## DODD CASTS HAT IN POLITICAL RING FOR OFFICE OF GOVERNOR

### CANDIDATES STAMPEDE IN POLITICAL RACE.

#### Hot Fight Looms for Republican Nomination for Governor With Seven Men in Running.

E. P. Dodd of Hermiston has filed for governor in the republican primaries, making a total of seven out for this nomination. Mr. Dodd had announced last week that he intended to file for the office on a river program and as the closing time for filing drew near he became more enthused as friends urged him to enter the race.

Total filings for all offices were reported as follows: Republican, 198; democrats, 130; non-partisans, 38. The Dodd candidacy for governor had been expected unless one of the existing candidates picked up in a manner vigorous enough to satisfy him, his favorite plank of Columbia river development. His entry was not quite as dramatic as the sudden entry of General G. MacAlexander of Newport into the same battle, but it was later chronologically.

This gives the republicans a field of seven from which to select their gubernatorial nominee. Rufus C. Holman, Joe E. Dunn, Frank J. Loneragan, all of Portland; Charles Hell, Oswego; Sam H. Brown, Gervais; Mr. Dodd, Hermiston; and General MacAlexander, Newport. Previously, W. E. Burke of Yamhill had withdrawn after a "convention" nomination.

The democrats have a two-man choice. General Charles H. Martin, incumbent congressional representative who announced several months ago, and Willis E. Mahoney, young mayor of Klamath Falls.

## CITY ALLOWED 24-HOUR FLOW OF WATER BY DISTRICT

At the regular city council meeting Wednesday night, officials of the Hermiston Irrigation district informed the council that the city would be allowed a straight 24-hour flow of irrigation water, starting Friday morning, April 6, at 3:00 A. M., and continuing until all city property has had a four inch application of irrigation water. This ruling is due to a decided shortage of water in the reservoir this season.

H. A. Pankow, city water superintendent, announced today that irrigation water will have to be used whenever he notifies the city property owner, no matter what the hour. The city will be divided into sections in order that one section will not be burdened with night irrigation during the entire season.

## JACOBSEN ASSIGNED TO COUNTY AGENT'S OFFICE

With the dairy-plan having considerable application to Umatilla county and because of the congestion in the office of County Agent Walter A. Holt, county Agent F. L. Ballard of Corvallis requested an additional cooperation from the Agricultural Adjustment Administration and as a result Mr. Noland A. Jacobsen has been assigned without cost to the county or state.

Mr. Jacobsen will be available to assist Mr. Holt for at least three months and perhaps for a six or nine months period.

In the immediate future the Agricultural Adjustment Administration will release a dairy control program more extensive so far as number of farmers reached than any of the several control programs developed up to this time.

The wheat control program work was of major interest in Umatilla county and the hog program is of more interest than was at first expected with more contracts signed up at this time. Work on these various agricultural adjustment projects has so far taken the time of Mr. Holt that his regular program of agricultural extension work has been seriously retarded.
