

FARM CO-OPERATIVE DIVISION

A MESSAGE TO EVERY MEMBER.

FRANCIS DUYCK EXPLAINS LIMA BEAN CULTURE

In view of the fact that several farmers in the Stanfield and Hermiston districts have contracted with seed companies for the growing of lima beans, Assistant County Agent Garnet D. Best, has asked Mr. Francis Duyck of Stanfield to prepare the following article on lima bean culture for their guidance.

Mr. Duyck grew twenty acres of baby lima beans on the Sunrise ranch at Stanfield last year, and made a study of their culture.

For the benefit of those planning on planting lima beans the following suggestions are made. The growing of lima beans is truly an experiment as far as this locality is concerned. There were some very good beans grown on the Stanfield project last year but not enough to establish them as a permanent crop, nor to insure a ready market. For this reason considerable care and effort should be given by the growers to the crop. There are now enough plantings being made to give the undertaking a fair trial and if it is successful bean growing should prove a boost to the community.

One should keep in mind that growing beans is considerably different from potatoes, from start to finish. In order to avoid a large amount of hand weeding the weeds in the bean patch must be killed as far as possible before planting. Planting time for beans is about the same as that of corn and should be done as early as danger of frost is past. This year it will probably be safe to plant them the last week of this month.

Before planting, the ground should be well worked, and early irrigation is advisable if there is not rain to sprout the weeds. As the bean must be moist in order to sprout, an irrigation just long enough ahead of planting to allow proper drying of the ground, is advisable.

The beans should be planted just deep enough to get the necessary moisture to sprout, and may be harrowed with a spike-tooth harrow, as late as the fourth day, if the harrow teeth are turned back. On the fifth day, under favorable conditions, the beans will begin to push out of the ground.

The small lima bean can be planted with a "free running" grain drill. The best practice in the Boise valley has been to plant them 100 or 105 pounds to the acre, in alternate 24 and 18 inch rows. Twenty-four inch rows have been found practical where a one-horse cultivator is used. It is impossible to use the ordinary riding cultivator in rows of 24 inches, or less, apart. Planting more than 24 inches apart is not advisable as the plants will not shade the ground as early or effectively. In some places difficulty has been found in getting a stand, but following the drill with a spike harrow, set not too deep, and a roller behind the harrow, has been found of some help in conserving the moisture and keeping it near the top.

If the seed bed has been well prepared and the moisture properly conserved, it should not be necessary to water again until the beans begin to bud. Strange as it may seem "the crop will be better and come on much sooner if not over-watered." The ground can get quite dry without harm to the beans but plenty of water at the budding and blooming stage is necessary.

Some of the best growers, water only every other row and always the same rows. Where they are planted in alternate 24 and 18 inch rows, the 24 inch rows, only, are watered, and no effort is made to sub the water from one row to the other. One will have to use his own judgment in the matter of watering, keeping in mind that it is easier to water too much, rather than not enough.

The bean patch should be kept as free from weeds as possible. Cultivating before planting will help if there is enough top moisture to start the weeds. As mentioned, they may be harrowed as late as the fourth day after planting. Thereafter, a cultivator must be used.

Up and down the rows with a spike cultivator should be very effective. A second cultivating later with the shovels set to leave a good ditch, should be enough in most cases. However, in most soil types, cultivating soon after watering will help conserve the moisture.

It is absolutely necessary that all night shade and similar weeds be entirely removed before harvesting. A few night shade can ruin the entire crop of beans.

CO-OPERATIVE CANNERY OPENS CANNING SEASON APRIL 16.

Beginning Monday, April 16, we will be canning asparagus on Monday, Wednesday, Friday and Saturday, from 9:00 A. M. to 3:00 P. M.

There will be a canning fee of 25c for the season, and each person will be furnished with an individual stamp for marking cans.

Our terms for canning will be cash at time of canning if possible, but no credit will be extended for more than two weeks.

Canned goods that are not removed within thirty days, will be charged with storage at the rate of one cent per can per month.

Get your asparagus canned as early as possible so it will be out of the way for other vegetable canning.

HERMISTON CO-OP CANNERY, By O. L. Barlow.

Irrigon Grange Entertains.

An interesting program was enjoyed by a large audience of members and friends at the regular meeting of the Irrigon Grange held Wednesday, April 4. The program was as follows:

- Trombone solo Robert Walpole
- Agricultural Report of Sec. Wallace by C. R. Woods
- Trio, vocal number Minnie McFarland, Effie Bullock and Raymond McNabb.
- Talk, "Subsistence Homesteads" by A. C. Houghton
- Vocal solo Rhoda Shellenberger, accompanied by Helen Heath
- Recitation Clay Woods
- Violin solo Stanley Atkin, accompanied by Helen Heath
- Talk on Proposed Co-operative Hospital by Minnie McFarland.

COUNTY AGENT EXPLAINS CORN-HOG REDUCTION CONTRACTS.

(Continued from page one)

der wheat or corn contract, then you must not plant for harvest this year more than 230 acres of all crops combined.

According to your contract you have agreed not to purchase more feeder pigs in 1934 than your average purchases for 1932 and 1933. You are permitted to grow 75% as many pigs for market as the average for 1932 and 1933 plus the average number that you slaughtered for home use on the farm. For example, if you grew 50 pigs for market average during the base years you could grow 37 pigs for market in 1934 and if you slaughtered an average of 2 for home use during those 2 years you could grow 37 plus 2 or 39 pigs for 1934. It is understood, of course, that if you slaughtered for home use pigs that were purchased to fatten on the farm you would not be permitted to add these to your 75%.

If on January 1st, 1935, you have marketed or are holding for future marketing more pigs than your quota allows there will be deducted from your payments, \$20.00 for each pig above that quota. This penalty would rapidly absorb the profit from reduction payments.

Records on all Hog Sales: For your protection you should keep a record of all hogs sold from the farm in 1934 and obtain at the time of sale a sales slip or receipt which you should file away with your record.

Corn and Hog Production Controlled on other farms: If you operate other farms not included in the contract you have agreed not to increase corn or hog production on such farms above the average for the years 1932 and 1933.

The Object to Improve Farm Prices: The Agricultural Adjustment Act is intended to improve the price level for commodities you produce and your earnest co-operation in this regard should result in help to you in the sale of your products in the future.

Columbia Park Clean-up. Members of the Columbia park board have authorized Friday, April 20, as official spring clean-up day. The ladies of the Farm Bureau Auxiliary will serve a pot luck dinner at noon and everyone who possibly can is asked by the board to be present. If sufficient help is available the cleaning can be accomplished in one day. Proper tools will be necessary and workers are requested to furnish them.

FARM BUREAU AUXILIARY WILL SPONSOR ALL DAY CLEAN-UP. As a feature of the next regular meeting of the Farm Bureau Auxiliary the ladies will sponsor an all day clean-up. The next meeting

will be Friday, April 20, and the ladies will serve a pot luck dinner at noon to everyone who brings the necessary tools for the clean-up. Members of the entertainment committee are Mrs. H. Hooker, Mrs. R. Addleman and Mrs. Jackson Harr. At the last meeting Friday, April 6, Mrs. H. M. Sommerer read an interesting paper on gardening in which she stressed particularly the advantages of gardens planted in the early season and for the later season. Mrs. M. Smith read a paper on bulbs, giving the best time for planting and care. Mrs. H. Ott talked on plant pests and mentioned particularly the red spider as a No. 1 criminal for plant destruction. Mrs. Ott, Mrs. Smith, and Mrs. Sommerer were in charge of the entertainment and also served tasty refreshments.

Information Requested. Certificates of equity issued in 1925 numbered from 1 to 83, inclusive, have been called for redemption. For this purpose the address of the following persons, is requested.

- 71 W. H. Copeland Stanfield
- 83 E. C. Lyle Hermiston

If the certificates are endorsed and sent in to the office, checks in payment thereof will be mailed out promptly.

Turkey Pool Expected Soon. The Eastern Oregon Turkey Growers association will probably hold a pool of breeding stock between the 10th and 15th of April. It has been announced from the assistance county agent's office. All members who expect to market birds are requested to leave the number of birds they expect to pool, with their name, at the office of Garnet D. Best at the Reclamation building.

READ AND STUDY THE SALES TAX BILL.

THREE BRANDS OF BUTTER ASSURED ON MARKET.

One of the most important changes brought about in the marketing of butter with the adoption of the new butter marketing agreement is the change in designating the three brands of butter. The new agreement calls for the labeling of all butter as either A, B or C grades. These new grades replace the former of extra, standard and second which have caused much confusion in the past in the minds of Oregon housewives.

Temporarily the butter cartons will be marked with a collar or strip bearing the official state insignia of either A, B or C until the present supply held by creameries is used up. The print or parchment wrap, as it is often called, will also bear the state brand label.

The new brand requirements go into effect on April 15 and it is expected that increased consumption will result from the new improved quality of cream which will be used in the manufacture of Grade A butter, since only quality cream, for which a premium will likely be paid, will be used in the manufacture of the top, or A grade.

"Housewives will no longer have butter she buys. A purchase of Grade A butter will assure her of the top quality of wholesome, tasty butter," said Max Gehlar, Director of State Department of Agriculture, over station KOAC this week.

PROPOSED SALES TAX DISCUSSED AT CECIL POMONA GRANGE.

A discussion of the proposed sales tax for the benefit of the schools featured the Morrow County Pomona Grange meeting at Cecil, Saturday, J. B. Adams, Moro, president of the Eastern Oregon Wheat League, stressed the need of the sales tax in upholding the affirmative, and Ray Gill of Portland held the tax unfair and discriminatory in taking the negative side of the argument. Gill also declared the state grange executive committee and the state labor organizations had proposed other forms of taxation, which, if adopted, would make the sales tax unnecessary. The discussion was reported as interesting and informative.

Other program features included community singing led by Mrs. Royal Rands, Boardman; reading by Clay Woods, Irrigon; reading by Mae Doherty, Rhea Creek; vocal duet by Mrs. Harry Schriever, Lexington, and Mrs. Royal Rands, Boardman; one-act play, Willows.

Considerable time was given to the discussion of a livestock shipping association for the county. Each subordinate grange will elect a member of the board of directors, and the directors will complete the organization. All livestock shippers in the county will be solicited for cooperation with the association.

Stanfield Grange News.

The sales tax will be discussed by Grange members at the next regular meeting, April 21. An opportunity will be given for any one to present arguments for and against the bill. The program will also include several purely entertaining features.

The next Grange dance will be held in the hall Saturday evening, April 14. Music will be furnished by the Cub Wranglers and the usual good time is promised for all who attend.

CREDIT BANK DISCOUNTS NOTES FOR P. C. A.

Thirteen borrowers in seven production credit associations were advanced \$14,452 up to April 3 by the Federal Intermediate Credit bank of Spokane, since the completion of these newly-organized associations. The Spokane Intermediate Credit bank discounts the farmers' notes of the 31 Production Credit associations in the States of Washington, Montana, Oregon and Idaho. At the close of business March 31, the bank had acted upon approximately 300 applications distributed between the four northwest states, Washington, 262; Idaho, 41; Montana, 26, and Oregon 25.

Notice of Sheriff Sale.

NOTICE IS HEREBY GIVEN that the undersigned, Sheriff of Umatilla County, State of Oregon, will at the hour of ten o'clock in the forenoon on the 14th day of May, 1934, at the front door of the County Court House of Umatilla County, Oregon, in Pendleton, Oregon, offer for sale to the highest and best bidder upon the terms hereinafter set forth, subject to the minimum price as hereinafter set forth, the following described parcels of real property heretofore by Umatilla County, State of Oregon, acquired for delinquent taxes, to-wit:

- PARCEL 1. Lot 9, Block 67, Coe's First Addition to the City of Stanfield, Umatilla County, Oregon.
- PARCEL 2. Lot 10, Block 67, Coe's First Addition to the City of Stanfield, Umatilla County, Oregon.
- PARCEL 3. Lot 11, Block 67, Coe's First Addition to the City of Stanfield, Umatilla County, Oregon.
- PARCEL 4. Lot 12, Block 67, Coe's First Addition to the City of Stanfield, Umatilla County, Oregon.

The said described parcels of real property shall be offered for sale upon the following terms, to-wit: Twenty percent of the purchase price in cash, the remainder to be paid under written agreement with the purchaser in equal installments over a term of nine years from the

(April 12 - May 10)

PROPOSED ORDINANCE OF THE CITY OF UMATILLA.

AN ORDINANCE granting to the Shaver Forwarding Company, its successors and assigns, the right, privilege and franchise to use certain water frontage on the Columbia river and land adjacent thereto within the corporate limits of the City of Umatilla, and owned by the City of Umatilla, fixing a time limitation thereon, yearly rental therefor, and providing for forfeiture of franchise for failure to comply with the terms of the ordinance.

THE CITY OF UMATILLA DOES ORDAIN AS FOLLOWS: Section 1. That there be and is hereby granted to the Shaver Forwarding Company, an Oregon Corporation, its successors and assigns, the right, privilege and franchise to use certain water frontage on the Columbia river and land adjacent thereto within the corporate limits of the City of Umatilla, and owned by the City of Umatilla, fixing a time limitation thereon, yearly rental therefor, and providing for forfeiture of franchise for failure to comply with the terms of the ordinance.

houses, boat landing facilities for the purpose of loading boats and barges and the storing and loading of wheat and all kinds of farm products and merchandise of all descriptions for transportation on the Columbia River, and said property shall be used exclusively for shipping, warehouse and general shipping and transfer purposes.

Section 2. This franchise shall be for the exclusive use of so much of the above described City property as may be necessary or convenient for use by the grantee, its successors and assigns, in their shipping and transfer operations and shall continue for a period of ten (10) years upon payment to the City of the rental of the sum of Ten Dollars (\$10.00) per year, payable in advance.

Section 3. The Shaver Forwarding Company, its successors and assigns, shall cause to be made and maintained on property with such improvements as may be placed thereon, in good order and repair throughout the entire term of the franchise, and shall make no unlawful use of the same.

Section 4. Construction of the work under this franchise shall be begun on or before July 1, 1934, and the actual use of said property shall be commenced on or before that time; the estimated total cost of such work is the sum of \$1000.00 and the annual sum to be expended thereon until completion is the sum of \$100.00.

Section 5. At the expiration of the term for which this franchise is granted, the City of Umatilla may, at its election, purchase and take over to itself the property and plant of the grantee in its entirety which under this franchise shall be under the said property, or any thereof and used in connection therewith, at a compensation to be determined as herein provided. If the said City and the grantee cannot agree upon the said compensation, the same shall be determined and fixed by three arbitrators, all of whom shall be residents of Umatilla County, one to be selected by the said City, one by the grantee and the third by the two so selected, and the decision of said arbitrators shall be final and binding upon the said City and said grantee, but in no case shall the value of the franchise be considered or taken into account in fixing such valuation, and in case the said City decides to exercise its said option to purchase, it

shall give written notice of its intention to the said grantee, its successors and assigns at least 120 days before the expiration of this franchise and in such case no improvements shall be removed from said property without the consent of said City. But in case the said City shall not exercise its said option to purchase then any buildings, structures or other improvements may be removed from said property by said grantee, provided such removal can be accomplished without any damage to said property.

Section 6. The said grantee shall have the right to sublet any part of said property for shipping or warehousing purposes provided the City's approval is first obtained in writing.

Section 7. This franchise shall be entirely forfeited and held for naught at any time when the said grantee, its successors and assigns, shall cease to use the said property for a period of six consecutive months for the purposes herein set forth; when said grantee, its successors and assigns, shall violate any of the provisions of this franchise or when they shall for any reason fail to operate boats or barges on the Columbia River between Umatilla and Portland for the transportation of merchandise for a period of twelve consecutive months, provided, however, that no forfeiture shall take place or be declared for any such failure caused by act of God, or when such failure to operate boats is practically impossible, on account of river conditions.

Section 8. If the said grantee shall fail or refuse to file in the office of the City Recorder its written acceptance of this franchise within thirty days after this ordinance shall be in force and effect, then this ordinance shall be null and void.

Section 9. This ordinance shall be in full force and effect thirty days after its passage by the Council and approval by the Mayor.

The foregoing is a proposed ordinance being considered by the City Council of the City of Umatilla. Anyone interested may discuss the same with the City Council at any regular meeting up to and including the meeting of May 7, 1934.

E. MCKENZIE,
Recorder of the City of Umatilla, Oregon.
