CHRISTIAN SCIENCE CHURCHES
 "Love" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, August 5.
 Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Thou therefore, my son, be strong in the grace that is in Christ Jesus. . . Study to shew thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth" (II Tim. 2:1, 15).
 The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "What we most need is the prayer of fervent desire for growth in grace, expressed in patience, meekness, love, and good deeds. . . The habitual struggle to be always good is unceasing prayer. . . Simply asking that we love God will never make us love him; but the longing to be better and holier, expressed in daily watchfulness and in striving to assimilate more of the divine character, will enlighten and fashion us anew, and we awake in His likeness" (p. 4).

HERMISTON UNION CHURCH
