Conservation and Patriotism.

The president's emergency conservation work is a great patriotic movement. It is designed to conserve two of the factors of our national greatness—young manhood, and our forest resources.

Here in the Pacific northwest the work of conservation corps is directed primarily toward the development of forest fire protection improvements. It is recognized by foresters that if fire can be kept out of our mountains, one of the greatest problems of forestry is solved.

Many of our citizens have visited the great evergreen out-of-doors during the Fourth of July holidays. This year, more than ever before, it is important that no careless fires be set by holiday merry-makers. There are many of the conservation camps scattered through the woods. Fire sweeping up a canyon might endanger the lives of the men. One big forest fire would undo all the good that several of these camps could accomplish this summer.

Now is the time to practice the patriotism of conservation. Back up the good work that our President has started. When in the forest, be sure to put out every match, every cigarette, ever last vestige of the campfire. That is good, patriotic, American conservation.

More About Drivers' License.

Nearly 300,000 drivers are yet to be licensed before September 1st and every possible arrangement to expedite the issuance of the permits is being made, according to word just received from Hal E. Hoss, Secretary of State. During the past few days each county sheriff and each state police officer has been supplied with application blanks, making new sources of supply for the required forms. Applicants may now contact these officials as well as travelling examiners or writing to the Salem office to obtain application blanks.

"For the motorist's own convenience in getting his new driver's license, I recommend early action," Mr. Hoss declares. "Because there are so many persons to be relicensed during the short time between now and September 1st, prompt and efficient service can be given only if applicants file at an early date," the Secretary points out.

Examinations are dispensed with in most cases, under the new law.

Only those who are 70 years or more of age, those who have driving records that might indicate defects in operation, and those who are not normal physically or mentally are required to submit to the examinations.

Applicants desiring to renew their licenses before September 1 should first obtain an application blank, fill it out, sign it in the presence of a notary public or other person qualified to administer an oath, and finally either hand it to a travelling examiner or mail it directly to the Secretary of State with the fee.

Requirements Completed.

The state of Washington has shown great initiative in working out a preliminary program to make sure that the federal government will finance construction for the \$50,000,000 Grand Coulee dam on the Columbia river development. The state has centered its activities on the one dam site and recently voted a \$10,000,000 state bond issue to finance the required preliminary work necessary to convince President Roosevelt and the administration of the state's good faith.

In attempting to encourage and further the development of the Columbia river in Oregon the efforts have been sectional rather than a united force, such as has been displayed by our sister state. Until co-operation is in evidence nothing definite will be accomplished.

The development of the Columbia would not only bring cheap power to the people of Oregon, Washington, and Idaho, but should furnish navigation and reclamation features. The wheat farmers in the Pacific northwest need cheap freight to encourage the growing of many more crops which are produced at a loss under the present freight rates.

Senator C. C. Dill of Washington secured the delegation at a meeting held at Olympia last Thursday, that President Roosevelt has committed himself definitely to the Grand Coulee project." He also said that construction was assured since the state had complied with the outlined basis upon which construction could be started, by furnishing "ances to take care of all preliminary engineering work to be performed by the federal government, at state expense."

The state of Washington has taken every logical step to pave the way for the construction of the "Grand Coulee project and is now waiting for the next step in the program which will be authorization from the federal government to finance the dam under the provisions of the industrial recovery bill.

May Oregon observe the result of such united effort.

CHURCH NOTES

HERMISTON UNION CHURCH
 W. E. Jones, Pastor.
 10:15 A. M., Communion.
 10:25 A. M., Song service and announcements.
 10:50 A. M., Sermon subject, "How We Received Our New Testament."
 11:25 A. M., Study period.
 12:15 A. M., Regular monthly business period.
 7:00 P. M., Junior and Senior Christian Endeavor. The young people will hold a business meeting Friday night.
 8:00 P. M., Church service, sermon subject "How We Received Our New Testament—Continued."

CHRISTIAN SCIENCE CHURCHES

"God" was the subject of the Lesson - Sermon in all Churches of Christ, Scientist, on Sunday, July 2.

The Golden Text was, "The Lord shall reign for ever and ever" (Ex. 15:18).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Let us hear the conclusion of the whole matter: Fear God, and keep his commandments; for this is the whole duty of man" (Ecc. 12:13).

The Lesson-Sermon also included the following correlative passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Good demands of man every hour, in which to work out the problem of being. Consecration to good does not lessen man's dependence on God, but heightens it. Neither does consecration diminish man's obligations to God, but shows the paramount necessity of meeting them. Christian Science takes naught from the perfection of God, but it ascribes to Him the entire glory" (p. 261).

BOARDMAN NEWS

By Mrs. Dan Ransier

Mrs. Paul Hatch and baby son has returned from the hospital in Hermiston.

Mrs. Donnelly of Freewater is visiting her sister Mrs. Robert Wilson.

Visitors in Hermiston Wednesday were Mrs. Fred Blayden, Mrs. Shell, Mrs. Guy Barlow and Mrs. Nick Healy.

Jack Gorham is enjoying a visit with his brother and two daughters from Council Bluffs, Iowa. They arrived Friday.

Mr. and Mrs. Bill LaLonde and Weldon Ayers left Thursday for The Dalles to work in the cherry picking.

Mr. and Mrs. Clyde Carrick left Sunday for Zella, Wn., to spend the Fourth.

Miss Janet Gorham returned Sunday from Pasco, Wn., where she visited Irene Cox.

George Wicklander, Jr., left Monday for The Dalles.

Bob Mitchell went to Arlington Friday.

Mr. and Mrs. Glen Macken made a trip to Portland and returned with a new truck Saturday.

Mrs. Dan Ransier is on the sick list.

Mrs. Bell spent Saturday and Sunday visiting at the Dishrow home.

Frank Marlow and twins and Mrs. Otto Stoll and son, Thurman and Mrs. Dan Ransier motored to The Dalles Sunday to visit Mrs. Frank Marlow in the hospital there.

Sibily Grace Macomber is visiting in Pilot Rock.

Mrs. Della Harnidin left Saturday to spend the fourth in La Grande.

Glen Hadley has returned from Montana where he went to shear sheep.

Mr. and Mrs. Leo Root have purchased a new Chevrolet car.

Dolbert Johnson left Wednesday for Wasco where he plans to work.

Mr. and Mrs. Elis Knight at Yakima are visiting at the Charles

Nickerson home.

Mr. and Mrs. Ed Barlow and Mrs. Leo Root left Saturday for Corvallis where they expect to visit Mr. and Mrs. Mefford.

Mr. and Mrs. Tom Delano and son shopped in Hermiston Wednesday. Elmer Westervelt is spending the week end at W. Wilbanks home.

Again we have been called to pay our last respect to one of our neighbors and friend, Grandpa Nickerson, as he was known to all. Burial service was held in the community church Tuesday afternoon at 2:00 o'clock. Rev. Miller officiated. A quartet composed of Mr. Barlow, Marvin Ransier, Mrs. Serviss and Margaret Smith sang. Burial was in the local cemetery.

Robert Adam Nickerson was born in Missouri on April 25, being 77 years, one month and 29 days old, he passed away June 25, 1933, leaving his widow and following children: Julia Heath of King Hill, Ida; Ethel Nethercott of Martenez, Cal.; Robert of Pendleton and Charlie of Boardman; and 21 grandchildren and 5 great grandchildren.

Pomona Grange was held Saturday, July 1st, in the school house at Boardman. About 150 people were entertained at noon to a beautiful dinner served by the H. E. club. The program in the afternoon was a talk by R. G. Penney of Stanfield and Mr. Turner of Heppner spoke on the new truck bill. Drill by Juvenile Grange was also given. Mr. Maris was unable to attend so Dr. Chamberlain of the O.S.C. was sent to take his place. His address was "Stop Getting Childish" and was well enjoyed by all. In the evening Boardman Grange put on the floor work for the fifth degree of which nine were given it. Dancing was enjoyed until a late hour.

Dr. Wilcutt of Hermiston was at the hotel Thursday where he received patients. He plans on coming to Boardman on Thursday of each week.

Chas. Hango, Mrs. Carrick and Mrs. Wilbanks spent Thursday in Hermiston.

UMATILLA NEWS

By Louise Byrnes

J. B. Springer accompanied by Mr. and Mrs. Ralph Davis motored to Pendleton last Wednesday.

Miss Muriel Byrnes returned home Saturday from a two weeks visit with Mr. and Mrs. LeVaughn Blett in Pendleton.

Mrs. John Wurster and children Annie, Sarah and May motored to Pendleton Friday where they met Miss Juliana Pope who has been attending summer school at Cheney, Wn. Miss Pope accompanied them to Umatilla where she spent the week end among friends.

Miss Lorine Lash spent Wednesday shopping in Pendleton.

Mrs. Ralph Davis spent Saturday in Portland.

Mrs. Kenneth Trumbull visited with friends in Spokane, Wn., Friday.

Mrs. Jack Cherry accompanied by Mrs. Ben Spencer, Mrs. Pearl Hat and son Allan, and Mrs. Harry Erwin motored to Pendleton Thursday.

Mrs. Nora Berwick and Jack Smith were Pendleton visitors one day last week.

T. S. Tillson returned from a visit with his son Cloyd at Huntington.

Devee Brown, scout leader, and several of the Boy Scouts are spending two weeks at Camp Rotary located on the Walla Walla river near Jilton.

Mrs. June Spinning and son Gale of Portland visited at the Spinning anch Saturday. Gale remained here for a short visit and Mrs. Spinning went on to Pilot Rock.

Miss Lorine Lash went to Freewater Monday to spend the Fourth.

Mrs. James Byrnes and daughters Mr. and Mrs. Paul Walsh and daughter Verna Dale and Don Isom spent Thursday with Mr. and Mrs. A. W. Byrnes in Touchet, Wn. Mr. Byrnes and daughter Erma remained for a few days' visit.

A class was confirmed Tuesday in Hermiston by Bishop McGrath of Baker who was assisted by Father O'Connor, pastor of the Hermiston catholic church.

Among the children who attended the two week's session of summer school at St. Joseph's Academy in Pendleton were Agnes, Catherine and Mary Margaret Kendler, Jimmy Jaron, Joe and Patsey Cooney, Ann Mary Sherlock, and Blanche and Ohmy Pound.

Earl Cherry, who is attending the Oregon School of Technology in Portland, spent the week end with his mother, Mrs. Jack Cherry, and returned Wednesday to resume his work.

Don Harryman and Francis Stephens are working in a mine in Baker, Oregon.

Mrs. Fred Knudson returned home Tuesday afternoon from a few days' visit with Mr. and Mrs. John Burley in Roseburg.

E. S. Rudy of Ukiah visited Mrs. Rudy and daughter last week.

Mr. and Mrs. W. S. Conlon and daughter Alicia motored to Arlington Sunday where they met Art Bonsquet who is working in Condon, and enjoyed a picnic on the Columbia river. Mrs. Bousquet and daughter Alicia and Miss Conlon went on to Condon where they spent the Fourth, returning Wednesday.

Irene and Gladys Fromdahl, Dorothy Mattice, and Norman Allen motored to Tollgate Tuesday where they spent the day.

Ernest Tippet left Sunday for a few days visit with Dan Foord in The Dalles.

Mr. and Mrs. Clinton Harvey and son George and Mrs. Nora Benwick and sons Arthur and Jimmy spent the Fourth at Heppner.

Mr. and Mrs. Geo. Butterwood and Minnie Ellen Harvey motored to Walla Walla Tuesday.

Mr. and Mrs. Geo. Kendler motored to Walla Walla, Wn., Tuesday, where they spent the day.

Mr. and Mrs. Ben Judy and children spent the Fourth at the grove in Plymouth, Wn.

POULTRY

CALENDAR TO KEEP TAB ON EGG YIELD

Complete Record of Production Is Object.

Higher quality, which would heighten the \$30,000,000 value of Illinois' egg crop, will be brought home to flock owners every month of the coming year by means of the new 1933 poultry calendar issued by the extension service of the College of Agriculture, University of Illinois.

A different phase of quality egg production, such as feeding for egg quality and care of eggs during warm weather, will be put before flock owners each month by means of the calendar.

Eggs are being bought on grade in a number of places in Illinois, and the information contained in the calendar should be of help to farm flock owners in getting the premium price paid for top grade eggs, it was pointed out by H. H. Alp, poultry extension specialist, who designed the calendar.

In addition to being an aid to quality egg production, the calendar is a serviceable device designed to help flock owners in more accurate record keeping. By means of it the poultry raiser can tell from day to day, week to week and month to month just where he stands. Without some such device as the calendar, many flock owners would not keep the records so necessary as guides to better methods, Alp said.

The calendar is so arranged that under each date there are spaces to record the number of eggs, the income and the expense for that day. Spaces also are provided for recording the weekly totals as well as the monthly totals.

Art in Selecting Eggs for the Hatching Season

A warning to poultrymen, urging greater care in the selection of eggs for hatching, was recently issued by A. C. Smith, chief of the poultry division of the department of agriculture, University of Minnesota. In this warning Mr. Smith laid down certain rules to be observed, which are timely now because the hatching season is rapidly approaching. Mr. Smith's rules for the selection of eggs for hatching are summarized as follows:

Eggs weighing less than two ounces, tinted white, cracked, or dirty eggs, and eggs which have been held over one week, should not be set; if brown eggs are used, they should match as nearly as possible in color.

Two reasons are given for these rules. Those as to weight and color look to the production of eggs such as the market pays most for, and those as to cracked and dirty eggs have to do with hatchability.

Mr. Smith insists, also, that eggs for hatching must not be chilled and during freezing weather should be collected hourly; that for keeping eggs, pending setting, temperature should be below 65 degrees, and, better still, between 50 and 60 degrees.

Fright Harms Pullets

The taming and companionship of the pullets is best accomplished by the frequent inspection of the pullets the first few weeks after they are transferred to the laying house. Inspection in itself may mean only time wasted. What really counts is how and what is done. Too often a caretaker goes bursting right into the laying house without giving any warning. That is the first thing to avoid. If the pullets are to be protected against needless fright some sort of warning (the same each time) should always be given before entering the pen. A light knock on the door or a thumb door latch can generally be made to give the desired warning. Then wait a few moments before opening the door and you will find all the birds standing at your attention awaiting and welcoming your expected entrance without any thought of fright. Emphasizing this simple precaution with such detail may seem needless although its importance is unquestionable.—Farm Journal.

Sanitation Plan Pays

In Woody county, Wisconsin, 123 club members followed the poultry sanitation program during 1932. The points of this program are: 1, buy healthy chicks; 2, keep houses clean; 3, supply clean range; 4, use complete ration; 5, keep all feed clean; 6, clean equipment. As a result, the healthy chicks raised on clean ground made an average weight of three pounds compared to one and a half pounds average weight for those raised on infected ground.—Hoard's Dairyman.

To Heat Poultry House

If you wish to experiment with heating a poultry house at little expense, try using a large-size coal-burning brooder stove with a metal jacket around the stove to keep the hens and straw little away from the fire. When using a stove in a large poultry house, remember that the chances of a heavy loss by fire are greater than in a small colony house. A stove in a laying house need not be burned all the time to keep the hens warm.—Indiana Farmer's Guide.

Carillon Tower

Are You Going to the World's Fair?

Whether you're going to the World's Fair, to the Lakes, Mountains, or get the old car out and tour until the wanderlust leads your trail back home—you'll need funds.

Alfalfa Seeded Early Does Well.

HILLSBORO—The practicability of seeding alfalfa early in the Willamette valley on land that is comparatively free of weeds has been proved in several instances in Washington county this year, reports Wm. F. Cyrus, county agent. One or two fields seeded early in April are doing well regardless of the cold, rainy weather. On land that is known to be weedy Cyrus advises working the land down to a firm seed bed and then sowing with a drill after most of the weeds have been controlled.

When police, summoned by neighbors of Clarence Gower of St. Louis found Nelson Dannewetz asleep in the Gower home, Dannewetz told them that he robbed the house, became sleepy, and went to bed.

Farm Tractor With Air Balloons Makes New Record

Frank Risiko, noted racing driver at wheel of tractor with which he set an official world speed record of 35.4 m.p.h. for five miles. The other helmeted racing driver is Chet Gardner, and beside the big tire are Bill Cummins, left and Shorty Cantlon, right—all famous race drivers. Behind the driver is Albert Schroeder, farmer who gave a plowing demonstration with this Firestone air-tired Allis-Chalmers tractor. At the left is the \$35,000 F.W.D. racing car Risiko drove after the tractor run.
