CHRISTIAN SCIENCE CHURCHES

"Good the Preserver of Man" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 17.

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Yea, forty years didst thou sustain them in the wilderness, so that they lacked nothing; their clothes waxed not old, and their feet swelled not" (Noh. 9:21).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures", by Mary Baker Eddy: "As the children of Israel were guided triumphantly through the Red Sea, the dark ebbing and flowing tides of human fear, as they were led through the wilderness, walking wearily through the great desert of human hopes, and anticipating the promised joy—so shall the spiritual idea guide all right desires in their passage from sense to Soul, from a material sense of existence to the spiritual, up to the glory prepared for them who love God. Stately Science pauses not, but moves before them, a pillar of cloud by day and of fire by night, leading to divine heights" (p. 552).

WITH FARMERS AROUND THE STATE

ROSEBURG—The third annual Douglas county lamb show will be held at Roseburg June 15, sponsored by the Douglas County Livestock Growers, according to J. Roland Parker, county agent and secretary of the organization. Premiums totalling more than \$150 are being offered for the various classes, with the committee in charge authorized to increase the premiums or extend the awards if the number and quality of exhibits justifies. Sheepmen are being urged to exhibit only the highest quality fat market lambs, and to show none weighing ninety pounds, as lambs over this weight are generally discriminated against by buyers at this time of the year.

LAKEVIEW—Crested wheat and Smooth Brome grass are apparently the only grasses to survive the past few years in most of the dry land forage nurseries in Lake county, according to V. W. Johnson, county

agent, who recently made a check up on this matter. Crested wheat grass made an excellent growth on the Charles Crump ranch in South Warner valley where it was planted early in 1929 on a dry hillside, and the wind had spread the seed and new plants were coming.

DALLAS—The largest planting of irrigated Ladino clover in Polk county is on the farm of W. T. Hoffman northeast of Independence, where 35 acres in a series of three or four fields are irrigated from two pumping plants connected with Ash creek. Mr. Hoffman uses this as pasture for his herd of 40 or more Jerseys.

ECHO PLANS BIG FOURTH OF JULY CELEBRATION

(Continued from Page 1)
will box four rounds as will Harold Hoshino of Pendleton and Bud Hiatt of Echo. Other snappy preliminary bouts are being arranged to make a full bill. An outdoor arena is being constructed capable of seating a thousand fight fans in comfort on this occasion.

The fireworks display will be staged on the high hills just east of town, probably about 9 o'clock. No expense has been spared to make this one of the best exhibitions of the kind seen in Western Umatilla county for many years.

For those who do not care for the fight event there will be a picture show in continuous performance at the Star Theatre and a jitney dance will be in operation at the city hall. Citizens of Echo will try to make it a pleasant occasion for the multitude of guests who are expected to attend the celebration.

COLUMBIA NEWS

Mr. and Mrs. David Arnott were visiting friends in the Columbia district last Wednesday. They were on their way to Cove, Ore., where they plan to make their home.

Joyce McCulley has been ill at her home for the past week. She is much improved now.

Helen Couture is visiting at her home this week. She plans on returning to Pendleton next week, where she will be employed.

The 20TH Anniversary KELVINATOR

THE REFRIGERATOR WITH A PLACE FOR EVERYTHING

Think of the convenience and economy of "filing" your foods! That's what Kelvinator gives you — the Food File — the Crisper for vegetables, the Dairy Section for butter, eggs and cheese, the Thrift Tray for left-overs—and the Frost Chest with a below freezing temperature where fish or meat can be kept fresh and wholesome—a place for everything, including the Water Cooler and Pastry Set.

This new 20th Anniversary Kelvinator does anticipate every refrigerating need of a modern home—gives you "4 refrigerators in 1," each fully automatic. There is one temperature service for food preservation on your shelves. Another for emergency fast freezing. A third for storing fish, game or meat indefinitely. The fourth for ice cubes and desserts. Be sure to see the 20th Anniversary Kelvinator before you buy any refrigerator.
