3,000,000 FAMILIES HELPED BY RED CROSS

Distress in All Areas Met by Giving Food, Clothing and Other Aid.

More than 3,000,000 families throughout the nation were given relief of various types by the American Red Cross in the past winter, to aid them in their distress caused by unemployment, disaster or other misfortune.

A major relief task, due to unemployment and other unusual conditions in the bituminous mining counties in twenty states, was met by the Red Cross chapters alone, or participating with other agencies. In these 143 counties, the Red Cross aided 90,000 families through giving groceries, school lunches, clothing, flour and other necessities to combat privation.

Flour, milled from government wheat turned over to the Red Cross by Congress, was given to 15,000,000 persons in the period from March 8 to June 30, the close of the fiscal year. Flour will continue to be given through the winter of 1932-33, and Red Cross chapters also will give cotton clothing, made from government cotton turned over to the Red Cross for distribution.

The Red Cross faces the busiest winter since the days of the World War. Chairman John Barton Payne said, "It is organized in virtually every one of the 3,972 counties in the United States, and will co-operate with all agencies to meet distress wherever found. The flour has proved of great benefit, and the cotton clothing will be given wide distribution."

While carrying on nation-wide these unemployment and other relief measures, the Red Cross also was engaged in its regular peace-time activities in public health nursing, service to ex-service men and their families, teaching home hygiene, life saving and first aid. The Junior Red Cross, composed of almost 7,000,000 school children, also rallied to the support of the society's relief efforts, and the children aided others of their age in practical ways, formed sewing and food canning classes, and were of great assistance in chapter relief work.

While the wheat and cotton were given by the U. S. Government, no money was provided to pay for the necessary work entailed. The Red Cross will meet this expense of almost \$500,000 from its treasury. Citizens can aid by joining as members of the local Red Cross chapter during the roll call from Armistice Day to Thanksgiving Day.

Clothes for the Needy

Women volunteers sewing for the needy under direction of the Red Cross produced 296,000 garments last year, and will produce millions of garments in the winter of 1932-33. These will be from the millions of yards of cotton cloth distributed by the national Red Cross from the 500,000 bales of cotton turned over to the organization by Congress. Cloth was sent to all chapters requesting it, and later it was proposed to send some simple ready-made garments, including trousers, overalls, underwear, stockings and sox.

Huge Task of Nurses

Red Cross public health nurses, who work in hundreds of communities, are meeting the greatest demands in history for their services, due to the depression. Visits in maternity cases, protecting the health of infants and children, and aiding mothers in distress due to unemployment of the bread-winners have taken them into thousands of homes. The nurses made 1,357,000 visits to or on behalf of individuals, and inspected 949,000 school children. More than 58,000 adults were instructed in home hygiene and care of the sick.

Blind Readers Get Books

Books in braille for reading by the blind are made by women under Red Cross direction. Last year 2,813 such books were produced in single copy and 3,533 in double copies. Fiction, biography, history, economics and school books were among those printed in braille. The Red Cross gives them to libraries for free distribution to blind readers.

Red Cross to Enlist Great Army of Members to Fight Distress

Last year 4,001,459 men and women joined the American Red Cross as members during the annual roll call, Armistice Day to Thanksgiving Day. A peace-time army even greater than this will be needed in 1932-33 to support and carry on the nationwide relief work of the Red Cross. There are 3,639 Red Cross Chapters and they have 10,000 branches.

BOY SCOUTS HOLD DOUBLE COURT OF HONOR FRIDAY

(Continued from page one)
Bank in National Contest.
According to recent reports from Robert Hayes, the local troop has qualified sufficiently to rank along with other troops in the ten year program sponsored by the National Council of Boy Scouts. The purpose of this program is to obtain a demonstrated interest in every troop in increasing its membership over that of 1932 by 25%; in holding 75% of all possible meetings during the year; and in having one-half of the scout membership appear before the court of honor. The qualification will be recognized with the presentation of a seal or an ornamented flag pole.

The efforts of the National Council are striving to hold boys between the ages of 12 to 16 years in the Boy Scout work that they might receive proper training in citizenship.

"Vigorbilt" Volleys

Well, 1933 is just starting, and only a short time until you'll want chicks. It's a good plan to make rooster houses ready, well in advance of delivery date. Then, too, more time is available to present. Don't put it off until the chicks are delivered—And don't get off ordering chicks until the last minute.

Several growers are contemplating increasing their flocks this year. They know poultry is the best bet now, and always will return a profit if handled properly. Eggs may never reach sixty cents, but such a price is unnecessary for a nice profit at present feed prices.

There's room for several thousand more good hens in this section of Umatilla county. There's always a market for good eggs and poultry.

Would like to see a branch of some good marketing organization established here, and such might be possible with a good increase in laying hens.

REMEMBER, we're hatching Leghorns, Rocks, Reds, and other breeds too, this year at prices not too high. Good chicks, too.

We're boosting for the west end of the county, the best in the west for poultry.

Let's have your order for chicks or pullets.

ANSWER TO LAST WEEK'S "YOU'D BE SURPRISED." January 1, 1901 was the day. The year 1900 merely completes the nineteenth century. The reason for this is that we write the number of the year before we have the whole year. Consequently the 19th "hundred years" or the nineteenth century, was not completed until December 31, 1900.

LAUGHING DAYS ARE HERE AGAIN!

"Once In a Lifetime", the screen offering at the Oasis theatre Friday, Saturday and Sunday, furnishes many laughs at the expense of the movie industry. This broad satire on Hollywood, based on the Broadway stage hit by the same name, is a modern comedy of errors, most of which are committed by Jack Oakie. The story relates the experiences of a trio of vaudeville performers who find themselves out of a job in a small-time theatre and decide to go to Hollywood to open a school of elocution. How they succeed in their efforts provides the fun.

No phase of the movie industry escapes having fun poked at it, not even the reviewers for the newspapers. Mr. Oakie shares the comedy honors with Zasu Pitts, Louise Fazenda, Gregory Ratoff, Sidney Fox and Aline Mac Mahon. Short subjects on this same program are an amusing Mickey McGuire comedy and a Mickey Mouse cartoon.

Editorials denouncing the evils of legalized liquor before prohibition came, in newspapers that are wet now, make interesting reading. Here is one published July 11, 1917, in the Chicago Tribune, often referred to as the "world's wettest newspaper":
"If the secret records of the brewing and distilling industry were ever brought to light they would tell a story of social and political corruption unequalled in the annals of our history. If the veritable narrative of the American saloon were ever written it would make the decadence of Rome look like an age of pristine purity in comparison."
"The liquor business has been the faithful ally of every vicious element in American life; it has protected criminals, it has fostered the social evil, and it has bribed politicians, juries and legislatures."
"The inherent corruption has extended even to the so-called decent saloon. There are few that do not serve adulterated products and it is an unusual proprietor that is not more pleased when his patrons are getting drunk than when they keep sober. Philip Drunk stays longer and spends more money than Philip Sober. That is one reason why the saloon would rather sell ardent spirits than beer; they are more intoxicating."
"The smallest count in the indictment against the evil barroom is its persistent evasion of the law. We are not surprised to read that numerous Cook county roadhouses are operating without licenses that they keep open on Sunday, or that they seem to exercise a mysterious control over public officials. Yet these are only minor offenses in the calendar of saloon iniquities."
"It is for these reasons that the prohibition movement has gained such strength. The demand for the abolition of the liquor traffic is the expression of a ripening conviction that it is conducted by nefarious means for nefarious ends."
