

FARM CO-OPERATIVE DIVISION

A MESSAGE TO EVERY MEMBER.

MEETING OF THE BOARD OF DIRECTORS OF FARM BUREAU CO-OPERATIVE.

The meeting was called to order by the chairman, P. P. Sullivan, with all members of the board being present.

The consensus of opinion of those present was to the effect that many prepared feeds are not safe feed for young poults and growing pullets.

(Extract from minutes of directors' meeting.)

J. H. REID, Secretary. Any member of this committee will be glad to offer any assistance to those wishing information regarding poult feeding.

FARMER COMING OUT OF THE RED, REPORT SHOWS

(Industrial News Review) There is good news for the farmer in a late Department of Agriculture report. The farm price index, on March 15, was at 76, as compared with 50 a year ago.

In addition, the index of prices that farmers pay for the things they buy was 120, as compared with 100 a year earlier.

A great deal of the credit for that must go to the farm-cooperatives. They have put in what is possibly the hardest-working, most aggressive year in their history.

Those are definite achievements. And during the present year, the co-ops are carrying on their campaign for better, and more prosperous farming with unabated energy and vigor.

SENATOR SAM H. BROWN WILL SPEAK AT WILLOW GRANGE

Senator Sam H. Brown of Gervais, Ore., who has been a member of the legislature for many years, and is now a candidate for Governor of Oregon, will be at Willow Grange at Ceeli, Saturday evening, April 28, and will talk on political questions of the day.

Mr. Brown is a Granger, having belonged to North Howell Grange in Marion county for several years.

Grange will be called to order about 7:30, and about 8:30 will be put in charge of the lecturer for that program, which will be open to the public.

INLAND EMPIRE WHEAT CROP SHOWS GREAT PROMISE.

Spokane, Wa.—Henry Collins, president of the Pacific Continental Grain company of Portland, while in Spokane last week and after having completed a survey of the wheat country of the Inland Empire said, "The Inland Empire wheat crop holds the greatest possibilities in years."

Mr. Collins said that the present condition of the crop is the best he ever saw it at this time of the year that it is "perfectly wonderful". He reported the wheat high and thick.

OREGON CORN-HOG TABULATION OF SIGNERS COMPLETED

The tabulation of signers in the Oregon corn-hog campaign shows that a total of 6580 contracts have been completed, representing every county in the state.

First major steps toward getting a program of adjustment for the beef cattle industry is taking place with a conference of representatives of the industry which started in Chicago April 26.

Notice of Farm Bureau Meeting.

There will be a meeting of the Umatilla Project Farm Bureau, in the Methodist Church, Friday, April 27th, at 8:00 P. M.

At this time a Fair Board will be elected for the coming year, and other business will come up.

C. M. JACKSON, Secretary.

Turkey Growers Will Ship.

The Eastern Oregon Turkey Growers' association will ship turkeys Tuesday, May 1st, from its warehouse. All birds must be delivered by 8:00 o'clock Tuesday evening, and if possible growers are requested to leave number of birds for shipment with Garnet D. Best, assistant county agent.

Stanfield Grange Dance.

There will be a dance at the Grange hall in Stanfield Saturday night, April 28. A large crowd is anticipated and good music will be furnished. Everyone is invited to attend.

Canning Schedule for Week.

Tuesday and Thursday, No. 2s. Monday, Wednesday, Friday and Saturday, No. 2 1/2s.

Asparagus is being canned at present.

Information Requested.

Certificates of equity issued in 1925 numbered from 1 to 83, inclusive, have been called for redemption. For this purpose the address of the following persons, is requested.

71 W. H. Copeland ..... Stanfield 83 E. C. Lyle ..... Hermiston

O. S. C. MAN TO AID HUNT FOR CODLING MOTH SPRAY.

R. H. Robinson, chemical specialist on spray materials at Oregon State college, has been "loaned" to the federal bureau of chemistry and soils for five months to assist in carrying on an intensive research project this summer by which it is hoped to develop a substitute for arsenate of lead as a spray for codling moth.

Using PWA funds, the federal department of agriculture has established emergency stations in the apple growing sections of Idaho, Missouri and Virginia where entomologists will be stationed this summer to test at least three organic poisons as to their effectiveness in codling moth control. These are nicotine sulfate, pyrethrum and rotenone.

Prof. Robinson was chosen as the best man in the entire country to assist the entomologists with expert guidance as to the chemical combinations of the spray materials to be used and their effects on the trees under varying conditions, as well as their relation to spray residue removal.

It is with the idea of solving the spray residue problem that the intensive search for a new codling moth spray is being undertaken. After the industry with the aid of the experiment stations perfected methods for removing arsenical residues it was determined that the lead residues remained on the apples in varying amounts. With the establishment of low tolerances on lead residues it is now important to develop substitute sprays by which to relieve the industry from the expense and uncertainties of meeting these new requirements.

SALT TREATMENT FOR POSTS AND POLES; SCHOOL OF FORESTRY, O. S. C.

By Prof. T. J. Starker. After receiving this statement, Walter A. Holt, county agent, wrote to Professor Starker to ask him if this treatment would be effective with other woods. He replied as follows:

"In general we feel that the more durable woods, such as Western Juniper, Western Red Cedar, etc., would not justify the use of this preservative because of the natural long life of those woods. The treatment, to be effective, must provide means for a solution so that the toxic salts will work through the fibers of the wood. If the posts are partially dry, I would suggest that water be poured into the hole before corking."

The use of various salts in treating fence posts to retard decay has been practiced for about 35 years in Oregon. The School of Forestry has been testing this treatment five years and hence, cannot state definite conclusions. However, posts and poles that have been treated by individuals and companies have been examined and results obtained that indicate the method has much merit and that it is worthy of use.

MATERIAL It is important that green material be used, since the efficiency of the treatment depends upon the amount of moisture in the post and that secured by absorption. This moisture dissolves the salts and carries them through the fibers of the wood. The bark need not be removed.

FORMULA The material used consists of equal parts, by weight, of corrosive sublimate, arsenic and common salt. A tablespoon of this mixture is sufficient for a 4" post.

APPLICATION A 3-4" hole should be bored in the post or pole about 6" above the ground line, slanting downward. This hole can best be bored before the post is set in the ground. After the required amount of mixture is inserted, the hole should be stopped with a cork or wooden plug to prevent stock licking the poison. If larger posts or holes are used, 2 or more holes are suggested. For example: 2 holes for 3" and 3 holes for 10-12" pieces.

COST The cost will depend upon the charge made for the various salts, but should not be in excess of 5c per 4" post. Commercial grades of the material are less expensive than the refined stuff. The above cost figure does not include labor for preparation of the posts for treatment.

ADVANTAGES. 1. The method is inexpensive. 2. A life of 15 years has been secured with 4" Douglas fir posts treated in this manner. This represents a saving in replacements. 3. In many cases posts can be cut along the fence line, thus saving transportation costs. 4. No time or labor is needed in seasoning material used. 5. No expensive equipment is necessary. 6. No particular skill or experience necessary in making the application. 7. Small material and thinnings, which would otherwise be wasted, can be used.

DEALERS, GROWERS DEBATE PLAN FOR RYE GRASS SALE.

A general plan for handling the 1933 rye grass seed crop in Oregon to prevent the market from breaking under the influence of a prospective surplus production was laid before a conference of seed dealers and growers held at Oregon State college the third week in April. The plan was proposed in general terms by James Jenks, Jr., seed dealer of Salem and Albany, and while no definite action was taken at this meeting, considerable interest was shown in the idea.

Two years ago rye grass prices dropped almost to the vanishing point under the influence of an unmarketable surplus. The surplus was cleaned up this last year because the 1933 crop was a failure due to winter freezing. With prospects of a large crop this year, dealers and producers asked the college to sponsor a conference looking to avoiding a repetition of the former difficulties.

Should the trade in Oregon fail to enter into a voluntary plan of surplus control and price regulation as proposed by the conference, laws exist whereby a code could be imposed on the industry to force orderly marketing, some speakers pointed out.

Need for better sales promotion of Oregon rye grass seed, and above all the need of putting out a better quality so far as purity of strain and freedom from weed seed is concerned was emphasized by several. G. R. Hyslop, head of the plant industries, explained the certification program with English rye grass, after H. A. Schoth, federal agronomist, discussed the various species and varieties being grown.

E. F. Burlingham of Forest Grove called attention to the growing need for both surplus and quality control in the hairy vetch and Austrian pea deals, saying that the volume of these crops for seed is closely approaching the saturation point of present markets. Oregon has the opportunity of developing its seed industry to far greater proportions than now obtain, but this can be done profitably only through a plan of statewide control to discourage surplus production and indiscriminate "distress sales" of the surplus which wrecks the price for the whole crop," Dean W. A. Schoenfeld told the conference.

AUTO FATALITIES IN STATE ONE DEATH EVERY OTHER DAY.

Is today or the day after tomorrow your day?

Thus asks the drivers' bureau of the secretary of state's office as it looks over the fatal motor vehicle accident records received since January 1, and finds that someone has been killed in Oregon on an average of every other day in the 90-day period ending March 31.

Fifty-two persons have lost their lives as a result of traffic difficulties in the 90 days, which averages more than a fatality every two days, but for point of comparison the bureau calls it a death every other day and urges every driver to remember that average as he drives the highway.

While the 1934 total is four less than the 56 casualties in the first three months of 1933, P. J. Stadelman, secretary of state, believes that there is no cause for pride in the record thus far this year. "A seven per cent decrease in fatalities is not enough when it still leaves an unnecessary death to add to the records every other day," he points out.

Particular care on the part of the pedestrian and caution on the part of the motorist as he approaches or passes a pedestrian is imperative in view of the records, which show nine pedestrian deaths in March, out of a total of 16.

"Be careful that tomorrow is not your day to be the victim or cause of a fatal accident," repeats the state division, as it chalks up yesterday's fatality.

STATE GASOLINE SALES DECREASE MILLION GALLONS.

A decrease of 1,057,937 gallons in gasoline sales in March, 1934, under March, 1933, is shown by figures just compiled by P. J. Stadelman, secretary of state. A loss of \$61,060 gallons was shown in February reports, and gasoline price wars in February and March, 1933, are held accountable for the larger sale the preceding year.

With an increase of 517,987 gallons in gasoline consumption in January of this year, the total loss for the three months was 1,401,010 gallons. Due to the added cent in tax collected this year, a gain of \$287,891.05 was made in revenue during the quarter. Increase in income from this source in March was \$89,340.37, with a total of \$657,512.39 collected on a sale of 13,150,247 gallons.

U. O. Enrollment Near 2000.

Eugene, Ore.—Enrollment at the University of Oregon, for the spring term, neared the 2,000 mark, with 1964 now on the campus. This is a decrease of only four per cent over spring term a year ago, and a less than usual decrease over last term. CWA jobs for approximately 200 students have helped to keep enrollment up this term, officials state.

U. of O. Professor Chosen.

Eugene, Ore.—Harold J. Noble, associate professor of history, at the University of Oregon, an authority on history of the Orient where he spent many years, has been invited to attend a summer seminar on Far Eastern Studies at Berkeley, June 25 to August 3. Thirty professors from Pacific coast universities will be invited.

CHURCH NOTES

METHODIST CHURCH. Preaching service at 10:00 A.M. Sermon subject, "The Three Lost People." Sunday school at the usual hour with classes for all ages. Epworth league at 6:30 P. M. for all young people. Preaching service at 7:30 P. M.

WANT ADS

FOR SALE—GOOD ALFALFA HAY C. C. Cline-Smith, Hermiston, 35-1tc

FOR SALE—STACKER-POLE. AT the Mrs. Jessie McDaris ranch, 6 mi. northeast of Hermiston. 35-1tp

POTATOES TO TRADE FOR WHAT have you. Ed Johnson; Inquire E. E. Rainwater, Hermiston. 35-1tp

YEARLING GUERNSEY HEIFER—Strayed or stolen. Will pay for information or return. E. E. Rainwater, Hermiston. 35-1tp

STRAYED TO MY FARM—TEAM of dark brown horses; mare has brand of circle triangle, and white spot on forehead. Mrs. Jessie McDaris, 6 mi. northeast of Hermiston. 35-1tp

KRISTEE ELECTRIC INSTANT Water Heater and Miracle Wall Cleaner, chemically treated, sponge rubber. Also other household rubber goods. Mrs. R. E. Osborn, Hermiston, Ore. 34-2tc

WILL TRADE HORSES, CATTLE, for cream separator, two-horse Fresno, spring tooth harrow. Bessie DeYoung, Stanfield, Ore. 34-1tp

FOR SALE—EXTRA GOOD FAMILIAR cow; 4-years-old; just fresh. Inquire at Geo. Beddow. 34-2tc

"VIGORBILT" BABY CHIX, LEG-horns, Reds, Rocks, R.I. Whites. Bloodstested stock—whole blood antigen test. Buy your chicks from a local institution. Custom hatching. Starter chicks. "Vigorbilt Hatchery, Hermiston, Oregon. 28-4tp

SWIFT & CO.—BUYERS OF POULTRY and Eggs. A. M. Smith, Hermiston, Ore., Agent. 271tc

HERMISTON UNION CHURCH

C. R. Moore, Minister. Sunday school at 10:00 o'clock sharp. Classes for all ages with song service preceding assembling of classes. Preaching service at 11:00 o'clock on the subject, "Our Money and the Kingdom."

At 6:45 P. M., Christian Endeavor. Edith Clarke and Pauline Stoop will report on the state C. E. convention held at Salem over the week end.

Evening preaching service at 7:45 on the subject, "Tearing Down the Mountains, Filling Up the Valleys, and Making the Rough Places Smooth."

Saturday night at 8:00 o'clock the young people's Bible class, oratory and physical culture class will meet. At last Saturday's meeting a good attendance was had and much interest shown.

We invite you to the home-like church where a home-like greeting awaits you.

NOTICE OF HEARING UPON FINAL REPORT.

IN THE COUNTY COURT OF THE STATE OF OREGON FOR UMATILLA COUNTY.

In the Matter of the Estate of ) of ) Thomas L. Stewart, Deceased )

NOTICE IS HEREBY GIVEN that the undersigned executrix of the last will and testament of Thomas L. Stewart, deceased, has filed final report with the Clerk of the above entitled Court and that the Judge of said Court has designated Saturday, the 26th day of May, 1934, at 2:00 o'clock in the afternoon as the time, and the rooms of the above entitled Court in the County Court House in Pendleton, Umatilla County, Oregon, as the place when and where hearing is to be had thereon. All persons interested are hereby notified to then and there appear and show cause, if any they have, why said report should not be approved, the administrator discharged, her bondsmen exonerated and the estate closed.

Dated this 26th day of April 1934. JULIA E. O'GRADY, Executrix. (April 26-May 24)

NOTICE OF HEARING UPON FINAL REPORT.

IN THE COUNTY COURT OF THE STATE OF OREGON FOR UMATILLA COUNTY.

In the Matter of the Estate of ) of ) Frank L. Metz, Deceased )

NOTICE IS HEREBY GIVEN that the undersigned administrator of the estate of Frank L. Metz, deceased, has filed his final report with the Clerk of the above entitled Court and that the Judge of said Court has designated Saturday, the 26th day of May, 1934, at 2:00 o'clock in the afternoon as the time, and the rooms of the above entitled

Court in the County Court House in Pendleton, Umatilla County, Oregon, as the place when and where hearing is to be had thereon. All persons interested are hereby notified to then and there appear and show cause, if any they have, why said report should not be approved, the administrator discharged, his bondsmen exonerated and the estate closed.

Dated this 26th day of April, 1934. H. A. PANKOW, Administrator (April 26-May 24)

Notice of Sheriff Sale.

NOTICE IS HEREBY GIVEN that the undersigned, Sheriff of Umatilla County, State of Oregon, will at the hour of two o'clock in the afternoon on the 14th day of May, 1934, at the front door of the County Court House of Umatilla County, Oregon, in Pendleton, Oregon, offer for sale to the highest bidder for cash in hand, subject to the minimum price of \$80.00, the following described parcel of real property heretofore by Umatilla County, Oregon, acquired for delinquent taxes, to-wit:

The South Half of the Southwest Quarter of Section Twenty-two (22) Township Three (3), South Range Thirty-one (31) E. W. M., in Umatilla County, Oregon.

Dated this, the 9th day of April, 1934.

R. E. GOAD, Sheriff of Umatilla County, Oregon. (April 12 - May 10)

Notice of Sheriff Sale.

NOTICE IS HEREBY GIVEN that the undersigned, Sheriff of Umatilla County, State of Oregon, will at the hour of ten o'clock in the forenoon on the 14th day of May, 1934, at

the front door of the County Court House of Umatilla County, Oregon, in Pendleton, Oregon, offer for sale to the highest and best bidder upon the terms hereinafter set forth, subject to the minimum price as hereinafter set forth, the following described parcels of real property heretofore by Umatilla County, State of Oregon, acquired for delinquent taxes, to-wit:

PARCEL 1. Lot 9, Block 67, Coe's First Addition to the City of Stanfield, Umatilla County, Oregon.

PARCEL 2. Lot 10, Block 67, Coe's First Addition to the City of Stanfield, Umatilla County, Oregon.

PARCEL 3. Lot 11, Block 67, Coe's First Addition to the City of Stanfield, Umatilla County, Oregon.

PARCEL 4. Lot 12, Block 67, Coe's First Addition to the City of Stanfield, Umatilla County, Oregon.

The said described parcels of real property shall be offered for sale upon the following terms, to-wit:

Twenty percent of the purchase price in cash, the remainder to be paid under written agreement with the purchaser in equal installments over a term of nine years from the date of sale, all deferred payments to bear interest from date of sale at the rate of six per cent. per annum, payable annually.

The minimum price for which each of said described parcels of real property shall be sold, shall be as follows, to-wit:

Parcel 1. Minimum price .. \$20.00 Parcel 2. Minimum price .. 20.00 Parcel 3. Minimum price .. 60.00 Parcel 4. Minimum price .. 900.00 Dated this 9th day of April, 1934.

R. E. GOAD, Sheriff of Umatilla County, Oregon. (April 12 - May 10)
