**Mother's Day.**

On May 11, 1912, Mother's Day was celebrated all over this broad land and will hereafter be celebrated with as much regularity as Christmas. The white carnation was chosen as the memory flower because it grows everywhere and its whiteness symbolizes the purity of a mother's love, its endurance, her fidelity.

We have long erected public monuments to our great men but have seldom dropped even a flower on the resting place of the noble mothers who raised the gifted men, and to whom most of the credit for the greatness belongs.

So it is fitting that we set apart Mother's Day, May 14th, for the purpose of at least thinking of our mothers.

**Cooperatives Must Cooperate.**

In a recent address, C. O. Moser, Vice President of the American Cotton Cooperative Association, pointed out that farm organizations must cooperate among themselves if they are to obtain the best possible results. He said: "It should be borne in mind that perhaps no single plan or particular device can be applied to every type of agriculture with the same result, but, on the other hand, it should be far simpler to find a special device that will be particularly applicable to the problems of any given industry. When the various types of farm organizations learn to work together, as they are now beginning to work, each group will be eager to support such legislation as will be most beneficial to the other group."

The success of any individual farm organization depends on cooperation among the producers of its territory. Without this connected kind of support, it is powerless. On the larger scale, success depends on cooperation among the cooperatives themselves. There is no room in agriculture for internal bickering and sectional selfishness. A policy of enlightened self-interest

—which means the interest of all concerned—must prevail. The next ten years will be vital to agriculture. During them there will be established a sound foundation, or there will be chaos. The cooperative movement will make or break. It behooves every farmer, and every farm association, to work together now.

**Proposed Sales Tax.**

There have been a great many inquiries about the contents of the proposed sales tax bill which will be referred to the people of the State of Oregon July 21, 1933. We are publishing the bill as proposed by the state legislature which will appear from week to week until the complete bill has been printed. Comment will be made later.

**OREGON LAWS, 1933.**

**CHAPTER 400  
AN ACT**

(Continued from last week.)

(c) No injunction shall be awarded by any court or judge to restrain the collection of taxes imposed by this act or to restrain the enforcement of this act.

Section 13. If any tax imposed by this act, or portion of such tax, is not paid within 30 days after the same becomes due, the tax commission shall issue a warrant under its hand and official seal directed to the sheriff of any county of the state commanding him to levy upon and sell the real and personal property of the taxpayer found within his county for the payment of the amount thereof, with the added penalties, interest and the costs of executing the warrant, and to return such warrant to the commission and pay to it the money collected by virtue thereof by a time to be therein specified, not less than 60 days from the date of the warrant. The sheriff shall, within five days after the receipt of his county a copy thereof, in the judgment docket in the column for judgment debtors the name and thereupon the clerk shall enter of the taxpayer mentioned in the warrant and in appropriate columns the amount of the tax or portion thereof and penalties for which the warrant is issued and the date when such copy is filed and thereupon the amount of such warrant so docketed shall become a lien upon the title to any interest in real property or personal property of the taxpayer against whom it is issued in the same manner as a judgment duly docketed in the office of such clerk. The said sheriff shall thereupon proceed upon the same in all respects, with like effect and in the same manner prescribed by law in respect to execution issued against property upon judgment of a court of records, and shall be entitled to the same fees for his services in executing the warrant, to be collected in the same manner. In the discretion of the tax commission a warrant of like terms, force and effect may be issued and enforced by any agent authorized to collect taxes imposed by this act, and in the execution thereof such agent shall have all the powers conferred by law upon sheriffs, but shall be entitled to no fee or compensation in excess of actual expenses paid in

the performance of such duty. If a warrant be returned not satisfied in full, the commission shall have the same remedies to enforce the claim for taxes against the taxpayer as if the people of the state had recovered judgment against the taxpayer for the amount of the tax.  
(Continued next week)

Devotional service led by the Rev. Brown, Basket dinner at the church.  
Devotional service again at 2:30, led by the pastor. Music led by Miss Pope.

**CHRISTIAN SCIENCE CHURCHES**

"A dam and Fallen Man" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, May 7.

The Golden Text was, "O Israel, return unto the Lord thy God; for thou hast fallen by thine iniquity" (Hosea 14:1).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "There is therefore now no condemnation to them which are in Christ Jesus, who walk not after the flesh, but after the Spirit" (Rom. 8:1).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures", by Mary Baker Eddy: "Through discernment of the spiritual opposite of materiality, even the way through Christ, Truth, man will reopen with the key of divine Science the gates of Paradise which human beliefs have closed, and will find himself unfallen, upright, pure, and free, not needing to consult almanacs for the probabilities either of his life or of the weather, not needing to study brainology to learn how much of a man he is" (p. 171).

**BOARDMAN NEWS**

By Mrs. Dan Raasler

Jack Graham returned Tuesday evening from Portland, going down on business.

Mr. and Mrs. Harvey Huff stopped on the project from Hood River, going to Hermiston to visit Mrs. Huff's parents, Mr. and Mrs. Klages.

Roy Chandler and John Brick made a business trip to Heppner Tuesday.

The P. T. A. held their last meeting for the year Tuesday evening. After a short program and business meeting, a reception was held for the teachers. Refreshments of sandwiches, jello, cookies and coffee were served.
