Put It Through. If W. R. Ronald is correct in his explanation of the farm bill it is a wonderful measure and should be enacted promptly.

Harold Perkins of Darlington, Eng., takes his invalid wife for hikes in a wheel-chair, sometimes covering 30 miles a day, sleeping wherever night catches them.

In recent years, it came from the element that was in the saddle during Mr. Hoover's regime and destroyed not only the prospects of agriculture but drove the whole nation to the verge of economic collapse.

If we want hard times and unemployment to continue indefinitely and unabated the thing to do is to defeat the farm bill and other reforms. If we desire a return to prosperous times the thing to do is to set the stage for proper farm prices.

Those who fight the farm bill but there is nothing to their claims. They object to a return of pre-war prices because they profit by the present extremely low prices.

That contention is ridiculous and may be ignored.

President Roosevelt will make no mistake in keeping the promise he made to agriculture. His predecessor listening to the processors did not keep the promise of economic equality contained in the republican platform of 1928 and the results were unfortunate.

CHRISTIAN SCIENCE CHURCHES. "Matter" was the subject of the Lesson - Sermon in all Churches of Christ, Scientist, on Sunday, March 19.

The Golden Text was, "O Lord our God, other lords beside thee have had dominion over us: but by thee only will we make mention of thy name" (Isa. 25:12).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "But the Lord is the true God, he is the living God, and an everlasting King; at his wrath the earth shall tremble, and the nations shall not be able to abide his indignation" (Jer. 10:10).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures", by Mary Baker Eddy: "Divine Science deals its chief blow at the supposed material foundations of life and intelligence. It deems identity. A belief in other gods, other creators, and other creations must go down before Christian Science. Matter does not express Spirit. God is infinite omnipresent Spirit. If Spirit is all and is everywhere, what and where is matter?" (p. 55, 225).
