Water Fowls or Magpies!

A campaign will be inaugurated Friday night against one of the worst enemies in wild life the farmer knows—the magpie and crow.

In this locality the main nesting place for these birds is at the diversion dam near Umatilla, and at the Cold Springs reservoir, and that too is the nesting place for the wild water fowl which furnishes easy prey for the magpie who thrives by stealing the eggs from the water fowls' nests, preventing propagation.

We urge everyone who wishes to join in these services in remembrance of this sacred Easter season. All those who are taking part in the Easter drama will meet at the church Friday evening to practice.

CHRISTIAN SCIENCE CHURCHES

"Substance" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, March 18.

The Lesson-Sermon consisted of citations from the authorized version of the Bible, and correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, including the following:

"All thy works shall praise thee, O Lord; and thy saints shall bless thee. Thy kingdom is an everlasting kingdom, and thy dominion endureth throughout all generations." (Ps. 145:10, 13).

"In the vast forever, in the Science and truth of being, the only facts are Spirit and its innumerable creations. . . . We admit that black is not a color, because it reflects no light. So evil should be denied identity or power, because it has none of the divine hues. . . . When the substance of Spirit appears in Christian Science, the nothingness of matter is recognized." (S. & H., pp. 479, 480).

Juniors Give Assembly.

(From "The Bulldog")

Friday, March 9, the junior class gave a short assembly program for the students. Each class and organization gives such a program during the year. For the juniors, Neva Richards gave a reading, "Oh No," and "Bill Lindner sang, "Honey-moon Hotel" and "Star Dust."
