Farmers Help Themselves.

In his speech to Congress, President Roosevelt repeated a belief that is a basic element in his recovery program when he said: "I continue in my conviction that industrial progress and prosperity can only be attained by bringing the purchasing power of that portion of our population which in one form or another is dependent upon agriculture, up to a level which will restore a proper balance between every section of the country and every form of work."

Whether or not time proves that theory to be entirely correct, it remains a recognized fact that the advancement in agricultural improvement must be laid to the work done by the farmers themselves, through their cooperative organizations.

These organizations have been tireless in working to educate both the general public and their members in the fundamentals of farm problems. Our local community is known throughout the Pacific Northwest for its success in cooperative ventures. These organizations have been a means of fighting the farmer's battles with the middleman, and in obtaining a better economic break for him.

As long as this aim remains uppermost in the minds of the farmer there will be no dissension and doubt as to the policies of their own organization, but whenever the principles of cooperation are not followed—propaganda stirs discontent—and it is the beginning of the end of usefulness for the cooperative organization.

Statistics show that farming communities which prosper are usually supported by farmers who are receiving the best price for their product under the proper direction, enabling them to maintain a higher standard of living.

This all brings us back again to the thought that if agriculture is to continue to move upward toward the level the President speaks of, the efforts of the farmers themselves will be largely responsible.

Effective Organization.

The report given by E. P. Dodd at the commercial club meeting Tuesday night carried a complete resume of the work done on the proposed Columbia river development up to the eve of a meeting to be held in Walla Walla Saturday when an Inland Empire Waterways association will be formed to promote the interests of the people of the Inland Empire.

This association will not only promote river development but will carry on any project that will benefit the people of the interior and further their interests. Every community should send delegates to this meeting to affect proper organization. Many public spirited people have dreamed of such an organization in the Inland Empire and now the time has come for that dream to

CATCH COLD EASILY?

Mrs. E. H. Amos of 2011 E. D. St. Tacoma, Wash., says: "At one time I was run down and suffered from a severe cold that settled in my chest and bronchial tubes. I used Dr. Pierce's Golden Medical Discovery and it built me up so that I felt 100%." Write Dr. Pierce's Clinic, Buffalo, N. Y., for free medical advice.

be realized. The forming of this waterways federation does not benefit any one section but will give to the people of the Inland Empire the power and leadership required to protest their interest and obtain a proper reduction in freight rates.

A partial report will be prepared and given at the next P. T. A. meeting by the committee looking into the possibilities of constructing a swimming pool.

CHRISTIAN SCIENCE CHURCHES

"Spirit" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, February 11.

The Golden Text was, "The fruit of the Spirit is in all goodness and righteousness and truth" (Eph. 5:9). Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Bless the Lord, O my soul, and forget not all his benefits: Who forgiveth all thine iniquities; who healeth all thy diseases" (Ps. 103:2, 3).

The Lesson-Sermon also included the following corrective passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Our beliefs about a Supreme Being contradict the practice growing out of them... We admit that God has almighty power, is 'a very present help in trouble,' and yet we rely on a drug or hypnotism to heal disease, as if senseless matter or erring mortal mind had more power than omnipotent Spirit" (p. 202).

CWA EDUCATIONAL WORK NOW AVAILABLE.

Many communities have formed classes of various kinds for adults and have given unemployed teachers work. The salary, which is about \$48 per month, is paid from CWA funds.

Authorities in charge of this work are stressing the fact that the intention is to furnish employment for needy teachers who are certified. Should there be such teachers in this community they should confer with some member of the following committee: R. H. McAtee, R. A. Brownson, and Logan Todd.

O.S.C. LABORATORIES TO AID ECNEVILLE BUILDERS.

CORVALLIS—Use of engineering laboratories at Oregon State college for determining final design of certain construction of the Bonneville dam has been arranged between the army engineers in charge and the institution. Research in design of draft tubes and outlet passages of hydro-electric installations carried on by C. A. Mockmore, head of the civil engineering department, attracted the attention of the government engineers, leading to the arrangement.

Design of these parts of a power plant installation is not yet an exact science, staff members of the engineering school explain, hence the plan is to construct transparent models in the laboratory here and view the actual action of the water when passing through them. Changes will be made until the most suitable design is reached.

In addition to affording valuable experience with this important practical problem for the school of engineering, the project will also provide considerable employment for advance students in civil engineering between now and June 1, all such extra expense being borne by those in charge of the dam construction.

PINE CITY NEWS

By Oleta Neill

The following is the program outline that will be presented by the "Merry Troupers" from Hermiston, at Alpine February 23: Rubie and Dade, a bit of vodvil; Music; Play, "Squaring it with the Boss"; Reading, Zelle French; Reading, Alma Dyer; Music; Play, "The Kleptomaniac."

"Squaring it with the Boss." Jimmy Greening, a young business man, decides that he must have a raise in salary. He tells his boss, Mr. Dunne, that they have a new baby and they can't live on his present salary. The boss being a firm believer in families, gives young Greening the raise. All goes well until the boss phones that he will call at Jimmy's home. Jimmy suddenly remembers his fib about the baby and becomes worried. He decides to borrow one for the evening. See how Jimmy manages throughout the evening.

"The Kleptomaniac" Perry Burton is an interesting but rather irresponsible matron. She has great difficulty in keeping track of her illusive possessions. She lost track of her purse at a recital. She is sure her pocket is picked. Her friends joined with her in trying to locate her purse. You'll enjoy Perry and her friends and you might help find her purse.

W.C.T.U. REGIONAL CONFERENCE IN PORTLAND FEBRUARY 21.

On Wednesday, February 21, the temperance forces of Oregon will participate in an important Regional Conference at Portland, under the sponsorship of the Woman's Temperance Union of Oregon, of which Mrs. Ada Jolley is president.

This conference is one of a series of thirty regional, inter-state councils, which are being held from coast to coast during the first ninety days of 1934 for the purpose of launching a new militant program of popular study and education on every phase of the alcohol problem.

The council will have as its guest of honor, Mrs. Margaret C. Munns, of Evanston, Illinois, treasurer of the National and World's W.C.T.U., an outstanding woman leader and speaker on this question. Mrs. Munns will be present throughout the conference and will deliver the principal address Friday evening on the subject, "The 1934 Code for Alcohol Education."

As a defense to a charge of theft, Thomas Moring of Chicago pleaded that he "had five children and a nasty-tempered wife to keep."
