to save her ignorant, shiftless Kentucky mountaineer people from their old ways; so she studies hard with the new "fetched-on" teacher and later trains to be a nurse. Older girls will enjoy this simply told romance set against its authentic, colorful background.

ONCE THERE WAS A BIG CROCODILE, by "Margaret". \$1.50 (Macmillan) - Three funny picture stories, about a crocodile, a mouse and two elephants, that will delight the very tiniest children.

PROPERLY COOLED CREAM MAKES SUPERIOR BUTTER.

"I just can't afford to make any improvements in these times," is the statement frequently heard from dairymen — and others—since low prices have made cash scarce. While this is doubtless tragically true in many cases, if a dairymen can get cash or credit for certain improvements he can make a far higher percentage return on the investment at low prices than at high.

Such at least is the conclusion drawn from figures contained in a recent bulletin on "Cream Refrigeration and Quality Butter," just published by the Oregon Experiment station and giving the results of practical tests of butter making from refrigerated cream from three farms over a period of one year.

Reporting on the economic importance to Oregon of quality butter, the authors, F. E. Price, C. J. Hurd and G. H. Wister, give the following comparative figures:

"The difference between the wholesale price of butter of 92 score and 90 score at the present time (Early June, 1932) is only 1.5 to 2 cents per pound. This is equivalent to from 1.86c to 2.48c per pound of butterfat. On a percentage basis, it will be found that when the price of 90-score butter is 16c and that of 92-score butter 17.5c to 18c, the 92-score butter sells at a price from 9.4 per cent to 12.5 per cent above the low scoring butter, whereas when the prices of 90 and 92-score butter are 38c to 40c, (the averages from 1925 to 1931) the 92-score butter sells at a price only 5.57 per cent greater than the lower grade butter.

FOOTBALL SEASON SCHEDULE OUTLINED FOR O. S. C.

OREGON STATE COLLEGE, Corvallis, Sept. 7.—Some 56 candidates for the Oregon State college football team are expected to report for the opening of practice Saturday morning, September 10) Prospects at Oregon State for the coming season depend to a great extent on how new unexperienced men will make up for the loss of 11 lettermen from last year's squad.

The biggest loss to the Orange team is in the line where the regular starting lineup from tackle to tackle is missing. Finding men to fill these vacancies will be the major task confronting the coaching staff in the early days of practice. The backfield has not been hit so hard by graduation. The heaviest loss in this department is the left half where two lettermen are lost to the squad.

Lettermen expected to report for practice are Pierre Bowman, Johnny Biancone, and Hal Moe, half-backs; Vic Curtin, center; Everett Davis, Fred MacDonald and Keith Davis, ends; Wayne Harn, Curly

Miller, and Adolph Schwammel, tackles; Ted Hermann, Art Ramponi and Tommy Ward, quarterbacks; Harold Joslin and Frank Little, full-backs; Herman Leaf and Loren Tuttle, guards.

The Oregon State Schedule.

September 17, Gonzaga at Spokane
September 24, Willamette at Corvallis
October 1, Stanford at Portland
October 8, Southern California at Los Angeles
October 22, Washington State at Corvallis
October 28, West Coast Army at Corvallis
November 5, Oregon at Corvallis
November 12, Montana at Missoula
November 19, Fordham at New York

PROPERLY COOLED CREAM MAKES SUPERIOR BUTTER.

"I just can't afford to make any improvements in these times," is the statement frequently heard from dairymen — and others—since low prices have made cash scarce. While this is doubtless tragically true in many cases, if a dairymen can get cash or credit for certain improvements he can make a far higher percentage return on the investment at low prices than at high.

Such at least is the conclusion drawn from figures contained in a recent bulletin on "Cream Refrigeration and Quality Butter," just published by the Oregon Experiment station and giving the results of practical tests of butter making from refrigerated cream from three farms over a period of one year.

Reporting on the economic importance to Oregon of quality butter, the authors, F. E. Price, C. J. Hurd and G. H. Wister, give the following comparative figures:

"The difference between the wholesale price of butter of 92 score and 90 score at the present time (Early June, 1932) is only 1.5 to 2 cents per pound. This is equivalent to from 1.86c to 2.48c per pound of butterfat. On a percentage basis, it will be found that when the price of 90-score butter is 16c and that of 92-score butter 17.5c to 18c, the 92-score butter sells at a price from 9.4 per cent to 12.5 per cent above the low scoring butter, whereas when the prices of 90 and 92-score butter are 38c to 40c, (the averages from 1925 to 1931) the 92-score butter sells at a price only 5.57 per cent greater than the lower grade butter.

"This emphasizes the advantage of producing the highest grade butter even when prices are low. The difference in price between various grades of butter justifies paying a differential in the price for the different grades of cream."

When farmers can obtain such a differential for sweet cream, farm refrigeration equipment such as is described in this new bulletin will return a profit even at present fairly high installation costs, the report shows, provided, of course, a fair volume of butterfat is produced. Such equipment permits shipment of cream as infrequently as once a week and still have it received at the creamery in excellent sweet-cream condition.

The reason a Scotch bagpiper walks up and down when playing is because it is always harder to hit a moving target.

Such equipment permits shipment of cream as infrequently as once a week and still have it received at the creamery in excellent sweet-cream condition.

The reason a Scotch bagpiper walks up and down when playing is because it is always harder to hit a moving target.

Egg Storage Profitable
ROSEBURG—Construction of two egg storage rooms on their poultry farm at a total cash cost of only \$12.76 resulted in increasing the number of eggs in the extra and standard grades by 7 per cent for J. L. Cabot and Son, of Ten Mile. This percentage increase is not considered exceptional, says County Agent J. C. Leedy who furnished plans for the houses, but in this case it represents the margin of profit at present, according to the owners. About 2000 hens are kept on this farm, producing from 420 to 480 dozen eggs per week, hence an increase of 7 per cent, in top grades is a considerable item.

Prune Borers Being Gassed.
DALLAS—Polk county prune growers have laid down a heavy "gas-attack" against peach and prune root borer this season following a demonstration on the application of "para-di" made by County Agent J. R. Beck and the extension horticulturalist of the college. A dealer in one community reported sales of 800 pounds of the material following the demonstration, one grower, Linn Chapman, getting enough for his entire planting of 80 acres.

A 16-year-old girl was arrested in Chicopee, Mass., charged with manufacturing liquor.
