MADAM, THIS McCORMICK-DEERING IS EASIER TO KEEP CLEAN BECAUSE OF THESE RUST-PROOF STAINLESS STEEL DISCS

I'M GLAD TO HEAR THAT! OUR OLD MACHINE WAS HARD TO CLEAN TOWARD THE LAST

—and the best part of it is they will always be exactly the same, no matter how long she uses the McCormick-Deering. These new discs cannot and will not rust. Even the spacers are rust-proof stainless steel. Each disc is exactly like every other, making it unnecessary for them to be numbered or used in any special order. Satin-smooth seamless surfaces make the discs easier to keep clean. We will be glad to arrange a demonstration on your farm, giving you a real opportunity to examine and test the one machine that offers you stainless steel discs, ball-bearing construction, automatic lubrication, beautiful black japan finish, and skimming efficiency over an unusually wide range of temperatures. Six sizes are available.
