## GAYNOR-FARRELL TOGETHER AGAIN AFTER 18 MONTHS.

After 18 months of separation, Janet Gaynor and Charles Farrell, the screen's most romantic team, are reunited in "Change of Heart," which comes to the Oasis theatre, on Friday and Saturday. Heading the requests of thousands of fans to re-again these two screen sweethearts, the studio started an intensive search for a story that would be suitable for their reunion. Kathleen Norris' great modern novel, "Manhattan Love Song," was finally selected out of hundreds of stories as the perfect vehicle.

The screen play adapted from the novel is a modern drama of youth's epic struggle for love and happiness in the turmoil of Manhattan. The film relates a big city's grim challenge to four youngsters just out of college, two boys and two girls, who banded together by ties of loyalty and common interest, enter its portals, accept its challenge and begin their brave fight to achieve success, realize their dreams of ambition and possibly fame.

James Dunn and Ginger Rogers are billed as featured players in support of the two stars. They complete the quartette of youth around which the drama revolves.

Although for many years she lived on charity, Mrs. Nell Rogers, of Lamar, S. C., had \$5,367.17 hidden in an old cowhide trunk. The money was discovered when she died.

## OREGON MARKET FOR DAIRY LOWER THAN IN CALIFORNIA.

Information is now available from reliable sources to the effect that Oregon dairymen are selling many of their cattle too cheap, it was revealed from County Agent Walter A. Holt's office this week. This is particularly true of stock that is going to California.

County Agent Holt has been advised that California buyers have been buying fairly good cows for \$25 to \$40 in Oregon, and selling the same cows in California for \$90 to \$150. It appears that Oregon dairymen have lost thousands of dollars by selling cows at too low a figure. Dairymen are warned about selling stock before they contact Assistant County Agent Sawyer or County Agent Holt.

The specimens brought to this country for the first time were trapped by cutting holes in coconuts and pouring in some rice. The coconuts were then placed where the langurs would find them. They inserted a paw into the hole to get the rice, but when they couldn't withdraw their paws and they would not let go the rice. Thus encumbered, they were easy prey for the waiting men.
